

# Exclusive Eppendorf Offers

**Trade up your old pipettes and enjoy instant savings on new pipettes!**

Trade in 10 pipettes for 11 brand new single pipettes at 10% savings!

Trade in 1 pipette for brand new multichannel pipette at 20% savings!

*\*Offer applies to both single channels and multichannels.*

## No more struggling with tricky liquids

Choose a positive displacement pipette for efficient, accurate handling every time.

**Start now!**

Buy 10 packs of Combitips® advanced and get a complimentary Multipipette® M4 pipette.

Buy 20 packs of Combitips® advanced and get a complimentary Multipipette® E3 pipette.

Combitips® advanced	Eppendorf Quality 100 pcs	PCR Clean 100 pcs
0.1 mL	30089405	30089766
0.2 mL	30089413	30089774
0.5 mL	30089421	30089782
1.0 mL	30089430	30089790
2.5 mL	30089448	30089804
5.0 mL	30089456	30089812
10 mL	30089464	30089820
25 mL	30089472	30089839
50 mL	30089480	30089847

## Why let your nucleic acids go to waste?

Purchase of any LoBind® and get a Research® plus pipette for your pipetting needs.

Stand a chance to get a complimentary pipette, limited quantities!

Eppendorf DNA LoBind® Tubes	PCR Clean	250 pcs	500 pcs
0.5 mL	200 pcs	0030 108.035	0030 108.400
1.5 mL		0030 108.051	0030 108.418

# Safe Spin Bundles Just For You

Choose the right centrifuge for every step of your workflow

## Replacement / Upgrade Time!

### Microcentrifuges (5420, 5425, 5425 R, 5430)

Out with the old, in with the next-level performance.

High capacity with benchtop footprint — from 24-place to high throughput microcentrifuge versatility for NGS preparation, PCR setup, clinical molecular and cell biology applications.

Refrigerated options for temperature sensitive DNA/RNA/protein workflows where samples can be kept at 40°C at maximum speed.

\*Bundles inclusive of 24-place aerosol-tight rotor for 1.5mL/2mL microcentrifuge tubes so you spin your samples safely!

## Your Cell Culture Start Up

### Multipurpose Centrifuges 5804/5804 R and 5810/5810 R

Start your cell culture workflow with confidence

Flexible multipurpose centrifuges for 15 mL and 50 mL tube workflows, cell pelleting, sample clarification, plate processing, and clinical applications. Refrigerated options support temperature-sensitive samples, making these centrifuges ideal for growing cell culture and research labs.

Bundles with 15/50ml adaptors inclusive of a free box of Eppendorf 50ml sterile grade conical tubes!

## Cell Culture Workflow

### Multipurpose Centrifuge 5920 R

Scale up refrigerated cell culture processing

A high-capacity refrigerated centrifuge up to 4 x 1L bottles, 28 x 50mL and 56 x 15mL for demanding cell culture, sample preparation and high-throughput laboratory workflows. Designed for larger volumes, shared labs and applications where capacity, sample integrity and workflow efficiency matter.

+

+

The Eppendorf Pre-Ultra Workflow Bundle combines:  
CP100NX with 5810 R + Multipette + LoBind Tubes

## Ultra Performance Starts Before the Ultra Spin

### Ultra workflow confidence from sample preparation to final separation

Eppendorf knows that successful ultracentrifugation depends on more than the ultracentrifuge alone. For exosome, protein, viral particle and biomolecule workflows, every upstream step can affect sample purity, recovery, and reproducibility.

This complete workflow solution helps your lab:

- Clarify and prepare samples before ultracentrifugation
- Maintain sample integrity through refrigerated pre-processing
- Improve consistency in dispensing, tube filling, and gradient handling
- Reduce sample loss with LoBind® consumables
- Complete high-g separation with trusted Eppendorf Ultra performance

25% off

**epMotion® 5070  
Stock Clearance,  
Limited Units**

**First Come, First Serve!**

Each unit is supplied with 1× Reservoir Rack, 1× TS-50 tool, 1× Thermoblock 96, and 1× PCR Module.

Suitable for :

- qPCR and PCR sample preparation of up to 96 samples per run
- Plate reformatting (96- to 96/384-well), as well as tube-to-plate transfers
- Cherry picking, sample normalization, and similar applications

Coming Soon

### SpinPro® 6 R

Redefine centrifugation with the new SpinPro® 6 R. Register now for the webinar on 12<sup>th</sup> May 2026!

### Research® 3 neo

The Option 3 & 6 packs will be released soon!

The Eppendorf Research® 3 neo is your next-generation mechanical pipette designed for high precision improved ergonomics, and customizable operation.

### epT.I.P.S.® LoRetention

Stay tuned!
