Catalog 2023

...and get Mobile!

Do you already know our app?

Use our App to get all new information about our products. Did you know you can also register your products by scanning them with the Eppendorf App? This is your quick and easy way to get exclusive benefits like a 10 % discount on your next purchase or extended warranty.*
With every registration you collect up to 100 epPoints®.*

Here are some more highlights you will find in our app:
> Scan and collect your epPoints® quickly and easily
> Calculate the amount of crude oil/ polypropylene that has been saved through the innovative design of your new epT.I.P.S.® or ep Dualfilter T.I.P.S.® disposable racks.

Download the Eppendorf App! We wish you a lot of fun!

www.eppendorf.com/app

*Please check the website for participating countries and products.

Dear reader,

... we take responsibility.

Eppendorf has been dealing with the issue of sustainability for a long time.
For us, this means taking responsibility for our actions not only today, but also for tomorrow.
But what exactly does that mean?

We in the catalog team are making our contribution to sustainability.
Did you know that the Eppendorf catalog has been produced climate-neutrally since 2019?
This means that we planted 233 trees to create the printed catalog last year.
Paper is a valuable raw material. By making further information available to you online via QR codes, we are able to save paper. In addition, we attach great importance to the use of certified paper, which further improves the carbon footprint of the Eppendorf catalog.

To find out how we at Eppendorf live and implement the issue of sustainability as an integral part of our corporate strategy every day, turn to pages 8 - 11.

And, of course, there are also new products that we would like to present to you. We are particularly excited about the new generation of Eppendorf Tubes, which are made from certified polypropylene based on renewable raw materials. Read all the details on page 120 and let yourself be surprised.

As you can see, we have already achieved a great deal, but we continue to work every day to implement the mission of our founding fathers, namely to improve human living conditions.
For our generation and for the generations to come.

Welcome!

As a leading life science company, we at Eppendorf develop, produce and distribute multiple systems for use in laboratories world-wide. Our product range includes pipettes, centrifuges, mixers or freezers and much more. In addition, we provide a broad selection of high-quality consumables. Digital laboratory management solutions for complete laboratory processes round out our portfolio of customized services and product solutions for you.

Have fun browsing and discovering!

New Highlights 2023

epT.I.P.S.® Sterile Reloads

Experience the Magic! Less Plastic! Less Waste!
The new epT.I.P.S.® Reload System for pre-sterilized pipette tips like epT.I.P.S.® Biopur®, ep Dualfilter T.I.P.S.® PCR clean/Sterile and ep Dualfilter T.I.P.S.® SealMax® Biopur® support you to save significantly plastic raw material and reduce the waste in your lab. They are completely compatible with the new epT.I.P.S.® Box 2.0.

See page 48

See page 116

Eppendorf Conical Tubes 25 mL

This special format will be completed with variants of Eppendorf Protein LoBind® and Eppendorf DNA LoBind® to minimize sample loss and in Amber for UV-light sensitive samples. These new tubes will be available with either SnapTec® cap or screw cap.

Eppendorf Tubes® BioBased

Get to know the New Eppendorf Tubes BioBased
Since oil-based plastic vessels have replaced glass vessels, they have become irreplaceable in laboratories around the world, providing quality standards needed in increasingly demanding research. This is the growing challenge for laboratories in respect to sustainability.
Thus, Eppendorf focuses on finding alternative, more environmentally friendly raw materials and succeeded. The next generation of Eppendorf Tubes is manufactured of certified polypropylene based on renewable raw materials, The new Eppendorf Tubes BioBased are available with screw caps in volumes 5 mL, 15 mL, 25 mL and 50 mL.
Find all further information on certifications and order numbers in this catalog.

See page 120

Centrifuge 5427 R

To protect our planet for future generations, it is important to switch to much more environmentally friendly, »green« cooling agents – hydrocarbons. These natural coolants have a Global Warming Potential similar to CO_2. To support this matter in the laboratory environment, Eppendorf now offers Centrifuge 5427 R with hydrocarbon cooling – the first centrifuge in our portfolio with a natural refrigerant – to protect your samples, and the planet.

Our newest centrifuge model does not only support you on your way to a greener lab. It is also the perfect solution for labs in need of high-throughput solutions for 1.5 – 2 mL tubes or with a multiplicity of different molecular biology applications or – all combined in a centrifuge with the highest throughput/ footprint-ratio within the Eppendorf microcentrifuge range.

See page 147

Eppendorf twin.tec® Trace PCR Plates

Discover our most advanced PCR plate: Eppendorf twin.tec® Trace! These PCR plates have improved ergonomics and traceability without sacrificing the superior twin.tec quality you know and trust! The additional features offer a perfect choice for high-throughput applications, automated workflows, and standardized processes. With laser-engraved lot number and expiration date on every single plate, twin.tec Trace supports workflows with high compliance demands. In addition, a new innovative optical guiding grid allows quick orientation on the plate and simplifies your manual and semi-automated liquid handling steps.

See page 223

Sustainability

Our commitment to people and the environment

To achieve sustainable success, we consider not only financial but also environmental and social aspects in our business activities and strive to harmonize these three dimensions. Sustainability has always been an integral part of our company:

Our products are becoming ever more sustainable and help ensure that research can be carried out optimally all over the world. We are continuously working on protecting the environment and are aware of our significant responsibility as an employer towards our employees.

Our commitment to society manifests itself in many ways and is closely linked to our core competencies. Compliance with laws and regulations is more than a matter of course for us.

Sustainability Vision

A Systematic Approach to Sustainability
Our mission "to improve human living conditions" requires us to positively transform the Eppendorf Group to operate safely within the planetary boundaries and respecting humanity: We shall become Carbon-Zero, minimize the use of natural resources, and improve human well-being throughout our value chain. This vision is part of our strategic approach to take responsibility and contribute to a sustainable development.

Stakeholder-, Impact- and Success-oriented
For years now, Eppendorf has taken its corporate responsibility very seriously. In order to systematically integrate environmental and social aspects even more strongly into the Group's activities, Eppendorf has set itself a clear strategic framework.

The basis of the strategic framework is a combination of integrating different perspectives on 20 responsibility topics relevant for Eppendorf: The dialog with various stakeholders, a data-based determination of our environmental and social footprint using an impact analysis and a success-oriented assessment.

Sustainability along the entire value chain
For Eppendorf, corporate responsibility does not begin with its own incoming goods, nor does it end at the sales table. Instead, the focus is on the entire value chain. Thus, the strategic framework includes many topics in the areas of climate change, natural resources, social compliance, human well-being, digitalization, and society - and this from the raw material supplier to the customer.

Our Management Team is commited to ensure successful implementation, each member of the Board of Management has assumed responsibility for a guiding theme. Overall responsibility for strategy and governance is taken by Co-CEO Eva van Pelt.

Mid of 2022, we published our first sustainability report compliant to GRI standards.

Sustainability in the Lab Concerns Us All
Sustainability is becoming more and more important in public life. Wherever we interact in our personal area, there is a growing number of sustainability topics. The same holds true for our interaction with you, our customers in the labs worldwide. Whereas just a few years ago the topic of sustainability was mainly driven by dedicated employees in academic institutes and research-based companies, there has been a noticeable change for some time now. Purchasing departments as well as procurements systems request information. We see a growing interest in Eppendorf and our approach to sustainability.

Retrospect
In 2010, our centrifuge team started a green sustainability project. We found that a new centrifuge provided a far higher energy saving than expected. We were proud of the results. But the concept came too early: Energy efficiency in the laboratory was not yet the focus at that time.
Meanwhile, more and more customers expect sustainability facts about our products.

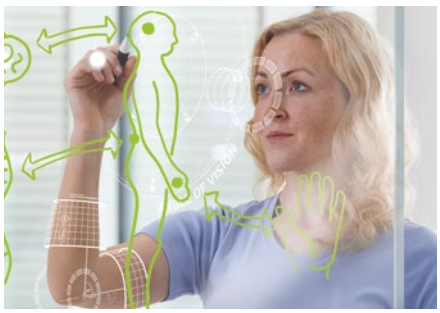

How Far can We Go? Safety First
The use of new, innovative technologies can optimize both resource consumption during production and power consumption during use. Even small improvements optimize the longevity of devices and thus contribute to greater sustainability.
Despite all needs for improved sustainability, there is a special situation in the lab: The safety of the employees, combined with safety for the samples, is the focus, embraced by sustainable progress.
The safety of valuable samples is always our top priority. For example, the set temperature for centrifuging sensitive RNA samples must be maintained accurately throughout the process to ensure data reliability and reproducibility.

epGreen

Beyond Green
The green idea may be the most familiar one, but in fact sustainability encompasses many environmental, social, and economic factors.
At Eppendorf, we consider the entire supply chain and define our impact on sustainability in areas such as climate change and the use of natural resources, social compliance and human well-being, as well as with regard to data security and our role as responsible citizens in society.
This consideration begins before the product; it encompasses Eppendorf as an employer as well as a customer vis-à-vis our suppliers. Thus, our own Code of Conduct sets the bar. Our social behavior includes treating each other with respect, paying heed to the intellectual property of others, sticking to facts, and making ourselves reliable partners for our counterparts. These expectations are clearly defined and subject to continuous improvement and learning.

Ergonomics - It's About You!
Workflows in today's laboratories are becoming ever more condensed, and the strain of laboratory work is constantly increasing – making the ergonomics of laboratory devices and the entire work environment more and more important.
Personal health status or corporate sickness levels of employees due to back bone trouble or handwrist load – everyone tries to reduce the stress.
Ergonomics goes far beyond the "ergonomically designed chair". At the beginning of the 1970s, Eppendorf began optimizing the ergonomics of its laboratory equipment. In 2003, we launched the PhysioCare Concept® , which was focused on liquid handling devices such as our pipettes. Today, the PhysioCare Concept® implemented in all Eppendorf products supports the well-being of our users.

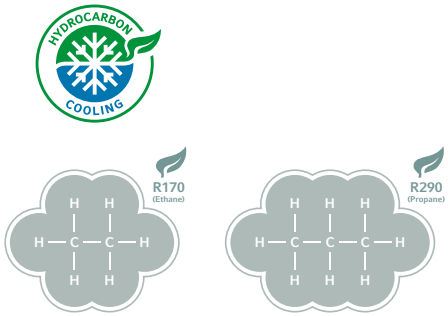

Sustainability

Biological sourcing for Laboratory Consumables?
Do materials manufactured with renewable feedstocks offer the same quality, purity, sterility, and process reliability criteria as the high quality products you have been using?
At Eppendorf, we have found just such a source material and are using it for a new product line of Eppendorf Tubes®. This premium polyolefin* product offers the same material performance as our virgin polyolefins* guaranteed in all existing consumables quality certificates from Eppendorf.
It is made of renewably-sourced feedstocks derived solely from vegetable oil production as well as oil waste and residues - for instance, used cooking oil. Find all variants of Eppendorf Tubes® BioBased on page 118.

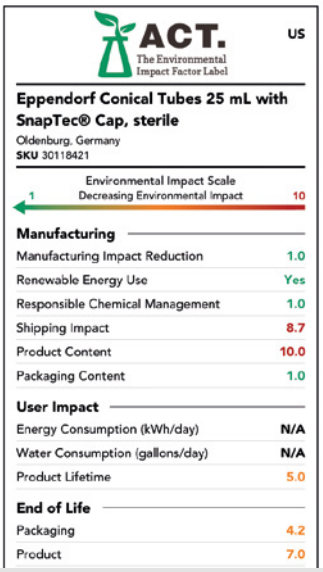

*Polyolefins is a collective term for polymers produced by polymerization from olefins such as ethylene, propylene, 1-butene or isobutene, such as polyethylene and polypropylene. They are saturated hydrocarbons, which represent the largest group of plastics in terms of volume.

Remember 2008? Hydrocarbons - Green Cooling of the Future
As one of the very first advocates of green gases at -86 °C, Eppendorf now has more than nearly 15 years of experience with hydrocarbons in R&D, production, logistics, and service in the field. In 2008, the Premium U570h ULT freezer was one of the very first commercially available ULT freezers driven by green cooling liquids.
Replacement of the HFC based cooling liquids for refrigerated instruments is needed as global warming needs to be slowed down. The preferred hydrocarbons are also known as green or natural gases. The two major representatives are propane and ethane (known as R290 and R170).
Due to this goal, we at Eppendorf clearly plan to replace all classic cooling in our portfolio within the next years. This is not limited to freezers but also includes the refrigerated centrifuges and refrigerated shakers.
The new Centrifuge 5427 R with green cooling is the first step. Discover more (page 147)

Trust in Others: Independent Validation
As Eppendorf, we respect external test procedures and external independent test results of our products. Besides external test house checks for e.g. the ULT freezers, we ask for independent validation by third party organizations like ENERGY STAR®, My Green Lab® or ISCC PLUS (International Sustainability & Carbon Certification).
Eppendorf collaborates with My Green Lab®, an international NGO that validates and certifies lab products with "ACT - The Environmental Impact Factor Label" since 2017.
We are proud of a growing number of ACT validated and certified Eppendorf products, e.g. different tips, tubes, ULT freezers, pipettes, and more to come.
ISCC PLUS (International Sustainability & Carbon Certification) is a globally leading certification system, which offers solutions to address sutainability requirements for all feedstocks and markets. ISCC principals aim at the implementation of highest sutainability requirements. Thus traceability throughout the supply chain enables each player to source sustainable products from any certificate holder.
Eppendorf Polymere GmbH, situated in Oldenburg/Schleswig-Holstein, is ISCC PLUS certified and complies with the requirements of the certification system of ISCC PLUS.

Product	7.0

100% Renewable Energy for Assembly
Stepwise, our production facilities have been changed to power supply from renewable sources. Since 2021, we can proudly announce that nearly all products within the Eppendorf factories are assembled by 100% renewable power. But the product assembly is just one part of the energy story – the usage of lab instruments also requires energy. Did you already check the power origin in your lab?

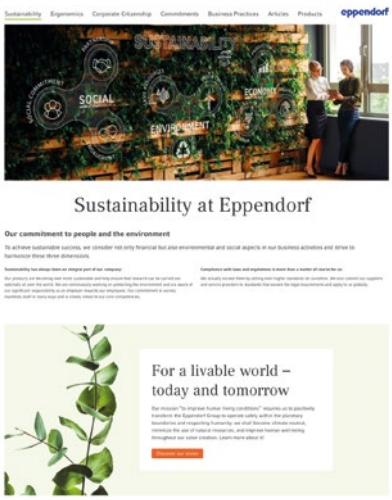

Limit Your Power Bill
Electricity is also required for usage of lab instruments. ULT freezers are top of mind, they need to combine efficient cooling with energy savings. Get reliable -80 °C while minimizing energy consumption. Eppendorf ULT freezers like the CryoCube® F570h keep -80 °C with 7.4 KWh / day. Spend some time on easy maintenance of your freezer like de-icing or cleaning of the heat exchanger grid for less energy consumption and a longer lifetime.
You can reduce the power consumption of your Eppendorf centrifuge by features like programmed pre-cooling, automatic eco-shut off of the compressor, or light rotors.
Fast PCR cycler can also save energy by design. Check the Eppendorf Mastercycler® nexus.

What Comes After the End?
Despite good ideas, lab waste still cannot be recycled efficiently, e.g., due to regulatory requirements for biological, chemical, or radioactive hazards.

Disposal of packaging
The packaging of the products contains different materials. This includes mainly cardboard, plastic covers or bags, and some foam parts. Recycling of materials becomes more and more important. Our packaging cardboard material already consists of a high ratio of recycling material of 70 to almost 100%. Please support the global sustainability initiative of recycling valuable raw material by also collecting the packaging material and disposing of it in the appropriate collection containers at your organization. We suggest you to contact your local waste hauler or facility management team to understand the available recycling options for your organization.

Disposal of instruments
Our instruments last for many years, but if they need to be replaced, we kindly ask you to fulfill local requirements for disposal of these instruments. We strongly recommend a certified local recycling partner with experience in instruments from the lab. Keeping it "local" reduces the impact of transportation, and the „certified" aspect is recommended due to the safe and sustainable removal of all parts.

Sustainability: Our On-Going Journey
Science is based on facts. Statements such as "Our product is more sustainable compared to others" are questioned by researchers in many ways. Analyzing and improving sustainability issues requires knowledge and intensive work. None of the sustainability challenges can be solved quickly or easily. But they all require manufacturers and customers to listen to each other and work together.
This work is never over, but an on-going journey in which we communicate in constant dialogue with our stakeholders. We are researching new technologies, alternative materials and concepts. Each of these changes has the potential to contribute to progress in sustainability.

Pharma

Reach your 100% - Your Partner for Biopharma Research

Pharma research comes with considerable costs and lengthy processes. Reducing both and accelerating time to market is crucial for staying competitive. As a reliable partner at your side, we use all our experience, competence, and industry insights to effectively guide you through every step, from development to debut. We know and value the immense amount of work done in laboratories around the world, which is why we offer a wide product and service portfolio that enables concentrated, relaxed work tailored to your specific needs.
Whether it's monoclonal antibody drug discovery or vaccine research, we help you to find the solutions you need to stay ahead in the market. Let's work together to make our world a better place.

Faster workflows
You need to rely on products and services that ensure maximum efficiency at every step. Our products are designed with faster workflows in mind to accelerate time-to-market and create a lasting competitive advantage. Eppendorf high-quality solutions are all engineered around the functionality and intuitive performance necessary to speed up workflows, and accelerate the desired results.

Streamlined processes
In optimal pharma research and development environments, every step and function is effortlessly connected to the others. With our process-improving aspects like advanced equipment, intuitive features, and reliable process monitoring, we help you to streamline your processes; for more productivity across the board, so that researchers can focus on what matters.

Reliable results
You want reliable results with the required accuracy and reproducibility you need for your assurance. Our high-quality products and service portfolio ensure that. For 75 years, Eppendorf has stood for high quality, reliability and robust performance. We are committed to continuously drive pharmaceutical innovation and best-equip all those finding tomorrow's breakthroughs.

Compliance with requirements
When it comes to aspects such as documentation, quality management, sustainability, calibration or qualification, you want a reliable partner on your side. We embed compliance requirements and quality assurance into products and services. Whether it is complying with standards or providing licenses and documentation. Only then can you get the peace of mind required to keep making a difference.

Monoclonal Antibody Drug Discovery - Excellence at Every Step

Monoclonal antibodies have become increasingly popular within the biopharmaceutical market. Today, their production is more sought-after than ever. Our solutions streamline workflows while reducing procedural steps and costs. No matter if it's providing optimal centrifugation for fast, reliable results, ultra-low freezers for cold storage, high-performance shakers, or bioreactors to optimize cell growth and antibody generation, our portfolio keeps efficient drug discovery on track.

OEM

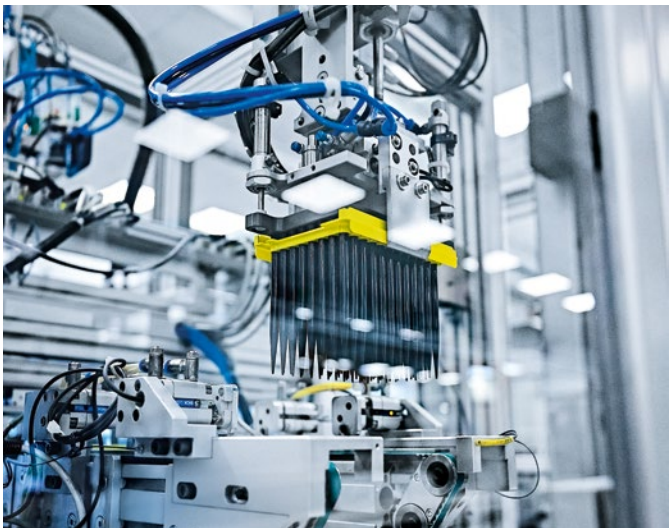

Trust Our Expertise

With Eppendorf OEM as your partner, you can take advantage of decades of competence and experience in developing and manufacturing high-tech laboratory products with premium quality.
Find an OEM product or component that perfectly fits to your requirements and applicational needs and start partnering with us today.

