# Statement on the Relaunch of epT.I.P.S.<sup>®</sup>/ep Dualfilter T.I.P.S.<sup>®</sup> Packaging Option “Disposable Racks”

## Change of order numbers

Dear customer,

the new epT.I.P.S.<sup>®</sup>/ep Dualfilter T.I.P.S.<sup>®</sup> Racks have been developed with the goal of sustainability. In order to reduce plastic waste, the rack and lid have been modified.

While the design and functionality of the pipette tips and filter tips primary products are unchanged, additional functionality was added with the new rack design. We are convinced that the new features like lid locking option, optimized stackability and slim rack dimension make the new rack design superior versus the predecessor racks. This was also confirmed by extensive customer tests.

epT.I.P.S.<sup>®</sup> Biopur<sup>®</sup> pipette tips and ep Dualfilter T.I.P.S.<sup>®</sup>/ ep Dualfilter T.I.P.S.<sup>®</sup> LoRetention/ ep Dualfilter T.I.P.S.<sup>®</sup> SealMax/ ep Dualfilter T.I.P.S.<sup>®</sup> Forensic DNA Grade filter tips do not differ in handling nor in specification for any of the properties listed below:

- > Orifice diameter, inner diameter, outer diameter
- > Length and geometry of the pipette tips
- > Weight / Attachment forces / Ejection forces
- > Compatibility with Eppendorf pipettes and non-Eppendorf Pipettes
- > Quality of purity and sterility / Purity tests / lot specific certification / Production conditions and quality control processes
- > Pipette tip material (PP) / Resistivity to chemicals
- > Labeling of packaging
- > Number of tips per sales unit
- > Amount of tips / sales unit
- > The packing dimension up to the tip size of 1250 µL
- > The base material (PP) of the rack, tray and lid

The statement applies to the following products in Asia Pacific and Latin America:
