

Promotion: Eppendorf
Starter Packs for
5.0 mL and 25 mL

Get Started

All you need for centrifugation, heating and mixing of your sample with new Eppendorf Tubes®

Eppendorf Tubes 5.0 mL and Eppendorf Conical Tubes 25 mL are the benchmark designed for easy sample preparation. The availability of snap cap and screw cap formats enable the optimized choice for different requirements in sample preparation, incubation, storage or other applications.

It's worth it:

- > Reduced height gives easy access to the sample and reduces the risk of contamination
- > Single-handed operation thanks to snap cap design
- > Ensures tightness from -86°C to 100°C
- > A total solution with matching accessories for centrifugation, mixing and heating