Searching for a manufacturer capable of producing your OEM solution in a high volume?

> Production scalability at high volumes can be achieved through our propriatery precision molding technologies
> Automated quality checks measure coaxiality and residual volume of tips as well as 100% in-line filter inspection
> Manufacturing sites in Germany and the US secure delivery on-time, worldwide
> Fully automated manufacturing facilities ensure a low level of contamination
> In-house development and manufacturing of injection tools results in high quality production with extremely low failure rates

Planning your OEM project?

Please contact us at
oem@eppendorf.com

Your Benefits when Partnering with Eppendorf OEM

Fast time to market

High scalability

Variety of in-house capabilities

With you every step

We know it can be a struggle to integrate custom design diagnostic components. But it doesn't have to be that way. If you are looking for precision engineering, understanding and expertise – you've come to the right place.
With Eppendorf OEM, you'll benefit from our decades of experience in the manufacture of premium-quality components as well as our deep scientific domain understanding.

Quality down to the tips

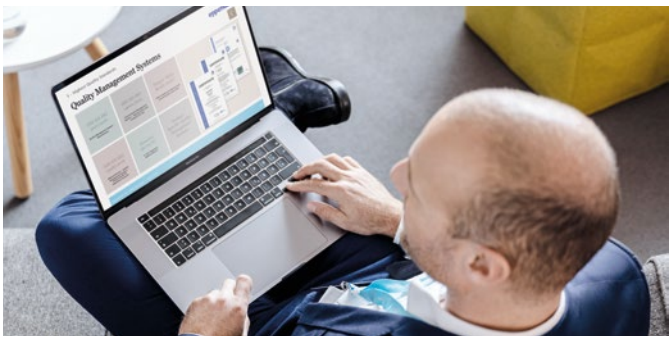

Using only the purest raw materials and performing quality and functional checks throughout the entire production process, Eppendorf OEM products always come with premium quality.

Since our production is fully automated, contamination is reduced as far as possible.

ISO-certified for your confidence

Eppendorf is certified according to worldwide recognized and accepted ISO 9001, 13485 and 14001 standards.

This gives you the confidence that all processes in product design, manufacturing and marketing are defined and monitored in order to ensure consistent products and services.

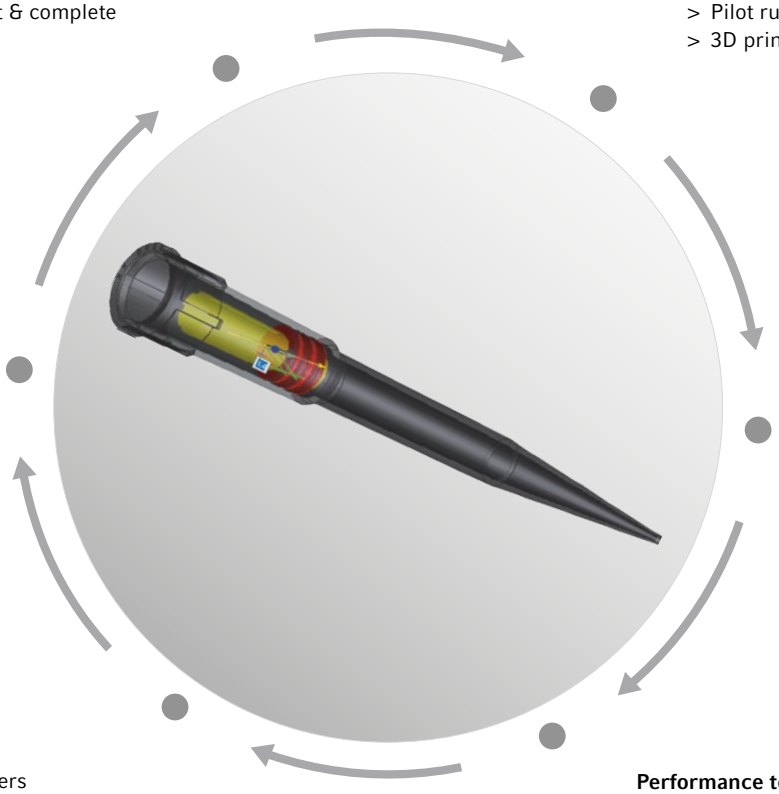

Your OEM Solution

Eppendorf is recognized as a global leader for its high quality standards, innovative technologies and cutting-edge developments. Take advantage of our competence and decades of experience in developing OEM partnerships and manufacturing high-tech laboratory products. All our products are manufactured to premium quality standards as we have our own production facilities.

Eppendorf OEM is covering the full lifecycle as an expert partner from concept and design to production, logistics and beyond. Our services include:

Requirements & specification
> Analysis of requirements and specification definition
> Central project management & complete documentation
> Agile development

Design & prototyping
> Material development
> Polymer chemistry
> Electronics design
> Pilot runs for manufacturing
> 3D printing & in-house tool making

Product management
> Product lifecycle management
> On-market support – manufacturing, regulatory and change management
> End of life product support

Packaging
> Packaging design
> Transport studies
> Sterile packaging

Infrastructure
> Worldwide distribution centers
> Manufacturing on multiple continents
> Global regulatory & quality management systems

Performance test
> Development of test systems
> Documentation
> Quality assurance

Customized Consumables

Eppendorf offers a broad range of consumables including a broad diversity of plates, tubes and tips. Whether you choose one of our standard products with a specific packaging or you prefer a customization, for example, a specific surface treatment, please contact us. We will support you with an optimized solution.

Customized tips for automation
Countless liquid handling workstations in the world work with Eppendorf conductive or non-conductive tips, benefitting from our high quality standards. Eppendorf tips for automation can cover a broad range of tasks in all major life science applications. Upon request, Eppendorf tips can also be equipped to comply with specific requirements.

Customized plates
Eppendorf offers a wide variety of plates: PCR, MTP and DWP. Plates can be customized, even to include specific barcoding using our automated barcode system. Plates can be provided in a number of customizable configurations: from labels, to 1D/2D barcodes to customer specific packaging.
Whether you choose one of our standard products with a specific packaging or you need a customization, please contact us.

Customized Instruments

Eppendorf offers you a choice from a variety of instrument configurations; covering your requirements for versatility, throughput, and speed (e.g. our ep*Motion*® workstation). Request your customized solution today.

Watch our video about customized OEM consumables

Digital Lab Management

Be prepared for tomorrow and ready for today

Streamlined processes and operations are crucial for a successful laboratory. Once considered a vision, digitalization of the lab is becoming reality thanks to the advent of innovative digital lab solutions that aim to increase productivity when handling routine tasks in your lab.

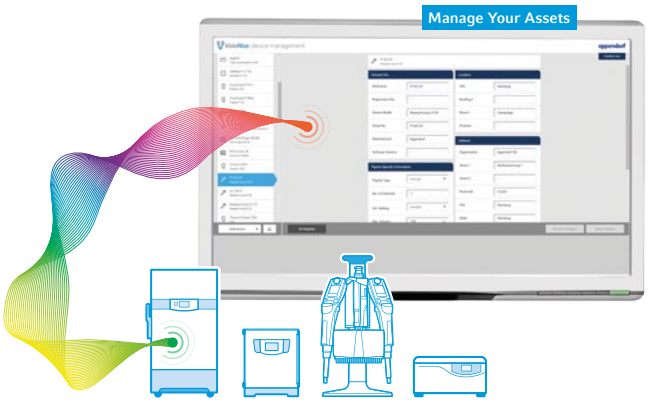

And when it comes to digitalization, connectivity is key.

There are numerous ways to optimize and improve your laboratory processes through digitalization.

General lab tasks such as device monitoring, maintenance planning or experiment documentation are more efficiently solved in the form of software platforms.
Explore Eppendorf Digital Lab Solutions and make the switch to Digital Laboratory Management Solutions.

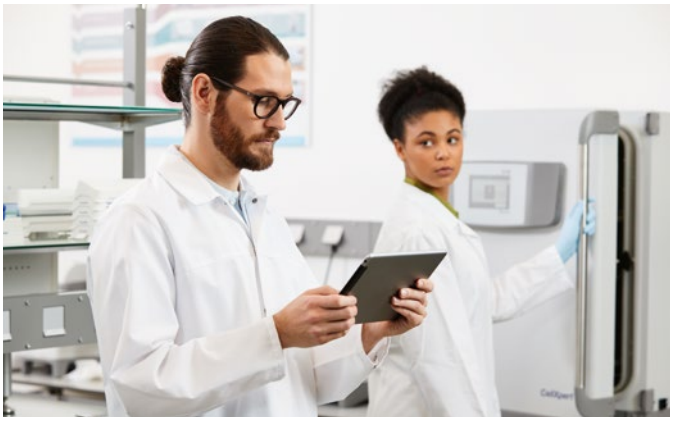

Overall Digital Lab Management with VisioNize® Lab Suite

One platform designed to empower you to focus on your next scientific breakthrough. VisioNize Lab Suite (VNLS) enables overall digital lab management including remote device monitoring, notifications, maintenance planning, device documentation as well as experiment management options to improve sample safety, boost your lab's efficiency, enhance reproducibility as well as conformity with increasing compliance pressures. This gives you time to focus on what is important, your research!

Explore the gains of a digital, connected lab in our White Paper
www.eppendorf.com/whitepaper-lab-digitalization

Why to switch to VisioNize Lab Suite

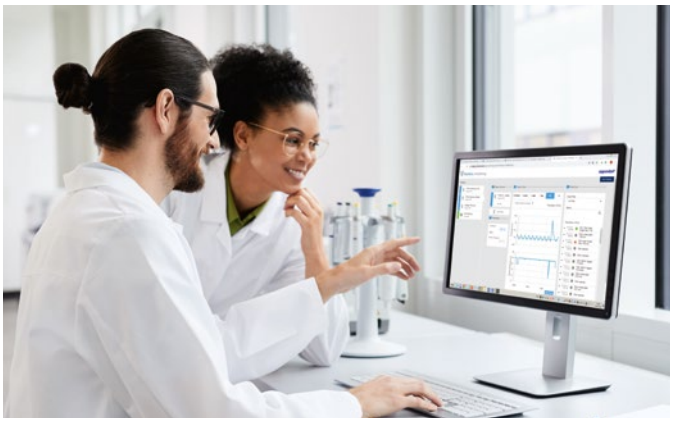

Evolve your maintenance routine and realize optimal device performance.

> Setting of recurring tasks for devices or groups of devices
> User defined reminders for upcoming tasks
> Logging the completion of all tasks in the software
> Booking of instruments in your lab

Streamline your internal audits and eliminate your paper-based documentation.

> Quickly create reports for devices including:
  > Time, date and user details
  > Maintenance history
  > Events, alarms, notifications acknowledgement
  > Device trend data
> Benefit from detailed audit logs with device performance data, such as parameters, user interventions & setpoint changes

Facilitate reproducibility and time-savings with one solution for all your experiments. Eliminate human error through guided execution and benefit from automated high-quality documentation.

> Automatically generated documentation available after experimentation completion
> Create and manage protocols and workflows more easily
> Plan experiments and assign them to the team members
> Execute experiments with full guidance and structured, automated data capture

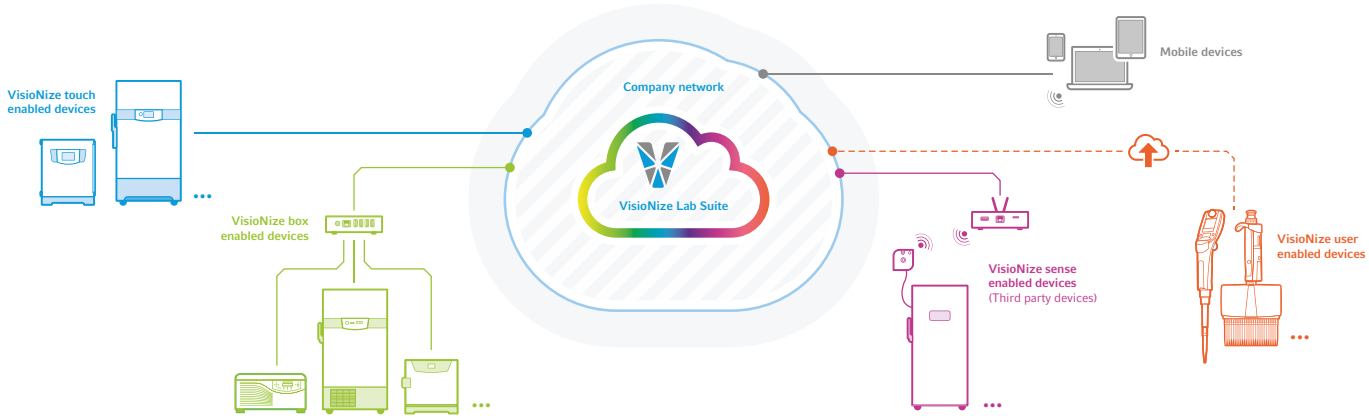

Know that your samples are secure and be on the safe side with precise decision making.

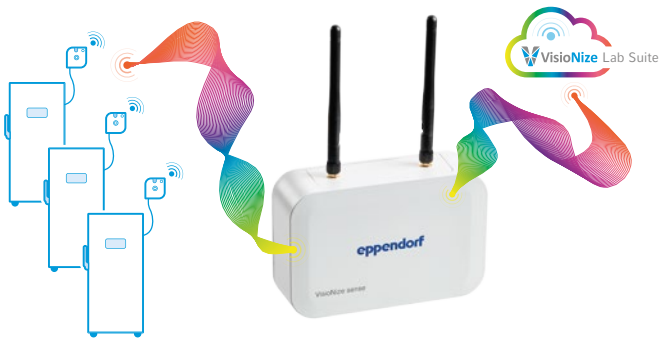

> User defined notifications of alarms, events and more
> Real-time device data on your computer, tablet or smartphone
> User defined alarm escalation scheme & acknowledgement for absent team member or assets with high value samples

Digital Lab Management

VisioNize Lab Suite provides a universal laboratory digitization solution for monitoring instruments from pipettes to freezers regardless of their manufacturer and minimizes unintended instrument downtime.

Enable connectivity for remote device monitoring

VisioNize sense is an all-in-one sensor system that works with VisioNize Lab Suite and other platforms, e.g. eLabInventory, to monitor the real-time status of devices and therefore protect integrity of samples. The system can capture, record and transfer even the smallest changes of your environmental conditions and can be used to monitor your lab rooms, CO_2 incubators, fridges or freezers from any supplier.

It includes an environmental monitoring sensor that measures ambient temperature, humidity, pressure & light, and a PT-100 extension that can measure temperature of any device (including ULT freezers) within the range of +60 to -90 °C.

Ordering information

Description	Order no.
VisioNize® sense gateway router, routes the collected parameter data to VisioNize® Lab Suite	ESS1000001
VisioNize® sense environmental monitoring sensors, a wireless, rechargeable multi-sensor unit (ambient temperature, humidity, pressure & light)	ESS1000002
VisioNize® sense external temperature sensor, PT-100 extension that can measure temperature of any device (including ULT Freezers) within the range of +60 to -90 °C.	ESS1000003
VisioNize® sense monitoring kit , all-in-one package including temperature sensor, evironmental monitoring sensors and gateway router.	ESS1000004

All-in-one Electronic Lab Notebook and Sample Management with eLabNext®
Struggling with a paper-based documentation system? Or constantly lost in samples? Explore the eLabNext® solutions for your laboratory.

More than just an ELN

eLabJournal® offers an intuitive and flexible solution to document experimental information in your lab. This all-in-one Electronic Lab Notebook also includes modules for sample tracking and experiment documentation.
The software is suitable for any lab ranging from small academic laboratories and start-up companies to large academic institutes and globally operating companies.

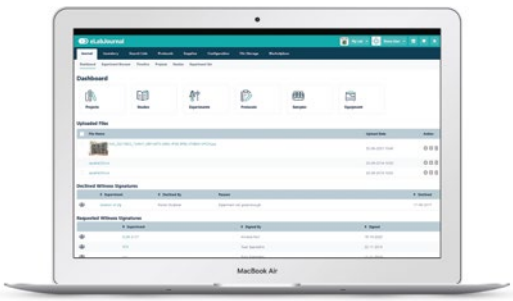

> Fully customizable to fit your workflow
> Collaborative access to any data
> Secure & compliant

Flexible sample management for laboratories

eLabInventory offers an intuitive and flexible solution for inventory management in laboratories. This highly customizable software organizes any sample type in the lab and can be fully configured to work in your unique environment. It is available standalone or integrated into eLabJournal.

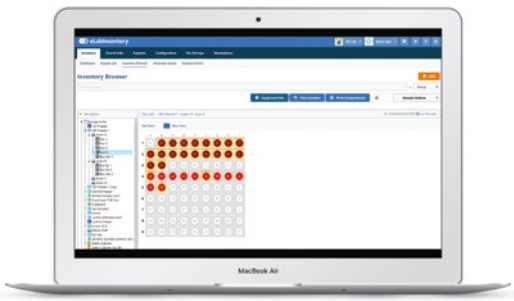

> Visualize your inventory storage
> Organize & optimize your lab
> Maintain a full audit trail for every sample

Pipetting

Eppendorf – Your Expert Partner for Liquid Handling

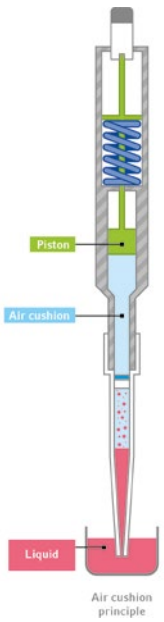

As the first company to launch a microliter pipette, we at Eppendorf have over 60 years' experience in precise manual and automatic pipetting & dispensing to transfer the smallest quantities of liquids. Today, liquid handling systems from Eppendorf are used wherever accuracy, precision, and absolute reliability are important.

To make your lab work more efficient, ergonomic and less cumbersome, we offer a wide portfolio ranging from award-winning mechanical single- and multi-channel pipettes over (connected) electronic pipettes and dispensers to fully automated pipetting robots. Rest assured that you'll find the right liquid handling solution with Eppendorf.

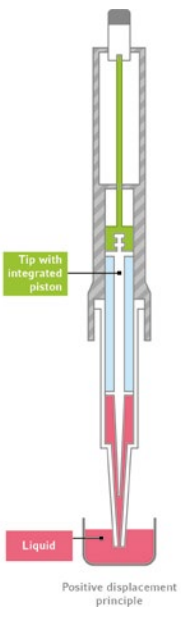

How to Select the Right Liquid Handling System
Selecting the right pipette or dispenser can be the key to success in your work. It can boost your efficiency and throughput and ensure reliable results for different use cases. Here is a quick introduction to the basics:

Air-Cushion Principle
Air-cushion pipettes are most commonly used in labs around the world and ideal for liquids with physical properties similar to water. In this instrument type, the piston is separated from the liquid sample by a small air cushion. Temperature or humidity changes, as well as the physical properties of different liquids can affect the performance of air-cushion instruments. To reduce these risks however, Eppendorf air-cushion pipettes work with extra small air cushions and may be adjusted temporarily to different liquid types.

Air cushion principle

Positive Displacement Principle
In positive displacement systems, the piston is part of the tip and in direct contact with the liquid. There is no air cushion that may be affected by liquid sample properties. These tools are therefore ideal for liquids with varying viscosity, volatility, surface tension or density as well as hot or cold liquids. The disposable tips with integrated pistons also prevent contamination and help to keep user and instrument safe when working with hazardous liquids.

Positive displacement principle

Not sure which Liquid Handling system to choose?
Check out our selection guide
www.eppendorf.com/LH-Selection

When Should You Use an Electronic Instrument?
The most important general benefits of using an electronic instrument are: better ergonomics by requiring almost no operating forces, a higher precision and reproducibility and an additional efficiency gain due to various operating modes (such as e.g. pipetting and dispensing with only one tool). Furthermore, electronic instruments are the basis for digital lab solutions supporting scientists with choosing settings for different liquid types, collaborating across the lab or documenting steps.

When Should You Think About an Automated Solution?
Automated liquid handling systems such as the ep*Motion*® family are ideal to take over routine and repetitive pipetting tasks that are commonly found in many molecular biological applications. They are ideally suited whenever complex processes need to be standardized, help to reduce the risk of manual pipetting errors, increase reproducibility and free up your valuable time for other tasks.

Eppendorf Pipettes and Pipette Tips: An Unbeatable Combination

The mere fact that a tip fits onto a pipette cone is no guarantee for the performance of a liquid handling system, which comprises of the components instrument and tip. Eppendorf micropipettes and pipette tips are designed to work in perfect unison and to ensure a maximum of precision and accuracy. With our wide portfolio of variants and sizes as well as certified purity grades, our pipette tips offering is tailored to various requirements in today's labs.

Ensure Consistent Results with our Maintenance, Calibration & Adjustment Services

Pipettes and dispensers are precision instruments with moving parts subject to normal wear and tear that may lead to imprecision over time. Therefore, regular maintenance and calibration are fundamental to the precision and accuracy of your instruments. We provide sincere, reliable services to help you maintain premium performance, and maximum safety of our instruments and your applications.

Your Transition to the Lab of the Future – with Eppendorf

Digital solutions can make everyday lab work even safer and more efficient for you. Keep track of your instruments & samples and plan your next pipette calibration with our digital lab solutions or evolve your electronic pipettes with the Pipette Manager to work faster, more accurate and in collaboration with your fellow researchers.

Connected Electronic Pipettes

Evolve your electronic pipette with the Eppendorf Pipette Manager

Put connected electronic pipettes to use for faster operation, increased reproducibility and digital documentation of every step. The Eppendorf Pipette Manager is a standalone touch server that reacts in real-time with Eppendorf Xplorer®, Eppendorf Xplorer plus and Xplorer plus Move It® connected pipettes via WiFi technology.

What connectivity can do for you:

> Transmit settings and other parameters quickly to connected electronic pipettes and start pipetting right away
> Get guidance from the software-embedded Liquid Manager when working with liquids of different viscosity, volatility or foam building liquids
> Choose from predefined Eppendorf liquid types (e.g. Acetone) or create your own
> Manage your pipette fleet more effectively within your working group and enhance collaboration (e.g. through sharing created liquid types)
> Document your pipetting activities to increase repeatability and support comprehensive documentation

The Pipette Manager will continue to evolve to include numerous updates and additions.

Learn more about the Pipette Manager:

www.eppendorf.com/pipette-manager

Technical specifications subject to change.

Pipette Manager
External touch server to enable communication with connected electronic pipettes as standalone systems.

Convert your Eppendorf Xplorer, Eppendorf Xplorer plus or Eppendorf Xplorer plus Move It pipette into a connected device.

Connect tablets (Android® & iOS®) to work in parallel.

Apart from the operation via the Pipette Manager, users can connect tablets allowing access to the software and its features.

The embedded software is based on the VisioNize touch interface concept that has been extensively tested by customers to reduce learning and adjustment time. It is used across different Eppendorf instruments, like the CryoCube® F740hi ULT freezer or the Mastercycler® X50.

Get Ready For Move It®

Move It doubles your pipetting performance
Do you frequently transfer samples between different vessel formats, such as between tubes and plates, and strive for more efficient and safe solutions? The adjustable tip spacing pipette Move It® accelerates and simplifies synchronous pipetting of a series of samples. A unique design without tubing connections results in increased precision and durability as well as autoclavability, increasing user and sample safety.

Product features
> 4-, 6-, 8- and 12-channel air-cushion pipettes with variable volume and adjustable tip spacing option
> Available as mechanical (Research plus) and electronic (Xplorer plus) adjustable tip spacing multi-channel pipette
> For plates (384-, 96-, 48-, 24- and 12-well), tubes (1.5 and 2.0 mL), agarose gels and more

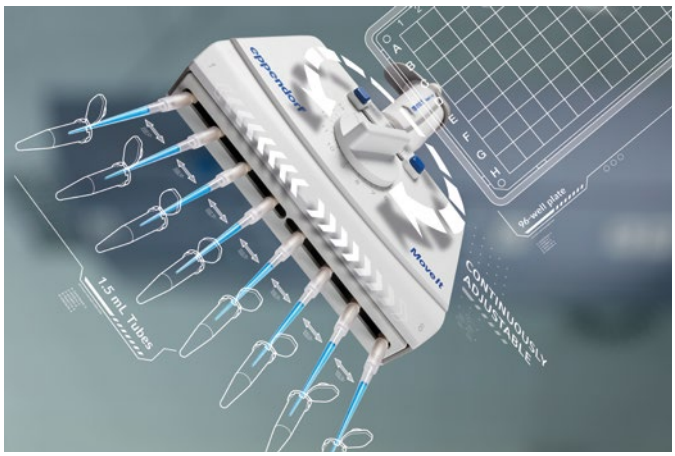

Applications
> ELISA
> Cell culture
> Cell-based assays
> (Real time) PCR
> Mouse genotyping
> Blood analysis
> FACS analysis
> Media transfer
> Dilution series
> Screening

Multiple sample transfer between different formats becomes fast and secure with Move It
Instead of pipetting many times, move 4 – 12 samples simultaneously. Reduce throughput time while increasing your performance.

Please use the QR Code.
www.eppendorf.com/move-it

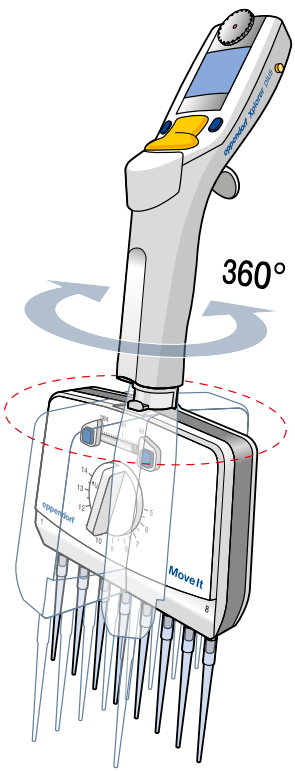

Increase your 384-well plate efficiency

www.eppendorf.com/ready-set-pipette

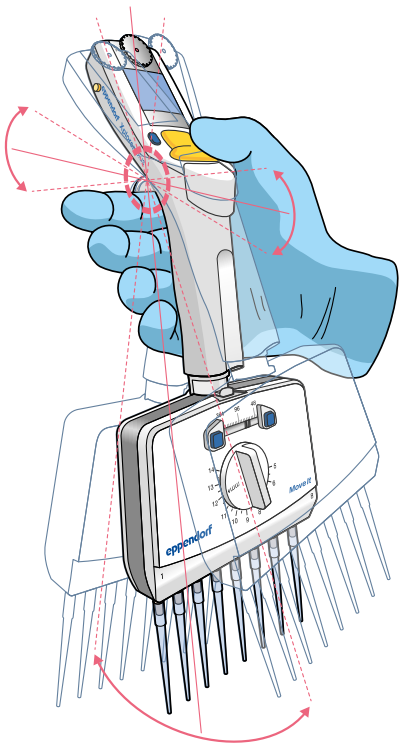

Move It pipettes work without any tubing connections. Your benefits: fewer moving parts and a smaller air cushion increase durability and precision. Furthermore, the unique design makes autoclaving possible.[1)]

[1)] Research plus variants fully, Xplorer plus lower part only.

The pipette head may be rotated by 360°. Work ergonomically and benefit from perfect readability of the display at any pipetting angle.

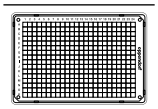

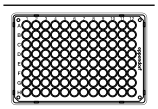

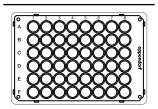

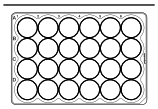

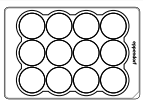

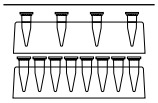

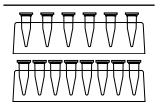

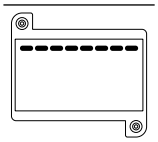

Move It pipettes are extremely well-balanced to minimize hand and body fatigue. Experience the difference!

Eppendorf Research® plus

The ultra-light pipette for effortless pipetting
The Eppendorf Research plus mechanical pipette is the result of over 60 years of experience in liquid handling and is one of the most commonly used pipettes in the world. Thanks to the pioneering Eppendorf PhysioCare Concept®, the Research plus is highly ergonomic and protects your health in the laboratory. It features very low weight and operation forces, is extremely reliable, fully autoclavable and easy to use.
With a variety of options available, including single-channel pipettes with fixed or variable volume, multi-channel pipette options with 8-, 12-, 16- or 24-channels, and our Research plus Move It® adjustable tip spacing micropipettes (see page 32), we are confident that we can offer the right choice for your application.

PhysioCare concept

ACT.* The Environmental Impact Factor Label
*All single-channel variants with variable volume.

Product features
> Mechanical air-cushion pipette for accurate, easy & ergonomic pipetting of aqueous solutions
> Feel the difference in weight and pipetting forces: this ultra-light pipette is designed according to the Eppendorf PhysioCare Concept® principles
> Enjoy minimal tip attachment forces due to a spring-loaded tip cone (available for all pipettes up to 1 mL) that reduces stress without sacrificing tip tightness

Applications
> Forward pipetting
> Reverse pipetting
> Removal of supernatants
> Sample mixing
> Phase extraction
> Filling of plates, gels, and reaction vessels

A joy for your eyes - 4-digit volume display on Eppendorf Research® plus mechanical pipettes.

Locking ring for single-channel pipettes, to prevent spring action in single-channel pipettes, for pipettes from 2.5 µL – 1,000 µL	3120 635 009
Locking clip for 8-channel pipettes, to prevent spring action in multi-channel pipettes, 2 pieces	3122 612 006
Locking clip for 12-channel pipettes, to prevent spring action in multi-channel pipettes, 3 pieces	3122 613 002
O-ring, red, for multi-channel pipette lower parts, 5 – 100 µL, 15 – 300 µL (1 set = 24 pcs)	3122 611 000
O-ring, red, for multi-channel pipette lower parts, 50 – 1,200 µL (1 set = 24 pcs)	4860 716 009
Lower part with PTFE coating (higher chemical resistance)	
for Eppendorf Research® plus, single-channel, 5 mL, color code: violet	3120 642 005
for Eppendorf Research® plus, single-channel, 1,000 µL, color code: blue	3120 641 009
for Eppendorf Research® plus, single-channel, 10 mL, color code: turquoise	3120 646 000

Eppendorf Reference® 2

A premium pipette that delivers extraordinary precision and accuracy
Choose the Eppendorf Reference 2 mechanical pipette with ergonomic single-button operation and benefit from its high precision and accuracy with reduced operating efforts. Its smooth surface and full autoclavability guarantee efficient decontamination - making it the ideal companion when working under sterile conditions. Available as a single-channel pipette in fixed or variable volume, and as 8- and 12-channel pipettes - all with time-saving single-button operation. Once you have experienced this unique operating philosophy you will not want to change back!

DESIGN AWARD

PhysioCare concept

Product features
> Mechanical air-cushion pipette with outstanding precision and accuracy - operated with one button
> With its innovative one-button operation, the Reference 2 allows fast and ergonomic handling with reduced operating efforts and active aerosol reduction. A clear haptic feedback helps to avoid accidental tip ejection
> 4-digit display with magnifying window for quick and secure volume setting and identification (clearly visible from every angle), incl. volume lock

User-friendly temporary adjustment
For liquids other than aqueous solutions. Recommended settings are provided in the manual and you can easily and quickly reset to the manufacturer settings.

Exquisite stainless steel upper part
Equips the Reference 2 with outstanding robustness at potential impact sites. It includes quick volume setting and a secure volume lock.

Eppendorf Xplorer®/Eppendorf Xplorer® plus

Simple, fast and precise with untiring battery power – You deserve it!
People who give 100 % every day deserve the best tools and the best laboratory equipment. The Eppendorf Xplorer and Xplorer plus electronic pipettes are single-, 8-, 12-, 16- and 24-channel pipettes designed to aspirate and dispense liquid volumes from 0.5 µL to 10 mL, while eliminating many of the potential error risks associated with manual pipetting. With the Eppendorf Xplorer/Xplorer plus electronic pipette, your work achieves a new level of simplicity, precision and reproducibility. Also available as Move It® adjustable tip spacing multi-channel pipette (see page 32).

Product features
> Electronic air-cushion pipette reaching new levels of simplicity, precision and reproducibility
> Intuitive handling via multi-function rocker with »up is up« (aspiration) and »down is down« (dispensing) logic and selection dial for quick and easy mode selection
> Self-explanatory color display without submenus and with ergonomic angle for optimal readability in every position

Applications
> Automated pipetting of liquids **(Pip)** for forward pipetting
> Manual pipetting **(Man)** for volume determination
> Pipetting and mixing **(P/M)** for automated mixing of samples
> Dispensing **(Dis)** for manual filling of plates, gels, and reaction vessels
> Automatic dispensing **(Ads)** for automated filling of plates, gels, and reaction vessels
> Multi aspiration **(Spc)**: Pooling supernatants from different vessels[1)]
> Sequential dispensing and pipetting **(Spc)** for user-defined volume steps[1)]
> Reverse pipetting **(Spc)** for non-aqueous solutions[1)]
> Diluting **(Spc)** for preparation of dilution series[1)]
> Fix volume **(Fix)**: Save up to 10 volumes for ease of operation[1)]

[1)] Xplorer plus only

Eppendorf Pipette Holder System

Well within reach: the Eppendorf Pipette Holder System helps you to organize your lab
Save valuable bench space with the Eppendorf Pipette Holder System! With space for up to six single- or multi-channel pipettes, you can easily store all of your Eppendorf pipettes and multi-dispensers within easy reach. Our flexible carousels, stands and wall mount devices fit all current Eppendorf manual liquid handling instruments as well as most of their predecessors.

> Pipette Carousel 2: Rotatable holder with completely new design for all mechanical pipettes
> Charger Carousel 2: Carousel with intelligent charging electronics, increased capacity for up to six instruments (charges four instruments at a time and all six in turn) and magnetic power connector for fast and easy connection

> With Charger Stand 2, the Eppendorf Xplorer/Xplorer plus or Multipette® E3/E3x is always fully charged and ready for use. Pipette Stand 2 carries one Multipette M4.
> Large rubber feet protect stands and carousels from liquids spilled on lab bench
> Charger Stand 2 with cord wrap functionality for more convenience

GERMAN DESIGN AWARD WINNER 2018

DESIGN AWARD

reddot design award

> Place your pipette and Multipette where you need them: Mounted to a wall, on the shelf above your bench or inside a biological safety cabinet.
> Pictograms on all holders for clear assignment in the lab
> Pipette holders are downwards compatible for Eppendorf Research and Reference pipettes

Tips

The Perfect Fit – Eppendorf Pipette Tips

With respect to material, fit, design and operating forces, our pipette tips set standards. The close environment of each sample should be adapted to its specific quality and purity needs. This can involve a specific purity level or the absence of certain substances, but also stability, reliability of quality standard or geometry. The epT.I.P.S.® pipette tips from Eppendorf are designed to cover all of the specific needs of your samples.

Our epT.I.P.S. – Eppendorf Totally Integrated Pipetting System – have been developed to work in perfect combination with our pipettes. This results in reduced tip attachment and ejection forces while maintaining a complete seal between tip and pipette. Additionally, the universal nose cone design allows the tips to be used with pipettes from other manufacturers.

In the Eppendorf owned production facilities in the north of Germany, we can maintain the highest standards in the selection and processing of plastic materials. Ideal wetting properties, high transparency, and special certified purity levels are the visible expression of this production philosophy. Every tip is manufactured to match specifically to its respective Eppendorf pipettes, thus ensuring the maximum precision and reliability you have come to expect and to rely on.

How to reduce laboratory waste volume by choosing the right packaging format. Depending on their purity grade, epT.I.P.S. pipette tips and ep Dualfilter T.I.P.S. filter pipette tips are available in a number of different packaging formats.

It is precisely the different forms of packaging that generate large proportions of laboratory waste. This can be remedied by optimizing the packaging with regard to the type of use, but also by reducing the amount of manufacturing material required.

Our challenge in developing the new epT.I.PS. packaging design. For special applications that require a high degree of integrity and purity, there is no alternative to the disposable packaging form. But our disposable racks also had potential for plastic savings. We were able to save up to 30 % polypropylene (PP) in the production of the epT.I.P.S. and ep Dualfilter T.I.P.S. Racks for pre-sterilized pipette tips. Additionally we redesigned the well-known epT.I.P.S. box – now epT.I.P.S. Box 2.0 – and at the same time optimized it for use with the new innovative Sterile Reload variants. Where possible this new form of packaging is the more sustainable and plastic-saving alternative to disposable racks while maintaining sterility and purity. In this case, an additional about 50 % polypropylene (PP) is saved and at the same time the waste weight generated in the laboratory is reduced by about 30%.

Depending on their purity grade, epT.I.P.S. pipette tips from Eppendorf are available in a number of different packaging formats:

ACT. The Environmental Impact Factor Label

epT.I.P.S.® Reloads
> Reduced waste as compared with disposable racks
> The refill trays can be autoclaved up to 121 °C, in packaging and without foil, for subsequent use
> The refill system, depending on tip size, is packaged as either dual-sided or in stack form

epT.I.P.S.® Sterile Reloads
> Less waste – reduce your waste volume up to 30 % compared to disposable racks
> Less raw material – reduced CO_2 by up to 54 % less raw material compared to disposable racks
> Certified Sterility – premium quality packaging with TwinLid® technology for safe, easy use and avoidance of contamination

www.eppendorf.com/tip-combination

Eppendorf Purity Grades for Tips

epT.I.P.S.®, ep Dualfilter T.I.P.S.® and Combitips® advanced stand for highest quality and purity

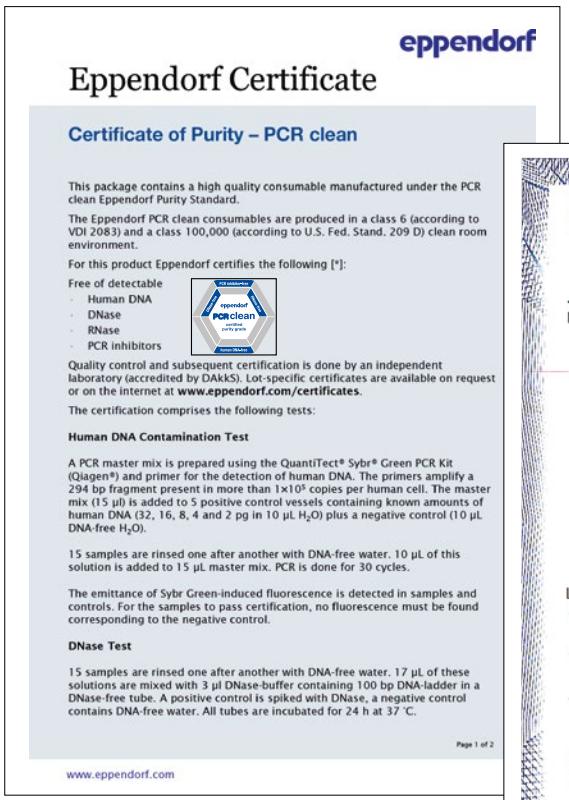

The high precision and accuracy of pipette tips and Combitips is ensured by precise molding. Each lot of pipette tips and Combitips is subject to gravimetric measurement during final testing. Low wetting ensures reliable volume readings and minimal adhesion.

Pipette tips and Combitips cylinders are made of PP (polypropylene). A relatively inert plastic characterized by low wettability as well as high dimensional and mechanical stability across a wide temperature range. For the Combitips advanced pistons, PE (polyethylene) is used. This is due to the fact that ideal running properties between two parts can only be achieved by using two different types of plastic. Our tips are available in a variety of purity grades (See purity grades table on page 51).

eppendorf

Eppendorf Certificate

Certificate of Purity – PCR clean

This package contains a high quality consumable manufactured under the PCR clean Eppendorf Purity Standard.

The Eppendorf PCR clean consumables are produced in a class 6 (according to VDI 2083) and a class 100,000 (according to U.S. Fed. Stand. 209 D) clean room environment.

For this product Eppendorf certifies the following [*]:

Free of detectable
- Human DNA
- DNase
- RNase
- PCR inhibitors

Quality control and subsequent certification is done by an independent laboratory (accredited by DAkkS). Lot-specific certificates are available on request or on the internet at **www.eppendorf.com/certificates**.

The certification comprises the following tests:

Human DNA Contamination Test

A PCR master mix is prepared using the QuantiTect® Sybr® Green PCR Kit (Qiagen®) and primer for the detection of human DNA. The primers amplify a 294 bp fragment present in more than 1×10⁵ copies per human cell. The master mix (15 µl) is added to 5 positive control vessels containing known amounts of human DNA (32, 16, 8, 4 and 2 pg in 10 µL H_2O) plus a negative control (10 µL DNA-free H_2O).

15 samples are rinsed one after another with DNA-free water. 10 µL of this solution is added to 15 µL master mix. PCR is done for 30 cycles.

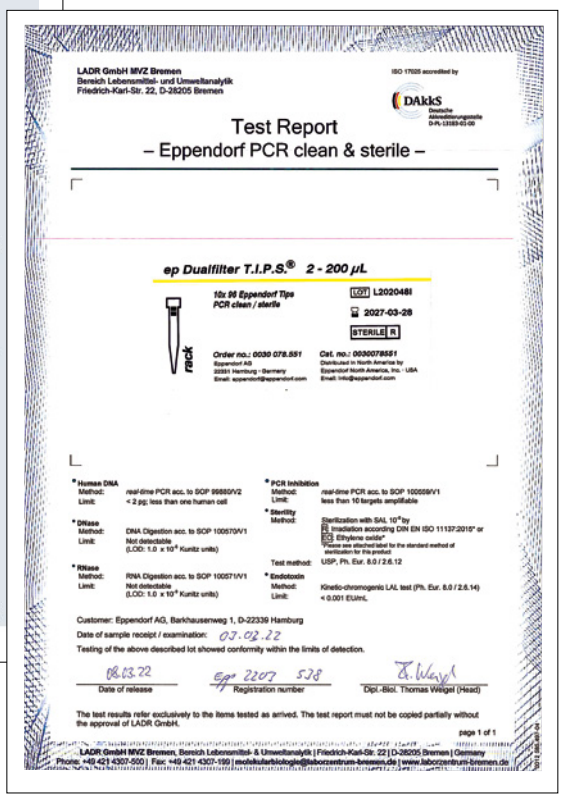

The emittance of Sybr Green-induced fluorescence is detected in samples and controls. For the samples to pass certification, no fluorescence must be found corresponding to the negative control.

DNase Test

15 samples are rinsed one after another with DNA-free water. 17 µL of these solutions are mixed with 3 µl DNase-buffer containing 100 bp DNA-ladder in a DNase-free tube. A positive control is spiked with DNase, a negative control contains DNA-free water. All tubes are incubated for 24 h at 37 °C.

Test Report
– Eppendorf PCR clean & sterile –

ep Dualfilter T.I.P.S.® 2 - 200 µL

10x 96 Eppendorf Tips
PCR clean / sterile

LOT L202048I
2027-03-28
STERILE R

Order no.: 0030 078.551
Eppendorf AG
22331 Hamburg · Germany

Cat. no.: 0030078551
Distributed in North America by
Eppendorf North America, Inc. · USA

* Human DNA
Method: real-time PCR acc. to SOP 99880/V2
Limit: < 2 pg; less than one human cell

* DNase
Method: DNA Digestion acc. to SOP 100570/V1
Limit: Not detectable (LOD: 1.0 x 10⁻⁴ Kuntz units)

* RNase
Method: RNA Digestion acc. to SOP 100571/V1
Limit: Not detectable (LOD: 1.0 x 10⁻⁴ Kuntz units)

* PCR Inhibition
Method: real-time PCR acc. to SOP 100559/V1
Limit: less than 10 targets amplifiable

* Sterility
Method: Sterilization with SAL 10⁻⁶ by
R Irradiation according DIN EN ISO 11137:2015* or
EO Ethylene oxide*
*Please see attached label for the standard method of sterilization for this product

Test method: USP, Ph. Eur. 8.0 / 2.6.12

* Endotoxin
Method: Kinetic-chromogenic LAL test (Ph. Eur. 8.0 / 2.6.14)
Limit: < 0.001 EU/mL

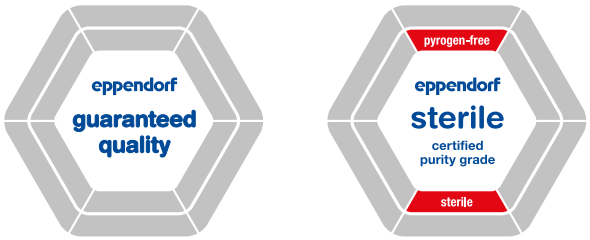

Customer: Eppendorf AG, Barkhausenweg 1, D-22339 Hamburg
Date of sample receipt / examination: 03.02.22
Testing of the above described lot showed conformity within the limits of detection.

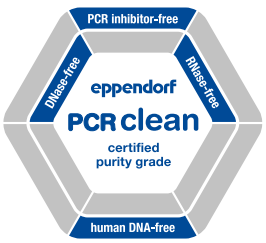

08.03.22 Date of release
Egp 2207 538 Registration number
Dipl.-Biol. Thomas Weigel (Head)

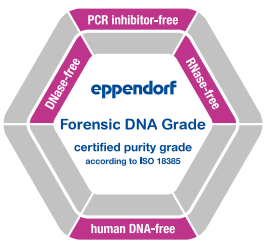

The test results refer exclusively to the items tested as arrived. The test report must not be copied partially without the approval of LADR GmbH.

Pure quality

With the strictest control criteria, internally and externally monitored, we ensure the consistent high quality of our products – from lot to lot. Our consumables are available in a variety of purity qualities. Eppendorf Quality as well as more advanced purity grades:
"Sterile, Protein-free, PCR clean, Eppendorf Forensic DNA Grade, and Biopur®". In addition to our internal process controls and general quality certificates, lot-specific certificates are provided by an external accredited laboratory for the Sterile, Protein-free, PCR clean, Eppendorf Forensic DNA Grade, and Biopur purity grades. This allows us to consistently meet our customer's high demands when it comes to purity (www.eppendorf.com/purity). As a special service, we make the inspection certificate for each delivered lot available online (www.eppendorf.com/certificates).

epT.I.P.S.®

Description
epT.I.P.S. PipetteTips – Eppendorf Totally Integrated Pipetting System – the perfect combination with Eppendorf pipettes, resulting in reduced-force tip attachment and ejection with complete sealing.

Product features
> epT.I.P.S. pipette tips can be used universally, including pipette models from other manufacturers
> Available in purity grades of: Eppendorf Quality, PCR clean, Biopur®
> Disposable Racks in slim new epT.I.P.S. design, reclosable, optimized for safe stackability, in sterility packaging compliant to DIN EN ISO 11607 - 1 and 2 and DIN EN 868-2 to 10

Applications
> Pipetting liquids
> Dispensing liquids
> Mixing liquids
> Filling plates and reaction vessels
> Filling gels for electrophoresis
> Phase extraction and removal of supernatants
> For applications in 384-microplate format we recommend using 16- or 24-channel pipettes together with epT.I.P.S. 384

epT.I.P.S.® 384

epT.I.P.S. 384 pipette tips with innovative SOFTattach technology for 16- and 24-channel as well as adjustable tip spacing pipettes

epT.I.P.S. 384 micropipette tips with the innovative SOFTattach technology are optimized for use with Eppendorf Research® plus and Xplorer® plus 16- and 24-channel pipettes, as well as 20 µL and 100 µL Move It® adjustable tip spacing pipettes. Process 384-well plates manually with the highest level of tip tightness and alignment but extremely low operating forces.

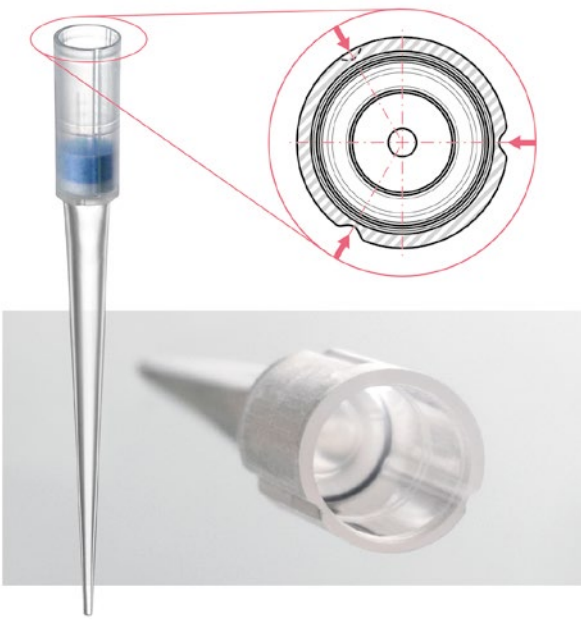

Product features

> epT.I.P.S. 384 pipette tips build a system together with the Research plus and Xplorer plus 16- and 24-channel pipettes as well as 20 µL and 100 µL Move It adjustable tip spacing pipettes for utmost safety and reliability
> Designed for a cone distance of 4.5 mm
> Innovative SOFTattach technology allows for reliable tip fit and tightness

The elastic forming grooves

As soon as the tips are attached, they adapt perfectly to the shape of the tip cone. This SOFTattach technology allows the user to achieve perfect tip tightness and safety.

ep Dualfilter T.I.P.S.® 384

Description

ep Dualfilter T.I.P.S. 384 with the innovative SOFTattach technology are optimally coordinated to the Eppendorf 16- and 24-channel pipettes Research plus and Xplorer plus, as well as 20 µL and 100 µL Move It adjustable tip spacing pipettes. Process 384-well plates manually with highest level of filter pipette tip tightness and coaxiality but extraordinary low operating forces.

Product features

> ep Dualfilter T.I.P.S. 384 pipette tips build a system together with the Research plus and Xplorer plus 16- and 24-channel pipettes as well as 20 µL and 100 µL Move It adjustable tip spacing pipettes for utmost safety and reliability
> Innovative SOFTattach technology allows for reliable tip fit and tightness while operating forces are reduced to a minimum
> Fill a whole 384-well plate without loosening pipette tips

An extraordinary tip alignment

All tips are perfectly aligned, making it easy and safe to transfer up to 24 samples simultaneously to the 384-well plate.

ep Dualfilter T.I.P.S.®

Description
ep Dualfilter T.I.P.S. Filter Tips - The ultimate protection of pipette and sample against unintentional and unnoticed contamination by aerosols, drops and splashes.

Product features
> Dual protection against aerosols[1)] and biomolecules
> Dual protection for pipette and sample
> Free of PCR inhibitor additives

The unmistakable blue and white filter layers are made of flexible, hydrophobic material to fit perfectly in the tip cone and retain practically 100 % of all aerosols[1)] and biomolecules. This unique filtering effect is achieved using various well-defined pore sizes in the two filter layers.

[1)] An aerosol is a colloid of fine solid particles or liquid droplets, in air or another gas.

ep Dualfilter T.I.P.S.® SealMax®

Description
ep Dualfilter T.I.P.S. SealMax Self-Sealing Filter Tips - The combination of the well known unique two-phase filter protection of sample and pipette with an innovative liquid and moisture barrier.

Product features
> Reliable protection from liquids, aerosols[1)] and biomolecules
> Certificate of filter efficiency of class ISO 25 E in accordance with DIN EN ISO 29463-5 available here
> No PCR inhibiting additives

[1)] An aerosol is a colloid of fine solid particles or liquid droplets, in air or another gas.

epT.I.P.S.® LoRetention®

The “Pearl Effect” – a comparison of the amount of residual liquid when pipetting solutions that contain detergents:
1. Significant loss of sample using standard tips
2. Maximized recovery with epT.I.P.S. LoRetention

Description
The “Pearl Effect” - Maximum recovery and reproducibility with epT.I.P.S. LoRetention and ep Dualfilter T.I.P.S. LoRetention - No sample loss, reduced costs, improved results.

Product features
> Ultrahomogenous surface for maximized reproducibility
> Ultrahydrophobic surface for minimal sample loss
> Significantly reduced foam formation during pipetting

epT.I.P.S. LoRetention pipette tips will be relaunched in 2023. The new order numbers will be available soon.

epT.I.P.S.® LoRetention® pipette tips new order numbers

www.eppendorf.com/LoRetention

epT.I.P.S.® Long

Description
epT.I.P.S. PipetteTips – Eppendorf Totally Integrated Pipetting System - the perfect combination with Eppendorf pipettes, resulting in reduced-force tip attachment and ejection with complete sealing.

Product features
> Slim design of the extra long epT.I.P.S. and ep Dualfilter T.I.P.S. pipette tips
> Always obtain high-quality results when pipetting from and into Eppendorf Tubes® 5.0 mL, conical tubes, cell culture flasks, deep wells and other deep vessels
> The risk of touching the walls of deep vessels is minimized and cross-contamination is prevented

Multipette® M4

Aspirate liquid once and dispense up to 100 times without tip refill
Say goodbye to tedious, long serial pipetting tasks! The Multipette M4 pipette from Eppendorf is ideal for repetitive dispensing of volumes in long series without the need for repeated liquid aspiration. In combination with Combitips® advanced dispenser tips, even viscous or volatile liquids that are difficult to pipette are no problem for the Multipette. With hermetically sealed tips, the system also offers a high level of safety for handling of infectious, toxic or radioactive liquids.

Product features
> Mechanical positive displacement multi-dispenser: fill the tip once and dispense up to 100 times without a refill
> Automatic Combitips® advanced recognition eliminates time consuming volume calculations
> Easy-to-read display guarantees stress-free and intuitive operation with a digital display of the dispensing volume

Applications
> Repetitive dispensing of volumes in long series such as tube or plate filling, aliquoting reagents and kit usage
> Safe dispensing of toxic, radioactive and other hazardous liquids
> Precise and accurate dispensing of viscous solutions (e.g. glycerol) or liquids with high vapor pressure (e.g. ethanol)

Multipette® E3/Multipette® E3x

Precise, safe, versatile and a dream to use over a long pipetting day!
These electronic dispensers combine easy handling during dispensing with a broad range of features! The Multipette E3x dispenser offers additional high-end applications, such as titration and aspirating of supernatants or sequential dilutions. In combination with the Combitips® advanced pipette tips, it is an essential lab tool for all kind of liquid handling.

Product features
> Electronic positive displacement dispenser with several functions e.g. for dilution series, titration, automatic dispensing into microplates and vessel series
> Automatic Combitips® advanced pipette tip recognition: Eliminates time-consuming volume calculations, avoiding incorrect dispensing volumes
> Ergonomic one-button tip ejector: For one-handed operation and contact-free Combitips® advanced pipette tip ejection

Applications
> Dispensing **(Dis)** or Automatic dispensing **(Ads*)** for repetitive (*automated) dispensing of set volumes in long series such as tube or plate filling, aliquoting reagents and kit usage
> Pipetting **(Pip)** for refilling of liquids
> Sequential dispensing **(Seq)** to create dilution series[1)]
> Aspiration **(Asp)** for pooling of supernatants from different vessels[1)]
> Aspirate and dispensing **(A/D)** for pooling and volume determination with subsequent dispensing[1)]
> Titration **(Ttr)** for controlled dropwise dispensing and concentration determination[1)]

Combitips® advanced

Description
Optimize your workflows involving plates or large series of other vessels with Combitips advanced dispenser tips and accurately and precisely pipette both viscous and volatile liquids. These positive displacement pipette tips are your consumable of choice for all Multipette® multi-dispenser pipettes from Eppendorf and offer a variety of advantages in comparison to their predecessor Combitips plus. Available in nine volume sizes (0.1 mL – 50 mL), Combitips advanced have a maximum range of dispensing volumes with increments as low as 100 nanoliters depending on the Multipette model used.

Product features
> Combitips® advanced tips are the ideal consumable choice for all Multipette® multi-dispenser pipettes from Eppendorf
> The 9 volume sizes (0.1 mL – 50 mL) offer a maximum range of dispensing volumes with increments as low as 100 nanoliters depending on the Combitips® advanced used
> Elongated Combitips® advanced in volumes 2.5 mL, 5.0 mL and 10 mL make it possible to reach the bottom of the most common laboratory vessels

Applications
> Positive displacement principle (comparable to a syringe)
> High-precision dispensing regardless of the physical properties of the liquid (like e.g. viscosity, volatility, density or temperature)
> Prevents aerosol contamination with hermetically sealed piston for secure dispensing
> Provides protection from radioactive and toxic substances
> Quick dispensing of long series with precise, repeated dispensing of identical volumes (with Multipette hand dispensers)

ViscoTip®

Easily master the highest viscosity liquids with your Multipette® from Eppendorf!
The latest member of the Combitips® advanced dispenser tip family, ViscoTip positive displacement tips, are specifically designed and optimized for handling high viscosity liquids up to 14,000 mPa*s such as glycerol 99.5 %, Tween®, oils, creams, shampoos, nail polish - even honey. So, if you need to dispense high viscosity liquids and you want to do it with ease, turn to ViscoTip.

Product features
> Specialized for liquids with a dynamic viscosity from 200 mPa*s to 14,000 mPa*s
> For dispensing volumes from 100 µL to 10 mL in increments of 10 µL
> Make life easier for your instrument: The new design of the tip means significantly lower operation forces are used, thus it speeds up work and reduces energy consumption

Applications
> Positive displacement principle (comparable to a syringe)
> For highly viscous liquids such as glycerol 99.5 %, Tween®, oils, creams, shampoos or honey
> Quick dispensing of long series with precise, repeated dispensing of identical volumes (with Multipette hand dispensers)

Varipette® 4720

The large volume pipette for large bottles or tall, narrow vessels
Handle challenging liquid handling tasks with ease! The Varipette® 4720 is a large volume, positive displacement pipette that is optimized for lab work with viscous or volatile liquids. Ideal to safely aspirate liquids from large bottles or tall, narrow vessels when using the Eppendorf Varitips® S system (figures 2 & 3) or from beakers using the Varitips® P pipette tips (figure 1).

Product features
> Mechanical positive displacement pipette designed for precise pipetting of liquids with high vapor pressure or viscosity
> Volume range: 1 mL to 10 mL, adjustable in 10 µL increments for accurate volume setting via 4-digit volume display
> Fast pipetting and convenient operation due to unique one-hand operation. Liquid automatically aspirates and dispenses by simply pressing the operating lever

Applications
> Safe and precise pipetting of aqueous, viscous and volatile liquids

Eppendorf Top Buret

Continuous and pulse-free manual titration
The innovative Eppendorf Top Buret sets new standards in manual liquid titration. Its pulse-free dispensing technique means that exact volumes can be dispensed continuously, making titration simple, safe and precise. And with a user-friendly display and simple control features, this extremely sturdy digital bottle-top burette is really easy to use.

Product features
> Bottle-top burette with continuous, pulse-free dispensing technology for manual titration
> Digital display ranging from 0.01 mL to 999.9 mL, dosing rates: Model M: 2.5 mL per turn, Model H: 5 mL per turn
> Recirculation valve with valve lever

Varispenser® 2/Varispenser® 2x

Safe and easy dispensing of liquids from bottles without compromise

Need a bottle-top dispenser for aggressive solutions such as acids, solutions or bases? The Eppendorf bottle-top dispensers Varispenser 2 and Varispenser 2x allow you to safely dispense liquids from a wide range of bottles without reagent waste and are ideal for conveniently dispensing aliquots from large supply bottles. Chemically resistant and autoclavable, their tight seal provides protection against caustic media.

Product features

> Bottle-top dispenser with standard GL 45 thread for most common bottle threads in all sizes
> Safety valve balls in discharge valve prevent leakage when discharge tube is not mounted
> Air vent cap can be unscrewed for easy assembly of drying tube

Applications

> Liquid dispensing directly from supply bottles or other big laboratory vessels containing aqueous liquids, lyes, acids, bases or solvents

Easypet® 3

Experience total control with the Easypet 3
Looking to simplify your manual liquid handling tasks in cell culture and other applications? The Easypet 3 electronic pipette controller from Eppendorf gives you precision and complete speed control, making it ideal for serial dispensing and resuspending bacterial or cell pellets. Easypet 3 can be used with all types of serological and volumetric pipettes from volumes of 0.1 – 100 mL.

Product features
> Electronic pipette controller designed for use with serological and volumetric pipettes
> Intuitive and convenient speed adjustment simply done with the tips of your fingers
> Lightweight, well-balanced and ergonomic design that allows for fatigue-free pipetting

Applications
> Liquid handling with serological and volumetric pipettes from 0.1 – 100 mL
> Serial dispensing of aliquots of different volumes
> Resuspension of bacteria or cell pellets
> Aspiration of cell layer from e.g. Ficoll® gradient

Technical specifications

Model	**Easypet® 3**
Weight	160 g
Rechargeable battery	
Capacity	1,100 mAh/3.7 V
Charging time	~3 h
Type	Lithium polymer
Channel type	1-channel
Number of dispensings	~2,000 (with a 25 mL pipette)
Operation	Electronic
Pipetting type	Air cushion system
Mains/power supply	
Input	100 V – 240 V AC ± 10 %, 50 Hz – 60 Hz, 0.5 A
Output	5 V DC, 1.0 A

Membrane filter, for Easypet® 3, 0.2 µm, sterile, 5 pcs.	4430 606 005
Membrane filter, for Easypet® 3, 0.45 µm, sterile, 5 pcs.	4421 601 009
Lithium polymer rechargeable battery, for Easypet® 3	4430 605 009

Pipet Helper®

The mechanical pipette aid that allows inexperienced users to work like experts!
Make liquid handling tasks easier than ever with the Pipet Helper mechanical pipette aid from Eppendorf. Streamline lab applications such as assay preparation, petrochemical sample transfer, and preparing buffers for chromatography and fluids for fermentation. Ensuring high-precision manual aspiration and dispensing of liquids, the Pipet Helper is perfect also for less experienced users.

Product features
> Lightweight mechanical pipette controller with reduced operating force
> Easy maintenance and cleaning due to easy disassembly, few parts and fully autoclavable
> Comfortable working because of the good balance and pleasing material

Ordering information

Description	Order no.
Pipet Helper®, 1-channel, 0.1 – 100 mL	4423 000 010
Membrane filter, for Pipet Helper®, 3 µm, non-sterile, 10 pieces	4423 601 014

Eppendorf Serological Pipets

Designed to work in perfect harmony with your Easypet® 3 or Pipet Helper®
Eppendorf Serological Pipets are single-use serological pipettes made of ultraclear plastic. They are designed to aspirate and dispense liquids using mechanical or electronic pipette controllers such as the Pipet Helper or Easypet 3.

Product features
> Clear and precise graduations for easy volume determination
> Color-coding for easy identification of pipet sizes
> Subunits with dispenser option to keep stored products safe

Automated Pipetting

Automated pipetting represents a natural progression in biological sample processing and gives superior accuracy and reproducibility compared to manual pipetting. It simplifies the process of liquid handling for academic research as well as industrial applications.

The epMotion® line of automated liquid handling systems from Eppendorf offer pipetting solutions for low, medium, and high-throughput workflows that can dramatically increase the consistency of your liquid handling tasks.

At Eppendorf, we also provide a wide range of consumables and accessories to extend the versatility and scalability of our ep*Motion* workstations, ensuring that our automated liquid handling systems meet the specific needs of your laboratory.

Why lab automation?

www.eppendorf.com/choose-a-robot

Automated pipetting workstations

Increase the accuracy and precision of your pipetting with our epMotion family of robotic liquid handlers for low, medium, and high-throughput molecular biology applications. Our liquid handling robots can save you time and increase the reproducibility of your results.

Molecular biology methods and genomic workflows are our application focus. We offer easy-to-use, but powerful automated solutions for PCR and qPCR, nucleic acid purification, and Next Generation Sequencing (NGS) library preparation.

Automate your NGS workflow!

Automated pipetting consumables & accessories

Ensure your workflow is as efficient as possible with our epT.I.P.S.® Motion range of pipetting supplies, designed for use with epMotion workstations. All our liquid handling consumables are available in a range of purity grades and are manufactured under strict compliance with ISO regulations.

Optimize your liquid handling workflow with accessories designed for use with epMotion workstations. These accessories extend the functions of our liquid handling robots and enable you to automate more of your protocol for consistent sample processing.

epMotion® 5073t NGS Solution

Description

The epMotion 5073t NGS solution contains everything you need to begin automated NGS library preparation of up to 24 samples. It combines automated liquid handling and unique software features with all of the accessories and high-quality consumables needed for reliable low-to-medium-throughput NGS library preparation. By automating NGS library preparation with epMotion 5073t, you increase reproducibility and reduce pipetting errors and, in turn, improve your experimental data.

Easily operate liquid handling tasks via the MultiCon Desktop PC equipped with Windows 10. The intuitive software interface allows for fast and flexible method implementation and an integrated Eppendorf ThermoMixer® allows for upstream nucleic acid purification. Purification to save you valuable time for other laboratory task and data analysis.

Product features

> Up to 24 samples for NGS library preparation with minimal user intervention
> Three dispensing tools eliminate interruptions during NGS library preparation
> TipHolder 73 and Gripper Tower allow the use of 5 x 96 tips on just two ANSI/SLAS positions

Applications

> Sample or reagent transfer
> Mixing and tempering
> Assay set-up
> Nucleic acid extraction
> Dilution series, cherry picking and normalization
> NGS library preparation

epMotion® 96 and 96xl

Description
The Eppendorf epMotion 96 is a semi-automated, 96-well multi-channel pipette for fast and precise parallel microplate processing. It is an easy to use bench top liquid handling robot for high precision pipetting in 96 and 384 well plates. Without changes to the system, a large volume range of 0.5 µL to 300 µL is available for convenient use over a range of applications. Its ergonomic design and intuitive handling makes the epMotion 96 a great tool for anyone in the lab who needs fast and precise liquid handling in 96 format.

Product features
> 0.5 to 300 µL or 5 to 1,000 µL with one system
> Electronic pipetting with synchronous 96 channel piston movement for better precision and reproducibility of results
> Auto-detect function for tip size

epMotion® 5070/5070 PCR Solution

Description
The innovative epMotion 5070 is the most compact solution for accurate and reproducible automated pipetting of the epMotion family. With four worktable positions, it is a perfect match for routine applications. The 5070 PCR solution comes ready equipped with all accessories for hassle-free PCR and qPCR set up. Don't wait to achieve reproducible automated pipetting results.

Product features
> 4 ANSI/SLAS worktable and unlimited virtual positions
> Maximum pipetting accuracy from 0.2 to 1,000 µL
> Calibrated 1-channel and 8-channel pipetting tools

epMotion® 5073l

Description
Why spend valuable time on challenging liquid handling procedures when you can achieve fast, accurate and reproducible PCR setup with the epMotion 5073l automated liquid handler? Perfect for medium-throughput setup for PCR, real-time PCR (qPCR), DNA/RNA normalization, cherry picking, dilution series and reformatting, the epMotion 5073l helps you perform pipetting tasks with ease and greater efficiency.

Product features

epMotion® 5073t

Description
The epMotion 5073t automated liquid handling system allows you to perform fast and efficient nucleic acid purification (NAP) of 1 to 24 samples. It is also ideal for automating more complex, time-consuming liquid handling tasks such as DNA/RNA extraction. Save time and improve the reproducibility of your results with the epMotion 5073t!

Product features
> 6 ANSI/SLAS microplate positions
> Intuitive, drag and drop based software
> Optical sensor [1] for detecting liquids, labware, tips

epMotion® 5075l

Description
Don't stress yourself by doing complex pipetting tasks when you can perform fast, accurate and reproducible PCR plate setup with the epMotion 5075l automated liquid handler. The epMotion 5075l offers 15 worktable positions and is well suited for high-throughput preparation of plates for PCR or real-time PCR (qPCR), DNA/RNA normalization, cherry picking, dilution series, reformatting and immunoassays. Say goodbye to tedious pipetting steps!

Product features
> 15 ANSI/SLAS worktable positions
> Maximum pipetting accuracy from 0.2 to 1,000 µL
> Automatic exchange of all tools (gripper, 1-channel and 8-channel)

epMotion® 5075t NGS Solution

Description
Automating library preparation for NGS eliminates the risk of pipetting errors, provides reproducible results and increases your lab productivity. The epMotion 5075t NGS solution provides everything you need for reliable, accurate and precise automated library prep as well as maximum NGS kit flexibility. Ideal for high-throughput and complex NGS workflows, the epMotion 5075t NGS delivers reproducible results at speed and makes labor-intensive workflows a thing of the past.

Product features
> Same as 5075t, plus
> Industry-proven, large library of manufacturer and customer qualified NGS methods enables sequencing results comparable or better to those from manual preparation
> Intelligent Tool Selection automatically decides which tools (single or 8-channel) to use for fastest run time – ideal when sample numbers change frequently or are not a multiple-of-8

PCR clean, 50 µL, 2,304 tips (24 trays × 96 tips)	0030 014 430
PCR clean, 300 µL, 2,304 tips (24 trays × 96 tips)	0030 014 472
PCR clean, 1,000 µL, 2,304 tips (24 trays × 96 tips)	0030 014 510
PCR clean and sterile, 10 µL, 2,304 tips (24 trays × 96 tips)	0030 014 561
PCR clean and sterile, 50 µL, 2,304 tips (24 trays × 96 tips)	0030 014 529
PCR clean and sterile, 300 µL, 2,304 tips (24 trays × 96 tips)	0030 014 537
PCR clean and sterile, 1,000 µL, 2,304 tips (24 trays × 96 tips)	0030 014 570
TipHolder, for epT.I.P.S.® Motion Reloads	5075 751 399
Clip for epT.I.P.S.® Motion Reloads	5075 751 070
Box for epT.I.P.S.® Motion 1,000 µL Reload	0030 014 677
Box for epT.I.P.S.® Motion 10/50/300 µL Reload	0030 014 669

epT.I.P.S.® Motion Pipette Tips

Description
Eppendorf Totally Integrated Pipetting System for Automation
For routine pipetting with excellent precision it is important to have a perfect system of tips and automate. The epT.I.P.S. Motion have been developed to work in perfect combination with our epMotion platform.

Ordering information

Device Hardware Upgrades and Software

Ordering information

Description	Order no.
Thermal module, thermal module for heating or cooling (0 – 110 °C) thermoadapters, thermoblock and thermoracks	5075 757 001
Work surface adapter, for raising the epMotion® worktable by 5.5 cm, 4 feet	5070 752 001
Device Hardware Upgrades and Software, Upgrade set to MultiCon, changes existing epMotion EasyCon to PC controller. Includes PC, keyboard, mouse, epBlue SW, PCR & Prep assistant, cables	5075 000 725
CleanCap upgrade set, UV lamp and HEPA filter system for decontamination and pipetting under clean air conditions, for upgrading an epMotion 5073 (SN>7000) with epBlue version >40.7, optionally available	5073 001 333
epBlue ID barcode and tracking software incl. manual barcode scanner, modular expansion of epBlue for barcode support. Incl. manual barcode reader with stand. Compatible with epBlue version 40.1 and higher	5075 002 701
epBlue GxP software, for use in supporting process environments (according to GLP, GMP, 21 CFR part 11), as configuration option or for pre-installed epMotion® MultiCon versions with epBlue version 40.1 to 40.7, with epBlue GxP software, corresponding firmware, certificates	5075 002 728
epMotion® Editor 40, software CD ROM with instructions, used to create, edit and simulate application on a PC, compatible with epBlue version >40.x	5075 014 220
epMotion® Editor 40, additional software license	5075 014 300
Enhanced Feature Set 1, license for epBlue additional features: Calculated no. of samples; Automatic tool selection; Start at command; Email notification, requires service visit and epBlue >40.6	5075 000 964
Enhanced Feature Set 2, license for epBlue feature: Normalization, requires Service visit and epBlue 40.8 or higher	5075 000 981
Modification kit TMX for 5075l, to modify a 5075l with Eppendorf ThermoMixer® to a 5075t (for units SN>4000)	5075 000 630
Extension plate 5075l to TMX and VAC, to be ordered with 5075 000.620 and 5075 000.630 (for units SN>4000)	5075 000 640
Expansion board, for supporting the cleanbench work surface	5070 751 005
Waste bin UV-shield 45 mm, adapter to install at waste position. Allows using UV light by an increased waste capacity. Waste bag holder not included.	5075 751 976
Waste bin UV-shield 100 mm, incl. adapter, adapter to install at waste position. Allows the use of UV light through increased waste capacity in an epMotion with a raised worktable (5.5 cm, work surface adapters included). Waste bag holder not included.	5075 751 992

Dispensing Tools

Description
The dispensing tools for the epMotion liquid handling workstations are precision instruments for pipetting and dispensing of a variety of different liquids. They are available as single channel as well as multichannel tools, and they cover the volume range between 0.2 and 1,000 µL.

Product features
> Highest accuracy from 200 nL to 1,000 µL
> For various types of liquids
> 1- and 8-channel dispensing tools

Ordering information

Description	Order no.
Holder for 6 dispensing tools	5075 774 003
Gripper, incl. holder, for transporting plates on the worktable and automatic operation of the vacuum manifold, additionally order Gripper Tower 5075 751 895 for 5073 with SN > 6000	5282 000 018
TS 10 single channel dispensing tool, 1-channel, 0.2 – 10 µL	5280 000 100
TS 50 single-channel dispensing tool, 1-channel, 1.0 – 50 µL	5280 000 010
TS 300 single-channel dispensing tool, 1-channel, 20 – 300 µL	5280 000 037
TS 1000 single-channel dispensing tool, 1-channel, 40 – 1,000 µL	5280 000 053
TM 10-8 eight-channel dispensing tool, 8-channel, 0.2 – 10 µL	5280 000 304
TM 50-8 eight-channel dispensing tool, 8-channel, 1.0 – 50 µL	5280 000 215
TM 300-8 eight-channel dispensing tool, 8-channel, 20 – 300 µL	5280 000 231
TM 1000-8 eight-channel dispensing tool, 8-channel, 40 – 1,000 µL	5280 000 258
Holder for gripper	5075 759 004

epMotion® 96 Accessories

Description
The accessories for the epMotion 96 and epMotion 96xl increase the capacity for plates and reservoirs. Optional tip trays and adapter allow 384 well plates to be handled with ease.

Ordering information

Description	Order no.
Loading frame for epMotion® 96	5069 072 005
Adapter 384-well plate for epMotion® 96	5069 073 001
Upgrade set 2-position slider for epMotion® 96	5069 074 008
O-ring tool set, with separator, blade, hook, mounting cone, mounting cylinder	5069 858 505
Modification kit for 2-position slider (4.5 mm increments), including constant-force spring, shielding plates (epMotion 96 and 96xl), screws, guiding aid and holding devices (epMotion 96 as of serial number 2008, all epMotion 96xl)	5069 878 506

epMotion® ReservoirRacks and Modules

Description

The Eppendorf Reservoirs are the perfect vessels for a 10 to 400 mL liquid range, and permit the use of single channel and multichannel dispensing tools. The tapered shape of the reservoirs allows utilization of the entire liquid volume with minimal residue. Moreover, the reservoirs may be temperature-controlled inside the racks to allow cooling or warming of liquids.

Our Reservoir Racks hold reaction vessels of different sizes, and allow tempering in order to protect valuable samples or carry out reactions directly inside the Reservoir Rack.

Ordering information

Description	Order no.
ReservoirRack, for presenting 10 mL, 30 mL and 100 mL reagent reservoirs. Up to 7 reservoirs or Reservoir Rack modules can be presented.	5075 754 002
Adapter sleeves, to retrofit the 1.5/2.0 mL thermoracks for use with 0.5 mL vessels, 25 pcs.	5075 772 000
Gripper Tower, enables positioning epT.I.P.S.® Motion Reload trays in the parking position of the gripper and holds the gripper when it is not in use; only for use with epMotion® 5073 as of serial number 6000	5075 751 895
Tip Tool, tool for exclusively transferring epT.I.P.S.® Motion from racks and trays to the ReservoirRack modules for tips, incl. wall mount for safe storage of the tool	5285 000 000
Reservoir Rack Module NGS, for use with epMotion® ReservoirRacks, for distributing samples and reagents for NGS-specific applications, space for 20 x ILMN tubes, 4 x Eppendorf Tubes® 5.0 mL, 4 x Eppendorf Tubes 1.5 mL	5075 751 917
Reservoir Rack Module PCR, for use with epMotion® ReservoirRacks, for distributing samples and reagents for PCR, space for 48 x PCR tubes 0.2 mL incl. 2 x strip adapters 0.2 mL, (alternatively, space sufficient for 16 index tubes and up to 32 x PCR tubes 0.2 mL), 12 x Eppendorf Tubes 1.5/2.0 mL, 1 x tube 5.0 mL	5075 751 933
Reservoir Rack Module Tips, for use with epMotion® ReservoirRacks, for providing up to 16 epT.I.P.S.® Motion per module and up to 7 modules per ReservoirRack (112 tips in total), set consisting of 7 modules	5075 751 950
TipHolder, for epT.I.P.S.® Motion Reloads	5075 751 399
TipHolder 73, enables positioning epT.I.P.S.® Motion Reload trays above a rack of epT.I.P.S.® Motion and thus doubles the tip capacity in an ANSI/SLAS position, reusable and autoclavable, epBlue 40.7 or higher required	5075 751 879
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 8 × PCR tubes 0.2 mL	5075 799 049
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 4 × Safe-Lock tubes 0.5/1.5/2.0 mL	5075 799 081
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 4 × Eppendorf Tubes® 5.0 mL	5075 799 340
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 4 × reaction vessels Ø 12 mm	5075 799 103
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 4 × reaction vessels Ø 16 mm	5075 799 120
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 4 × reaction vessels Ø 17 mm	5075 799 162
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 2 × reaction vessels Ø 29 mm	5075 799 189
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 1 × reservoir 10 mL	5075 799 421
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 1 × reservoir 30 mL	5075 799 146
ReservoirRack Module TC, for use in epMotion® ReservoirRacks, temperable, 1 × reservoir 100 mL	5075 799 260
epMotion® reservoir 10 mL, small-volume container for reagent presentation on the epMotion®, can only be inserted with the Reservoir Rack; production batch testing, certified, 10 mL, PCR clean, 10 × 5 reservoirs in the bag, polypropylene (PP)	0030 126 521
epMotion® reservoir 30 mL, large-volume container for reagent presentation on the epMotion®, can only be inserted with the Reservoir Rack; production batch testing, certified, 30 mL, PCR clean, 10 × 5 reservoirs in the bag, polypropylene (PP)	0030 126 505
epMotion® reservoir 100 mL, large-volume container for reagent presentation on the epMotion®, can only be inserted with the Reservoir Rack; production batch testing, certified, 100 mL, PCR clean, 10 × 5 reservoirs in the bag, polypropylene (PP)	0030 126 513
epMotion® reservoir 400 mL, large-volume container for reagent presentation on the epMotion®; production batch testing, certified, 400 mL, PCR clean, 400 mL, 10 reservoirs, PCR clean, autoclavable, polypropylene, polypropylene (PP)	5075 751 364
epMotion® reservoir 195 mL, low dead volume reservoir, single well with 96 cavities, PCR clean, 4 × 5 reservoirs, 195 mL, polypropylene (PP)	0030 126 556

epMotion® Thermoracks and Plate Accessories

Description

The Thermoracks, Thermoblocks and Thermoadapters comprise versatile options for the cooling or warming of reaction vessels and plates of different formats. The gripper for plates and racks allows automated transport and stacking on the deck. A 96 well magnet adapter for applications using magnetic beads is also available, and it enables fully automated extraction and purification protocols and/or NGS library preparation using a diverse range of kits.

Ordering information

Description	Order no.
Thermorack CB, for up to 384 × 0.1 mL strip tubes in the Qiagen® Rotor-Gene®	5075 767 031
Eppendorf Magnum FLX® Magnet Adapter, universal ring magnet plate for rapid magnetic bead separation. Supports most 96-well plates (standard, PCR, deepwell)	5075 751 836
Thermorack Rotor/Tubes, for temperature controlled pipetting of Qiagen® Rotor-Disc® 72/100 and 20 tubes 1.5/2.0 mL	5075 751 526
Thermoblock PCR 96 OC, for temperature control and safe piercing of sealed, semi-skirted PCR plates with orientation control	5075 751 666
Thermoadapter for PCR, for temperature control of PCR plates, 96 wells, skirted	5075 787 008
Thermoadapter for PCR, for temperature control of PCR plates, 384 wells, skirted	5075 788 004
Thermoadapter Frosty, combination of height adapter and PCR-Cooler, for cooling skirted PCR plates	5075 789 000
Lid for Thermorack Rotor/Tubes, with adapter for placing the lid on the epMotion® worktable	5075 751 640
Thermoblock DWP 2000, for 2 mL Eppendorf Deepwell Plates 96/2000	5075 751 330
Thermoadapter DWP 96, for Deepwell Plates 96/1000	5075 751 054
Thermoadapter LC Sample, for MagNA Pure LC sample cartridge	5075 751 305
Thermorack, for 24 Safe-Lock tubes, temperable, 0.5/1.5/2.0 mL	5075 769 000
Thermorack, for 24 Safe-Lock tubes, temperable, 1.5/2.0 mL	5075 771 004
Thermorack TMX, for 24 Safe-Lock micro test tubes, 0.5 mL/1.5 mL/2.0 mL	5075 751 160
Thermorack TMX, for 24 Safe-Lock tubes, temperable, 1.5/2.0 mL	5075 751 186
Thermorack, for 24 Cryo tubes	5075 777 055
Thermoblock for PCR, for temperature control of 96 vessels 0.2 mL or one PCR plate 96 wells	5075 766 000
Thermoblock for PCR, for temperature control of PCR plate 384 wells	5075 767 007
Thermoadapter for Microplate 96/V/U, for holding and temperature control of Eppendorf Microplates with V or U bottom	5075 751 577

epMotion® Tube Racks, Adapters and Vacuum Modules

Description
Tube racks are specially designed for the respective dimensions of the reaction vessels, and they thus provide optimal support for plastic as well as glass vessels.

Ordering information

Description	Order no.
PrepRack for 24 Eppendorf Safe-Lock Tubes 2 mL, for nucleic acid preparation	5073 751 006
Rack for single test tubes, for presenting Eppendorf reaction vessels, glass or plastic tubes, not temperable	
Ø 17 mm × 100 mm max. length	5075 761 009
Ø 17 mm × 60 mm max. length	5075 775 000
Ø 16 mm × 100 mm max. length	5075 760 002
Ø 16 mm × 60 mm max. length	5075 776 006
Ø 15 mm × 100 mm max. length	5075 792 028
Ø 15 mm × 60 mm max. length	5075 792 044
Ø 14 mm × 100 mm max. length	5075 792 001
Ø 14 mm × 60 mm max. length	5075 792 060
Ø 13 mm × 100 mm max. length	5075 762 005
Ø 13 mm × 60 mm max. length	5075 792 087
Ø 12 mm × 100 mm max. length	5075 763 001
Ø 12 mm × 60 mm max. length	5075 792 109
Rack, for 24 HPLC tubes, Ø 12 mm × 40 mm max. length	5075 792 125
Rack, for 96 screw cap tubes, 1.5/2.0 mL	5075 791 005
Rack for 24 tubes, for 24 Safe-Lock tubes, no tempering	
0.5/1.5/2.0 mL	5075 751 453
1.5/2.0 mL	5075 751 275
Vac holder, adapter for Vac Frame	5075 778 009
Vacuum lid, lid for vacuum unit	5075 779 005
Silicone mat for Vac Lid	5075 793 008
Vac Frame 1, 16 mm height, recommended for filter plates from 5Prime, Invitek	5075 784 009
Vac Frame 2, 26 mm height, recommended for filter plates from MACHEREY NAGEL®, Promega® or Qiagen®	5075 785 005
Anticontamination plate adapter, for vacuum processes with foaming solutions in multiwell plates, set of 10	5075 794 004
Vac Thermo lid	5075 796 007
Collection plate adapter MN, type for VAC station	5075 785 064
Elution plate adapter, for processing micro tubes in racks	5075 785 030
Rack Smart, for holding one tube rack of SmartCycler® reaction tubes	5075 790 009
Rack LC 20 µL/100 µL, for up to 96 × 20 µL or 100 µL LightCycler capillaries for use with Centrifuge 5804/5804 R or 5810/5810 R and other devices, set of 2	5075 795 000
Adapter for Covaris Rack 12 x 8 Strips, for E-series rack 12 place 8 microTUBEStrip V2 from Covaris PN 500444	5075 751 801
Rack ILMN tubes, Rack for single tubes, 40 × Ø 8.4 mm and 12 × Ø 11.2 mm, transportable, autoclavable	5075 751 747

epMotion® Waste Disposal Accessories

Description
During the pipetting of liquids, waste, both liquid and solid, is generated. Solid waste mainly consists of pipette tips and reaction vessels. In order to dispose both types of waste correctly, we offer variable options. For collecting solid waste we offer bags or boxes, and for collecting liquid waste a specialized reservoir.
In order to use waste bags of larger capacity inside an epMotion Workstation, it will be necessary to elevate the Workstation slightly by using a work surface adapter (5070 752.001).

Ordering information

Description	Order no.
Waste bag holder, for epMotion® 5070/5073/5075 waste position	5075 753 103
Waste container with ring, for holding used pipette tips	5075 753 006
Liquid Waste Tub 400 mL, to mount in waste bag holder and waste container of epMotion®, with lid, autoclavable, working volume 400 mL	5075 751 720
Waste bags bio-hazardous waste, for epMotion® 5070/5073/5075 waste position, up to 7 L volume, ideal for disposing of biologically hazardous waste, autoclavable, PP material, thickness 50 µm, transparent, 50 bags	5075 751 763
Waste bags, for epMotion® 5070/5073/5075 waste position, up to 7 L volume, ideal for disposing of non hazardous waste, autoclavable, PP material, thickness 50 µm, transparent, 50 bags	5075 751 780

epMotion® Height Adapters

Description
Adjusting the height of vessels is necessary when optimizing protocols and workflows. Our various height adapters enable users to level lab ware on the worktable for faster sample processing.

Ordering information

Description	Order no.
epMotion® height adapter, for leveling labware, enables faster plate processing	
85 mm	5075 751 003
55 mm	5075 752 000
40 mm, for pipette tips	5075 755 009

Temperature Control and Mixing

Every lab needs to heat, cool, and mix samples. Nucleic acid or protein purification and analysis, cell and tissue research or expression profiling – all of these applications require a thermal mixer.

An accurate temperature might be the first thing that comes to your mind when thinking about a thermal mixer. For us, temperature accuracy is a must, and we test each device separately after production to certify its performance.

The mixing performance is guaranteed by our proven ^{2D}Mix-Control, ensuring even small volumes are mixed efficiently. If you are only looking for efficient mixing without temperature control, the MixMate® is your 3-in-1 choice – a vortex, plate, and tube mixer all in one package.

Additionally, your thermal mixer must be reliable, robust, easy-to-handle, and versatile. We enhance your vessel flexibility with 15 different Eppendorf SmartBlock thermoblocks – from 0.1 mL tubes or plates up to 50 mL Eppendorf conical tubes. Each SmartBlock can be easily attached with only one hand to the Eppendorf ThermoMixer® C, or Eppendorf ThermoStat C, and is individually certified for temperature accuracy. If you need enhanced capacity and a second incubation temperature for 1.5 mL tubes, we offer the SmartExtender – perform your heat-shock transformation in one device.

Get all information about the Eppendorf mixer portfolio!
Explore the eshop and get an overview!
www.eppendorf.com/mixer-portfolio

When working with cell lines, our Eppendorf SmartBlock cryo thaw offers a special program for smooth thawing of cell culture vials, and reagents: convenient, capable of handling multiple vials at once, reduced contamination, and reproducible.

Your samples can be protected from evaporation and condensation at the tube lid when using the ThermoTop®, which heats the sample from above. Your reaction happens where you want it – down in the tube.

Easy programming is a necessity. To increase your efficiency, each device has preprogrammed keys with the ideal parameters for efficient mixing of vessels, like a PCR plate, as well as preprogrammed temperature keys, like 37 °C or 95 °C.

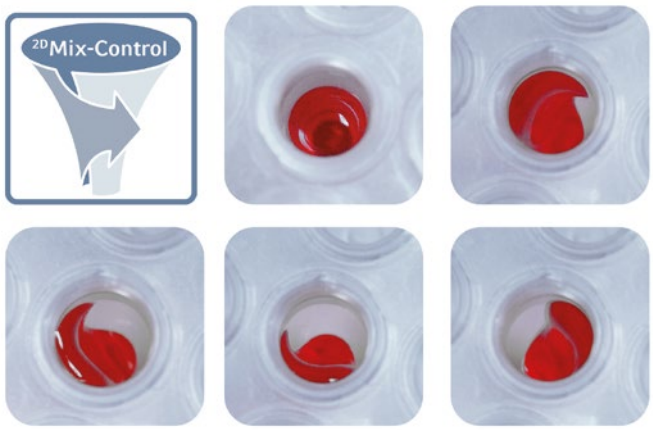

We care about you and your safety, so we designed all of our devices with an isolating layer on the block that protects you from burning your fingers. All surfaces are smooth without edges and easy to clean and disinfect.

Use the Eppendorf ThermoMixer® C for heating, cooling and mixing of your samples. Multiple Eppendorf SmartBlocks enlarge your vessel flexibility from 384-well plates to 50 mL tubes.

Versatility of ThermoMixer

Please use the QR Code.
www.eppendorf.com/mixer-versatility

The 2D Mix-control ensures efficient mixing of even small volumes by a broad orbital movement.

Eppendorf ThermoMixer® C

More about ThermoMixer C

Please use the QR Code.
www.eppendorf.com/ThermomixerC

Description

Eppendorf ThermoMixer C is for heating, cooling, and mixing almost any of your lab vessels. Efficient mixing of your samples is executed by [2D]Mix technology.

Product features

> Mixing, heating, and cooling in one instrument for high flexibility
> All common vessels and plate formats from 5 µL to 50 mL by different Eppendorf SmartBlocks for standard applications
> Ideal for cell thawing when using Eppendorf SmartBlock cryo thaw

	Plate type	96-well plates	384-well plates
Mixing of different buffers			
Buffer with detergent	PCR	30 s 1,800 rpm	30 s 2,800 rpm
Buffer without detergent	PCR	1 min 2,000 rpm	30 s 3,000 rpm
Buffer with high salt concentration	DWP	5 s 1,400 rpm	30 s 2,000 rpm
Buffer with DMSO	MTP	5 s 1,100 rpm	5 s 2,000 rpm
Mixing of viscous solutions			
Genomic-DNA	PCR	30 s 2,000 rpm	1 min 3,000 rpm
Resuspension of pellets			
Bacteria cell pellets	DWP	30 s 2,000 rpm	2 min 2,000 rpm

Eppendorf ThermoMixer C provides enough mixing power to handle challenging mixing tasks. Most samples are efficiently mixed less than a minute independent of vessel geometry or sample properties. For more informations see AppNote 130.

The ideal device to accurately set and maintain temperatures:
The Eppendorf ThermoStat C is for heating and cooling almost any of your lab vessels. For additional condensation prevention of small volumes we recommend the Eppendorf ThermoTop (optional), a heated lid with condens.protect technology.

Product features
> Heating and active cooling in all common vessel and plate formats from 5 µL to 50 mL for high flexibility
> Broad range of Eppendorf SmartBlocks enables high vessel flexibility
> Excellent temperature accuracy for safe sample handling

Eppendorf ThermoMixer® F

Product features

> Heating and mixing in 0.5/1.5/2.0 mL reaction vessels (F0.5/F1.5/F2.0) or plates (FP)
> Up to 1,500 rpm (F1.5/F2.0) or 2,000 rpm (F0.5/FP) for efficient sample mixing
> Outstanding ^{2D}Mix-Control technology results in excellent mixing performance

Doing a lot of routine mixing and heating?
These products are the perfect choice for mixing and heating established routine applications. The Eppendorf ThermoMixer F0.5/F1.5/F2.0 and FP have a fixed block for 0.5/1.5/2.0 mL tubes and plates, respectively. Reliable prevention of condensate formation in small vessels can be achieved with the heated lid Eppendorf ThermoTop (optional).

MixMate®

Straight mixing required? The 3-in-1 mixer for plates, tubes, and vortex mixing. This high speed instrument provides complete mixing of your samples in seconds. Remarkable ^{2D}Mix-Control enables optimized mixing with anti-spill technology.

Product features

> High-speed mixer (up to 3,000 rpm) for fast and efficient mixing of small volumes in all common vessel formats up to 50 mL
> ^{2D}Mix-Control technology (planar mixing orbit without vertical movement) for controlled mixing and reproducible results in seconds
> Anti-spill technology for controlled mixing movements without lid wetting and cross-contamination

Temperature Control and Mixing

ThermoTop®

Having non-regular enzymatic results after temperature incubation?

The ThermoTop with condens.protect technology heated lid avoids condensation on tube lid and tube wall. It is compatible with Eppendorf ThermoMixer C/ Eppendorf ThermoStat C with SmartBlock plates and lab vessels up to 2 mL and Eppendorf ThermoMixer F 0.5/F1.5/F2.0/FP.

Product features

> Efficient and reliable of condensation prevention for safe sample heating
> Get stable reaction conditions for optimal enzymatic performance within your samples
> Wireless connection with automatic recognition and operation for user-friendly handling

Ordering information

Description	Order no.
ThermoTop®, with **condens**.*protect* technology	5308 000 003

SmartExtender

Do you need a second temperature or more space for incubation steps?

The Eppendorf SmartExtender offers a comfortable incubation tool which can easily be used as an add-on to your existing SmartBlocks and the Eppendorf ThermoMixer® C/F as well as Eppendorf ThermoStat C.

Product features

> Independent temperature set-up for parallel application
> Up to 12 × 1.5 mL vessels
> Temperature range from 3 °C above room temperature to 110 °C

Ordering information

Description	Order no.
SmartExtender, 1.5 mL	5322 000 008

IsoTherm-System®

The IsoTherm-System is the ideal system for safely cooling your samples in 0.5mL or 1.5 mL/2.0 mL tube formats at -21°C or 0°C throughout your entire lab workflow.

Ordering information

Description	Order no.
IsoTherm-System® starter set, includes IsoSafe, IsoRack, 0 °C IsoPack and -21 °C IsoPack	
for 1.5/2.0 mL tubes	3880 001 018
IsoPack and IsoRack set, includes one IsoPack and one IsoRack	
for 1.5/2.0 mL vessels, 0 °C	3880 001 166
for 1.5/2.0 mL vessels, -21 °C	3880 001 174

Eppendorf SmartBlock

Interchangeable in just seconds.
These individually sensor-controlled SmartBlocks are your solution for maintaining accurate, uniform temperatures. The flexible thermoblocks are compatible with common lab vessels to support a broad range of applications - for use with Eppendorf ThermoMixer® C (heating/ cooling and mixing) and Eppendorf ThermoStat C (heating/ cooling).

Product features
> Optimized block design supports optimal temperature transfer to your sample to achieve excellent results
> Eppendorf SmartBlock-specific calibration by integrated sensor technology maximizes temperature accuracy and homogeneity
> Every Eppendorf SmartBlock is individually inspected in production for temperature accuracy and includes a serial-number specific certificate for documentation purpose

SmartBlocks can only be used with ThermoMixer C and ThermoStat C

Eppendorf SmartBlocks for the following reaction vessels:
A. 24 lab vessels up to 12 mm in diameter
B. 8 × 15 mL conical tubes
C. 4 × 50 mL conical tubes
D. Eppendorf Deepwell Plates 96/500 µL
E. Eppendorf Deepwell Plates 96/1000 µL
F. 24 × cryo tubes
G. 8 × Eppendorf Tubes® 5.0 mL
H. Lid for Eppendorf SmartBlock plates, PCR 96, PCR 384, DWP, 0.5 mL, 1.5 mL and 2.0 mL
I. 384-well PCR plates
J. 96-well PCR plates
K. 24 × 0.5 mL vessels
L. 24 × 1.5 mL vessels
M. 24 × 2.0 mL vessels
N. MTPs and Deepwell Plates
O. 4 × 25 mL adapter for SmartBlock 50 mL

Eppendorf SmartBlock cryo thaw, thermoblock for 24 cryo tubes, 1.5 mL – 2 mL, max. external diameter 12.7 mm, flat base. Replaces order no. 5367000025.	5318 000 001
Eppendorf SmartBlock 0.5 mL, thermoblock for 24 reaction vessels 0.5 mL, incl. Transfer Rack 0.5 mL	5361 000 031
Eppendorf SmartBlock 1.5 mL, thermoblock for 24 reaction vessels 1.5 mL, incl. Transfer Rack 1.5/2.0 mL	5360 000 038
Eppendorf SmartBlock 2.0 mL, thermoblock for 24 reaction vessels 2.0 mL, incl. Transfer Rack 1.5/2.0 mL	5362 000 035
Eppendorf SmartBlock 5 mL, thermoblock for 8 Eppendorf Tubes® 5.0 mL, 8 × 5.0 mL reaction vessels	5309 000 007
Eppendorf SmartBlock 15 mL, thermoblock for 8 conical tubes 15 mL	5366 000 021
Adapter 25 mL for Eppendorf SmartBlock 50 mL, Set consisting of 4 adapters and removal tool	5365 000 109
Eppendorf SmartBlock 50 mL, thermoblock for 4 conical tubes 50 mL	5365 000 028
Eppendorf SmartBlock 12 mm, thermoblock for 24 reaction vessels, diameter up to 12 mm, height 35 mm – 76 mm	5364 000 024
Eppendorf SmartBlock PCR 96, thermoblock for PCR plates 96, incl. lid	5306 000 006
Eppendorf SmartBlock PCR 384, thermoblock for PCR plates 384, incl. lid	5307 000 000
Eppendorf SmartBlock DWP 500, thermoblock for Eppendorf Deepwell Plates 96/500 µL, incl. lid	5316 000 004
Eppendorf SmartBlock DWP 1000, thermoblock for Eppendorf Deepwell Plate 96/1,000 µL, incl. lid	5310 000 002
Eppendorf SmartBlock plates, thermoblock for microplates and Deepwell Plates, incl. lid	5363 000 039
Lid, for Eppendorf ThermoMixer® F0.5/F1.5/F2.0 and FP, for Eppendorf SmartBlock 0.5 – 2.0 mL, plates, PCR 96, PCR 384, and DWP	5363 000 233
Transfer Rack 0.5 mL, for Eppendorf SmartBlock 0.5 mL	3880 000 305
Transfer Rack 1.5/2.0 mL, for Eppendorf SmartBlock 1.5 mL and Eppendorf SmartBlock 2.0 mL	3880 000 151

Tubes and Plates

Protect Your Sample

Eppendorf Tubes®

> Made of high quality, virgin polypropylene (PP), free of biocides, plasticizers and latex
> Produced with optimized, highly polished molds without the use of slip agents like oleamide, erucamide, stearamide
> Produced with dyes free of organic additives and heavy metals (applies for screw caps and Amber variants)
> Designed and manufactured under ISO 13485 and ISO 9001 certified Quality Management System
> Full traceability is provided for each product back to material lot

Disposable plasticware is used routinely in most life science laboratories. To achieve the highest level of reliability and consistency for your experiments, Eppendorf has optimized source materials and processes for the production of Eppendorf Tubes® to minimize the risk of interference. The effects from chemical substances such as slip agents, plasticizers or biocides leaching out of plastic consumables are still frequently underestimated in the majority of life science applications.

However, increasing scientific evidence shows that this heterogeneous group of chemicals may significantly affect experiments and pose a likely source of error in various assay systems. They slow down evaporation, skew absorbance readings and lead to erroneous DNA quantification. Some of these slip agents have also been shown to negatively affect the outcome of biological tests like enzyme activity or receptor-binding assays.

Effective light protection in amber tubes

Numerous types of light-sensitive reagents and samples are often used in the laboratory routine. Once exposed to light, their quality, longevity or activity may rapidly decrease and therefore adversely affect subsequent assays and experiments. To avoid these issues, light-sensitive reagents and samples must be handled and stored in a manner that protects them from direct light exposure. Amber-colored laboratory plastic tubes reduce or completely block light transmission, and thus allow safe storage and handling of light-sensitive samples.

Light protection meets transparency

While providing good sample protection against high-energy light in the short wavelength UV/VIS spectrum, amber tubes often come with a major drawback: They are opaque and therefore do not allow for a clear view of the sample. Designed specifically for eppendorf conical tubes from 5 mL to 50 mL, our amber material has an optimized degree of transparency to allow for full visibility of the sample, offering full control over pipette tip insertion depth and providing a clear advantage in sample handling and contamination prevention.

Quality Starts Here

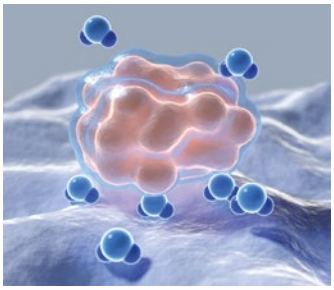

High Quality for your Application Needs
Eppendorf Plates® are produced, handled, stored, and delivered according to our premium quality and purity standards – that is what our customers call the Eppendorf Quality. Our plates are manufactured from carefully selected and purest raw materials that comply with international criteria for maximum purity.

Fully automated production in clean room conditions removes any human interaction and possible contamination. With the particularly strict control criteria, internally and externally monitored, we guarantee the superior consistency of our products and your results.

www.eppendorf.com/appnote404

DNA LoBind® – Recover your nucleic acids
When dealing with low concentrations of nucleic acids, any sample loss could make downstream steps difficult. For example, in workflows including preparation and setup of PCR applications, loss of DNA on vessel surfaces can affect the performance of individual processing steps and can lead to misinterpretation of results. DNA LoBind Tubes and Plates maximize sample recovery of nucleic acids by significantly reducing sample-to-surface binding. They represent the ideal solution for preparing and storing samples containing low amounts of DNA. To minimize the risk of sample loss, the DNA LoBind properties are achieved without surface coating.

Applications
> Preparation or storage of DNA and RNA samples
> Forensic trace analysis
> Preparing dilution series in quantitative qPCR
> Sample preparation in next-generation sequencing
> Creation of genomic or oligonucleotide libraries

Protein LoBind® – Get the most out of your applications
Protein preparation and storage represent critical steps in a wide range of laboratory applications. Unspecific adsorption of up to 90% of protein molecules or peptides to the polymer surface of the inner walls of tubes can significantly contribute to sample loss within 24 hours and artificially affect experimental results. Eppendorf Protein LoBind Tubes and Plates are specifically designed for use in applications where protein concentrations tend to be small and sample recovery is vital for assay results. A special, two-component polymer mix creates a hydrophilic surface that guarantees optimal recovery rates of valuable samples.

Applications
> Preparation or storage of protein, peptide or antibody samples
> Storage of virus stock solutions
> Sample preparation in toxicology
> Storage of cell suspensions
> Enzymatic assays

Eppendorf Purity Grades for Tubes and Plates

Pure Quality at Eppendorf

Please use the QR Code.
www.eppendorf.com/purity

Eppendorf sample handling consumables stand for highest quality and purity
Our tubes and plates are available in a variety of purity grades (see table below). The purity grades “sterile”, “PCR clean”, “Biopur®” and “Forensic DNA Grade” are certified by an ISO 17025 accredited external lab. As a special service, we make the lot-specific certificates available online (www.eppendorf.com/certificates).

Eppendorf Safe-Lock Tubes

Unrivaled for Decades
Eppendorf Safe-Lock Tubes are the result of 50 years of continuous improvement and development. The hinged Eppendorf Safe-Lock lid provides outstanding protection against unintentional opening during incubation and storage. Trust in the original Eppendorf Safe-Lock Tubes, because your samples deserve nothing but the best.

Product features
> Hinged Eppendorf Safe-Lock lid prevents unintentional lid opening during incubation and storage
> g-Safe®: Depending on Safe-Lock Tube variant (see manual) exceptional centrifugation stability up to 30,000 × g prevents sample loss due to tube breakage and provides extra safety when working with hazardous samples
> Manufactured without the use of slip agents, plasticizers, and biocides – substances that have been shown to leach from plastic consumables into the sample and negatively affect bio-assay results

Eppendorf Tubes® 3810X

The Original

The easy-open, easy-close design of the Eppendorf Tubes® 3810X provides convenient, ergonomic, and reliable one-handed operation. Whether sample preparation, centrifugation or storage – the Eppendorf Tubes® 3810X fit perfectly into your workflows!

Product features

> Tube lid is easy to open and close for ergonomic operation
> Polypropylene provides high resistance to chemicals, mechanical stress, and temperature extremes
> g-Safe®: Exceptional centrifugation stability up to 30,000 × g prevents sample loss due to tube breakage and provides extra safety when working with hazardous samples

Eppendorf Tubes® 5.0 mL

The Missing Link!

Eppendorf Tubes 5.0 mL. This product represents the perfect option for working with medium–sized sample volumes. It fills the gap between existing tube formats and enables the simple and safe processing of sample volumes up to 5.0 mL.

Product features

> Ergonomic operation: Snap cap - simple, practical and ergonomic singlehand operation. Screw cap - flattened and grooved sides provide optimal grip and user-friendly handling
> Broad operating temperature range: Screw cap tubes: -86 °C – 100 °C. Snap cap tubes: -86 °C – 80 °C (when using the clip ≤ 100 °C)
> Material: Exceptionally high-quality, transparent polypropylene, free of plasticizers, biocides or mold release agents, for reliable test results

ACT. The Environmental Impact Factor Label

www.eppendorf.com/5mL

Light Protection as well as Transparency
The amber colored Eppendorf Tubes® 5.0 mL with screw cap combine effective protection of your sensitive samples from energy-rich light in the lower wavelength range with a high degree of transparency. You get full control on the insertion depths of pipette tips - often a source of contamination when handling solutions in intransparent tube formats.

Eppendorf Conical Tubes 25 mL

The Next Level – Eppendorf Conical Tubes 25 mL!
This member of the big Eppendorf Tube Family fills the gap between the volumes of traditional conical tubes of 15 mL and 50 mL. Optimized height and outstanding quality make these conical tubes ideally suited for cell biology tasks such as for pooling media from T75 flasks, bacteria culture in midi prep size or overlapping applications like buffer preparation, storage and transport.

Also available in Amber for UV-light sensitive samples and in DNA LoBind and Protein LoBind.

Product features

> Reduced height gives easy sample access even with low-volume pipettes and tips – reduces risk of cross-contamination between pipette and tube
> Single-handed opening and closing through SnapTec® cap version for fast liquid extraction and addition
> Centrifugation stability up to 17,000 x g[1)] for both tube variants - SnapTec® cap and screw cap

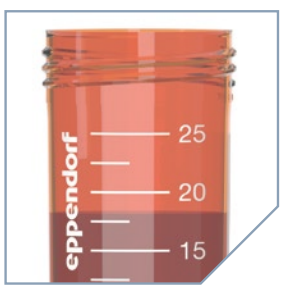

[1)] Please note the Instructions For Use for details (www.eppendorf.com/manuals): "Eppendorf Conical Tubes 25 mL, snap cap" and "Eppendorf Conical Tubes 15, 25 and 50 mL"

Applications

> Cell culture applications, optimal for pooling, e.g. pooling media from 3 x T75 flasks (25 mL)
> Sample preparation in microbiology and molecular biology labs, e.g. bacteria culture in midi prep size, cloning, DNA extraction when working with a relatively high amount of biological starting material (in botany)
> Storage and transport of samples and solutions up to 25 mL
> Preparation of master mixes and buffers

Please use the QR Code to get more Informations

www.eppendorf.com/conicals

Improved sample processing
Greater diameter and lower height than 15 mL conical tubes enable better sample access and faster resuspension of pellets after centrifugation.

Single-handed operation
Supports optimized and faster handling of sample solutions, especially in multi-step protocols.

A Full System of Components

Centrifugation

Centrifuges with rotors for 50 mL conical tubes, e.g. 59xx series and 58xx series: Two adapter variants for snap cap (order no.: 5820 733 004) and screw cap (order no.: 5820 734 000) 25 mL tubes enable usage in 50 mL rotors and buckets.

Heating and Mixing

Eppendorf ThermoMixer® C and Eppendorf ThermoStat C:
Adapter for 25 mL tubes ensures compatibility with Eppendorf SmartBlock 50 mL. (order no.: 5365 000 109)

MixMate:
Tube Holder 25/50 mL, for 4 × 25/50 mL conical tubes. (order no.: 5353 040 156)

Sample Storage

Single Tube Stand:
Ideally suited for weighing samples on the balance and for handling individual samples. The viewing slit enables observation of the filling level at any time.
(order no.: 0030 119 860)

Tube Rack 25 mL:
Eppendorf Racks for 50 mL conical tubes can be used with the new 25 mL tubes.
(order no.: 0030 119 835)

Storage box made of polypropylene:
Lower height allows space-saving storage for up to 9 × 25 mL tubes in 3.5 inches Eppendorf Storage Boxes.
(order no.: 0030 140 729)

Eppendorf Conical Tubes 15 mL and 50 mL

Conical Competence
The Eppendorf Conical Tubes 15 and 50 mL meet the highest demands of diverse laboratory applications. The excellent quality and specifications make them ideally suited for cell biology applications as well as for sample preparation protocols in microbiology and molecular biology laboratories. The new Eppendorf Conical Tubes SnapTec® 50 allow easy one-handed sample handling.

Product features
> Premium USP class 6 raw material and no use of slip agents, plasticizers, and biocides during manufacturing ensure highest sample integrity, high g-Safe® centrifugation stability, and optimal sample and pellet visibility
> Cap with flattened and grooved sides supports a user-friendly ergonomic handling, enables a stable upright positioning, and minimizes contamination risk
> **New!** Eppendorf Conical Tubes SnapTec® 50 for fast opening and closing in routine multistep protocols

Applications
> Convenient and safe cell culture applications
> Sample preparation in microbiology and molecular biology labs
> Storage of samples and solutions with larger volumes
> Preparation of mastermixes and buffers

Whether centrifugation, mixing, or other applications, the Eppendorf Conical Tubes 15 and 50 mL suit your needs.

Light protection as well as transparency - two benefits in one tube.

Eppendorf Conical Tubes SnapTec® 50

Innovative SnapTec® cap protected by two technical patents (see also Eppendorf Conical Tube 25 mL with SnapTec® cap)

The SnapTec® 50 tube is autoclavable (121 °C, 20 min.)

High centrifugation stability up to 17,000 x g

Nominal volume 45 mL

Single-handed operation of SnapTec® cap supports optimized and quicker handling of sample solutions, e.g. in multistep protocols

SnapTec® cap avoids risk of mixing lids when working in multistep protocols

Same diameter as Eppendorf Conical Tube 50 mL with screw cap = direct integration into existing lab equipment

Eppendorf Tubes® BioBased

2nd Generation Feedstock, 1st Class Consumables
Minimal carbon footprint! No compromise on quality! The Eppendorf Tubes® BioBased meet the highest demands of diverse laboratory applications and convince by their sustainability which is achieved by producing these tubes from renewable feedstock of the second generation. General Quality Certificates on compliance with standards and general Eppendorf quality requirements, product-specific and lot-specific purity certificates as well as ACT Certificates attest the well-known premium product quality customers can expect from Eppendorf Tubes. The sustainablity factor of Eppendorf Tubes® BioBased will clearly be visible with continuous use in your laboratory carbon footprint. Eppendorf Tubes® BioBased are available with screw caps in volumes from 5.0 mL to 50 mL.

Product features
> Premium biobased polypropylene - produced from recycled feedstock in second generation - in this case derived solely from waste and residue streams e.g. from vegetable oil production and used cooking oil
> ISCC PLUS (International Sustainability & Carbon Certification) to enable traceability along the entire supply chain
> ACT (Accountability, Consistency, and Transparency) Certification - the independent validation provided by My Green Lab®
> Lot-specific purity certificates from an independent laboratory can be downloaded from Eppendorf website
> General Quality Certificates on compliance with standards and general Eppendorf quality requirements
> Premium USP class 6 raw material and no use of slip agents, plasticizers, and biocides during manufacturing ensure highest sample integrity

Applications
> Convenient and safe cell culture applications
> Sample preparation in microbiology and molecular biology labs
> Storage of samples and solutions with larger volumes
> Preparation of mastermixes and buffers

"2nd Generation Feedstock, 1st Class Consumables"
www.eppendorf.com/BioBased_brochure

About Bio-based Polymer Used for Eppendorf Tubes® BioBased

To increase the sustainable properties of plastic used for the production of lab consumables, we must make and use plastics more sustainably using recycled and renewable feedstocks.

> In this specific bio-based polymer production, fossil raw material is saved by replacing it with sustainable raw material produced from bio-based waste and residues (2nd generation renewable feedstock)
> The raw materials used to produce the renewable feedstock can be backtraced to the first collection points and the origin of the renewable raw materials from carefully selected suppliers committed to sustainability is assured
> The final polymers are sustainability certified by “ISCC PLUS” - the reliable global leading certification scheme for manufacturers producing bio-based polymers and their further processing

How to Identify Eppendorf Tubes® BioBased

Packaging

> Tubes are packed in resealable bags
> For better identification on explanatory additional label is placed under the product label

These tubes[1)] are made with 90 % biobased plastic. The plastic can be traced back to biological waste material which is attributed to these tubes via the ISCC mass balance approach.

By choosing these tubes, our customers help to significantly reduce the amount of fossil resources required for their production.

[1)] The screw caps are actual fossil-based material. The material switch will be made to BioBased in 2023.

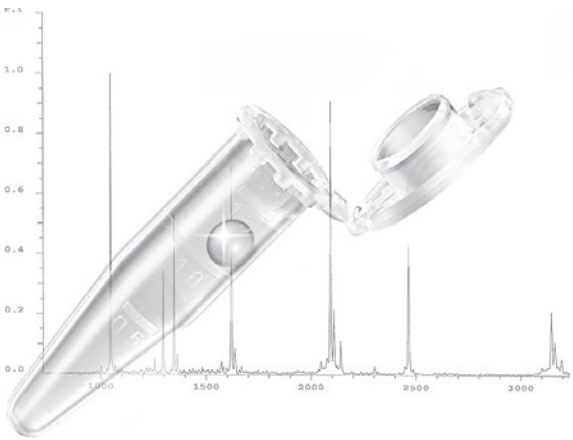

Ordering information

Description	Order no.
Eppendorf Tubes® BioBased	
15 mL, screw cap, sterile, pyrogen-, DNase-, RNase-, human and bacterial DNA-free, colorless, 500 tubes (10 bags × 50 tubes)	0030 122 526
25 mL, screw cap, sterile, pyrogen-, DNase-, RNase-, human and bacterial DNA-free, colorless, 200 tubes (8 bags × 25 tubes)	0030 122 534
50 mL, screw cap, sterile, pyrogen-, DNase-, RNase-, human and bacterial DNA-free, colorless, 500 tubes (20 bags × 25 tubes)	0030 122 542
5.0 mL, screw cap, sterile, pyrogen-, DNase-, RNase-, human and bacterial DNA-free, colorless, 200 tubes (2 bags × 100 tubes)	0030 122 518

Protein LoBind® Tubes

Optimal Sample Recovery!
Eppendorf Protein LoBind Tubes are specifically designed for use in proteomics or other fields of protein research, where protein concentration tends to be very small and sample recovery is vital for assay results. Significantly more protein can be recovered for downstream analyses, and enzymes remain active.

Product features
> Eppendorf LoBind material ensures optimized sample recovery for improved assay results
> Free of surface coating (e.g., silicone) to minimize the risk of sample interference
> Lot-certified PCR clean purity grade: free of human DNA, DNase, RNase and PCR inhibitors

Eppendorf Microplates

Get More!
Experience a new dimension of transparency - the Eppendorf Microplates! It has never been this easy and reliable to pipette, control and recover samples with a polypropylene microplate. We offer a wide variety of plates which are highly robust making it easy to find the optimal solution for your application needs. Also available as barcoded versions.

Product features
> g-Safe®: exceptional centrifugation stability up to 6,000 × g
> OptiTrack® Matrix: up to 30 % faster sample identification and fewer pipetting errors via high-contrast alphanumeric labeling
> RecoverMax® well design: Optimized well geometry for minimal remaining volume and excellent mixing properties

Eppendorf Assay/Reader Microplates

Unique Clarity!
Elevate the sensitivity of your assays with the Eppendorf Assay/Reader Plates to a higher level! The plates offer an excellent signal–to–noise ratio, resulting in an extremely low detection limit. Whether fluorescence or chemiluminescence - select the optimal plate for your assay! Solid plates are suitables for top-reading plates readers. Clear plates and black/clear plates can be used with top- and bottom-reading plates readers.

Product features
> Black Eppendorf Microplates offer an excellent signal-to-noise ratio – for clear signals even with low-concentration samples
> White Eppendorf Microplates are optimized for highest sensitivity in the detection of luminescence signals by maximizing reflection
> Solid black and white assay plates are made of polypropylene resulting in high resistance to chemicals, mechanical stress, and temperature extremes

Eppendorf Deepwell Plates

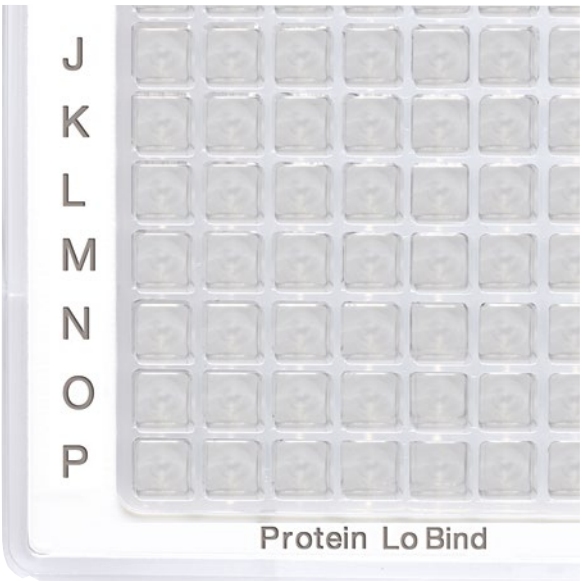

Precision and Accuracy!
Eppendorf Deepwell Plates 96 and 384 are high performance plates fulfilling highest requirements of all manual and automated applications. They combine innovative features, like the OptiTrack® matrix, with thoroughgoing quality for which Eppendorf consumables are globally known as a premium standard. Also available as barcoded versions.

Product features
> OptiTrack® matrix: up to 30 % faster sample identification and fewer pipetting errors via high-contrast alphanumeric labeling
> RecoverMax® well design: Optimized well geometry for maximum sample recovery and excellent mixing properties
> g-Safe®: exceptional centrifugation stability up to 6,000 × g for faster protocols and improved sample quality

Eppendorf µCuvette® G1.0

One droplet is the limit?
The µCuvette G1.0 is in your range: Only 1.5 µL of a sample is needed. The optical path length of only 1 mm enables a light path that is 10x shorter than the light path on standard cuvettes: Measure high nucleic acid and protein concentrations.

Product features
> Microvolume measuring cell for measuring 1.5 – 10 µL sample volumes
> Concentration determination of nucleic acids and proteins, amongst other target analytes
> Measurement of highly concentrated samples without prior dilution

Ordering information

Description	Order no.
Eppendorf µCuvette® G1.0, Microvolume measuring cell for Eppendorf BioPhotometer® and BioSpectrometer®	6138 000 018

Eppendorf UVette®

Working with very low amount of samples?
The UVette is a disposable UV/Vis cuvette with a light transmission of 220 nm to 1,600 nm for spectrophotometer and photometers. As an example of Eppendorf's expertise in the production of high quality consumables, the UVette offers superb purity, convenience and precision for photometric analysis. The unique shape of the UVette combines two optical light path lengths to offer greater flexibility.

Product features
> Suitable for measuring small volumes (≥50 µL)
> UV and Vis measurements from 220 nm to 1,600 nm
> UV transparent plastic, free of fluoropolymers and other halogenated hydrocarbons

Ordering information

Description	Order no.
UVette® 220 nm – 1,600 nm, original Eppendorf plastic cuvette, individually packed, (including RNase-free, DNase-free) and protein-free, PCR clean, 50 – 2,000 µL, 80 pcs.	0030 106 300
UVette® starter set, 80 UVettes and 1 universal adapter for light path height 15 mm, convertible to 8.5 mm, 50 – 2,000 µL	4099 100 007
UVette® routine pack 220 nm – 1,600 nm, reclosable box, Eppendorf Quality, 50 – 2,000 µL, 200 pcs.	0030 106 318
Adapter for UVette®, for photometer/spectrophotometer with light path height

Eppendorf Cuvette Rack, 30 positions, for glass and plastic cuvettes, polypropylene, numbered positions, autoclavable, 2 pcs.	0030 119 851

Eppendorf Vis Cuvettes

Optimal Clarity!
The Eppendorf Vis Cuvettes are disposable cuvettes made of clear plastic with a light transmission of 300 nm to 900 nm. These cuvettes are perfect for applications outside of the UV range, such as colorimetric protein assays (Bradford, Lowry, etc.), determining of the optical density of bacterial cultures (OD600 methods), and kinetic and fluorescence measurements.

Product features
> Two different cuvette sizes (semi-micro and macro) for a wide variety of volumes and applications
> Disposable cuvettes made of clear plastic with a light transmission of 300 nm to 900 nm

Centrifuges and Rotors

We introduced our very first centrifuge in 1964 as an integral part of the Eppendorf Microliter System, and revolutionized life science research practices worldwide. To this day, the Eppendorf name remains synonymous with creative design, innovative technology and reliable performance that stand the test of time.
The Eppendorf approach to product development is about listening to our customers' needs, understanding daily laboratory routines and anticipating future trends. The result is a comprehensive line of centrifuges that fulfill the demands for a wide range of applications.
Our goal is to provide you with a product solution that not only leaves you thoroughly satisfied but that is also comfortable and easy to use. That is why Eppendorf centrifuges are designed to go beyond speed and capacity to offer you unparalleled ergonomic operation and superior temperature management. With this sound foundation and our extensive experience, Eppendorf is proud to serve you as your expert partner in centrifugation.

Our Centrifuge Portfolio – Your Centrifuge Solution
From your personal 12-place microcentrifuge to compact and super-versatile benchtop centrifuges to high-speed floorstanding and ultracentrifuges, our united portfolio offers comprehensive solutions for all your separation applications in the areas of molecular biology, biochemistry, cell biology and material science.

Microcentrifuges

General purpose centrifuges

Multipurpose centrifuges

Whether you wish to spin just a few tubes at a time or you require extra versatility for volumes up to four liters or high-throughput of tubes and plates, the Eppendorf benchtop centrifuge portfolio offers solutions for your daily separation tasks.

Looking to process more than four liters per run? Do you need increased speeds up to 110,000 x g? In either case, you will find our high-speed floorstanding centrifuges are your best choice. For super-speed applications requiring up to 1,050,000 x g, our range of innovative and user-friendly ultracentrifuges provide the perfect solution.

High-speed centrifuges

Ultracentrifuges

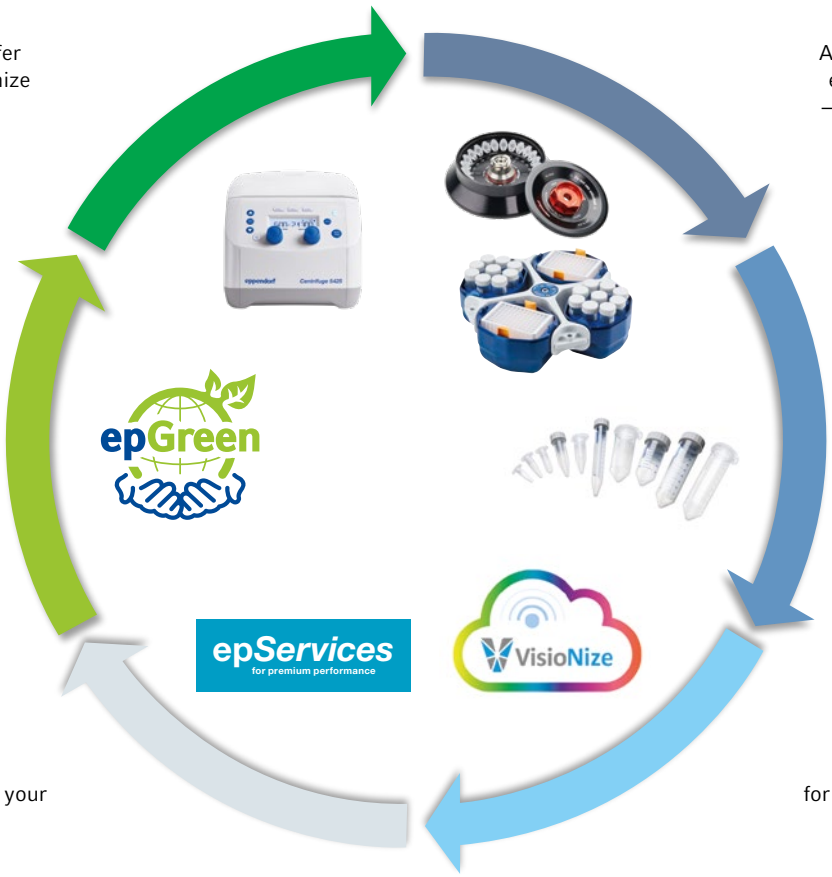

Your challenges are multidimensional – so are our offerings

In your daily research work, you will encounter a variety of challenges. That's why we continuously work to understand your unique issues and provide you with tailored solutions to suit your needs, so you can spend more time focusing on your research. Our solutions go beyond the centrifuge itself to provide everything you need to ensure the best performance and best results every day.

CENTRIFUGES
Our high-quality devices offer innovative features to optimize your experience and your results.

ROTORS & ADAPTERS
A great variety of accessories ensure application flexibility – for your separation tasks of today and tomorrow.

SUSTAINABILTY
Sustainable production, energy-saving operation and an innovative cooling system are just some of the ways Eppendorf supports the environment.

CONSUMABLES
Protect your valuable samples by using only the best consumables tailored to your needs in format, size and purity grades.

SERVICE
Enjoy peace-of-mind and maximize your uptime with your choice of epServices.

DIGITAL PRODUCTS
Get everything you need for a connected and paper-free lab of the future.

With Eppendorf at your side, you can be sure to have the best equipment as well as the best team to support you. From our trusted sales representatives to our dedicated applications and technical support teams to our highly skilled service technicians – you will always find a helping hand when you need it.

MiniSpin®/MiniSpin® plus

Description
MiniSpin® and MiniSpin® plus are entry-level mini centrifuges that are powerful, easy-to-use and small enough to allow individual workstations to be equipped with a portable centrifuge.

Product features
> Rotor capacity: 12 × 1.5/2.0 mL vessels, 2 × 8-tube PCR strips
> Max. speed: 14,100 × g (14,500 rpm)
> Extremely compact footprint

Special features for MiniSpin plus
> Automatic rpm/rcf conversion
> Extended time to 99 min or continuous centrifugation

www.eppendorf.com/minispin

Centrifuge 5418 R

Description
Centrifuge 5418 R is an 18-place microcentrifuge that is specifically designed for low to medium capacity in 1.5/2.0 mL tubes and Microtainer®. The speed of up to 16,873 × g allows for standard molecular biology applications.

Product features
> Max. rotor capacity: 18 × 1.5/2.0 mL vessels
> Max. speed: 16,873 × g (14,000 rpm)
> Small footprint and low access height of 23 cm

Adapter for BD Microtainer® and 0.5 mL tubes
> The adapter can be used with every Eppendorf rotor for 1.5/2.0 mL tubes

www.eppendorf.com/centrifuge5418R

Rotor FA-45-18-11
> for 18 × 1.5/2.0 mL tubes, comes standard with unique Eppendorf QuickLock® aerosol-tight lid for fast and reliable locking

Adapter for 0.2 mL PCR Tubes
> Ideal to spin down PCR Tubes after reaction setup. Adapter fits in any Eppendorf 1.5/2.0 mL rotor

Centrifuge 5420

Description
Centrifuge 5420 supports your nucleic acid purification and gel-extraction workflows. This centrifuge offers 24–place capacity in an aerosol-tight rotor and speeds up to 21,300 × g in a small footprint.

Product features
> Standard rotor for up to 24 x 1.5 and 2.0 mL tubes
> Rotor option for up to 32 x 0.2 mL PCR tubes or 4 x 8-place PCR strips
> Adapters for 0.2, 0.4 and 0.5 mL tubes as well as 0.6 mL BD Microtainer®

www.eppendorf.com/centrifuge5420

Rotor FA-24x2
> Max. speed: 21,300 × g (15,060 rpm)
> Max. capacity: 24 × 1.5/2.0 mL tubes
> Aerosol-tight

Rotor F-32x0.2-PCR
> Max. speed: 18,257 × g (15,060 rpm)
> Max capacity: 4 × PCR strips or 32 × PCR tubes (0.2 mL)

Centrifuge 5425/5425 R

www.eppendorf.com/
centrifuge5425/5425R

Description
Eppendorf microcentrifuges 5425 and 5425 R are true laboratory standards. These whisper quiet 24-place microcentrifuges offer an outstanding set of features for a broad range of molecular and cell biology applications in Eppendorf and PCR tubes from 0.2 to 5 mL. The refrigerated Centrifuge 5425 R provides precise temperature control for processing temperature-sensitive samples with its advanced cooling system.

Product features
> Aerosol-tight Eppendorf QuickLock® lids for simple and safe handling
> Outstanding software features (e.g. adjustable acceleration and braking ramps, 3 program buttons (only Centrifuge 5425), short function without continuous pressing of the key)
> Extended rotor program (e.g. 5.0 mL rotor, swing-bucket rotor for PCR strips)

Main Features

Enhanced convenience
> One push short-spin key – no need to hold key all the while

Improved ergonomics
> Eppendorf QuickLock® rotors for ergonomic lid locking
> Closes with only a 1/4 turn and takes repetitive stress of your wrist

Increased versatility
> Swing-bucket rotor for divisible plates to speed up your PCR/qPCR setup
> 10-place 5.0 mL rotor for screw cap and snap lid tubes

Centrifuge 5427 R

New

Description
Eppendorf Centrifuge 5427 R is a high-speed, refrigerated microcentrifuge for high-throughput research. It doubles your tube capacity compared to a standard 24-place microcentrifuge thanks to its 48-place double-row rotor, while contributing to a more sustainable lab environment with its natural refrigerant.

Product features
> Cooled with natural refrigerant (R290) to protect your samples - and the planet
> Rotor capacity: 48 × 1.5/2.0 mL, 12 × 5.0 mL; Eppendorf QuickLock® rotor allows for fast and ergonomic lid locking
> Max. speed: 25,001 × g (16,220 rpm)

Centrifuge 5430/5430 R

Description
Combine the best of both worlds with Centrifuge 5430 and 5430 R. These high-speed centrifuges have the small footprint of a microcentrifuge and the versatility of a multipurpose centrifuge.

Product features
> Max. rotor capacity: 48 × 1.5/2.0 mL, 6 × 50 mL, 2 × MTP
> Max. speed: 30,130 × g (17,500 rpm)
> Remarkable versatility with 12 different rotors

Centrifugation radius	134 mm	132 mm	132 mm	132 mm	132 mm	136 mm
Max. RCF	2,900 × g	2,850 × g	2,850 × g	2,850 × g	2,850 × g	2,943 × g
Packing	2 pcs.	2 pcs.	2 pcs.	2 pcs.	2 pcs.	2 pcs.
Order no.	5702 745 006	5702 736 007	5702 737 003	5702 719 005	5702 735 000	5702 733 008

[1)] Exceeding the maximum tube length may reduce the loading capacity of the rotor. Please perform a manual swing-out test before starting the centrifuge run to make sure the tubes do not hit the rotor yoke.
[2)] Please order adapter for 25 mL conical tubes screw cap 5820 734 000.[3)] Please order adapter for 25 mL conical tubes snap cap 5820 733 004.

Description

Are you looking to improve your work environment? The 5702 family of low-speed centrifuges are quiet in operation, compact in design and provide six different rotor options to accommodate any type of tube and requirement for low to mid-throughput applications in immunology research and cell culture.

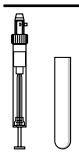

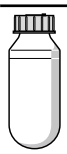

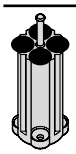

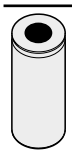

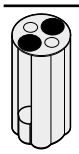

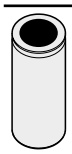

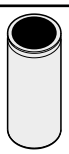

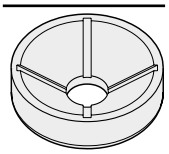

Rotor A-4-38 with round buckets

> Maximum speed: 3,000 × g (4,400 rpm)
> Standard rotor for centrifugation of blood collection tubes or 15/50 mL conical tubes
> Round buckets for vessels with 1.5 – 100 mL

Ordering information

Description	Order no.
Rotor A-4-38 with round buckets, 8 positions, max. Ø 38 mm, incl. 4 round buckets 100 mL	5702 720 003
16 x 125 mm bucket, for 16 x 125 mm round bottom tubes, non aerosol-tight, for rotor A-4-38, 4 pcs.	5702 764 000
Rotor A-4-38, 8 positions, max. Ø 38 mm, without buckets	5702 740 004
Round bucket 100 mL, for Rotor A-4-38, 4 pcs.	5702 722 006
Caps for 100 mL round buckets, aerosol-tight, 2 pcs.	5702 721 000

Order no.	5702 763 004	5702 710 008	5702 711 004	5702 712 000	5702 716 006	5702 713 007

Ordering information

Description	Order no.
Rotor A-4-38, 8 positions, max. Ø 38 mm, without buckets	5702 740 004
Rectangular bucket 90 mL, for Rotor A-4-38, 4 pcs.	5702 709 000

Rotor A-8-17
> Maximum speed: 2,800 × g (4,400 rpm)
> Low capacity rotor for centrifugation of 15 mL conical tubes or 15 mL glass tubes[1)]
> Adapters for 15 mL conical tubes and rubber mat inserts for glass tubes optionally available

[1)] Max. vessel height: 120 mm

Rotor F-35-30-17
> Maximum speed: 2,750 × g (4,400 rpm)
> High capacity rotor for 20 × 15 mL conical tubes or 30 × 15 mL glass tubes
> Inserts for 15 mL conical tubes and rubber mats for use with glass tubes are included

Rotor F-45-24-11
> Maximum speed: 1,770 × g (4,400 rpm)
> Fixed-angle rotor for 24 × 1.5/2.0 mL tubes
> Quiet centrifugation even without rotor lid
> Adapters optionally available for:
  - 0.2 mL PCR tubes (5425 715 005)
  - 0.4 mL centrifuge tubes (5425 717 008)
  - 0.5 mL micro test tubes and BD Microtainer® tubes (5425 716 001)
> Rotor and adapters are autoclavable (121 °C, 20 min)

Rotor F-45-18-17-Cryo
> Maximum speed: 1,970 × g (4,400 rpm)
> Quiet centrifugation even without rotor lid
> Centrifugation of 1 – 2 mL cryo container (max. 13 mm Ø, use with adapter) and tubes with screw cap (max. 17 mm Ø, no adapter required)
> Rotor and adapters are autoclavable (121 °C, 20 min)

Ordering information

Description	Order no.
Rotor A-8-17, 8 × 15 mL, without adapter, without rubber mats	5702 700 002
Rotor F-35-30-17, incl. 30 steel sleeves for 15 mL vessels, with 20 adapters for conical tubes and 30 rubber mats	5702 704 008
Rotor F-35-30-17, incl. 10 steel sleeves for 15 mL vessels, with 10 adapters for conical tubes and 10 rubber mats	5702 705 004
Rotor F-45-24-11, 45° angle, 24 places, max. Ø 11 mm, without lid	5702 746 002
Rotor F-45-18-17-Cryo, without rotor lid, without adapters	5702 747 009
Adapter, for 1 PCR tube (0.2 mL, max. Ø 6 mm), for all 1.5/2.0 mL rotors, 6 pcs.	5425 715 005
Adapter, for 1 sample tube (0.5 mL, max. Ø 8 mm) or 1 Microtainer® (0.6 mL, max. Ø 8 mm), for all 1.5/2.0 mL rotors, 6 pcs.	5425 716 001
Adapter, for 1 cryo tubes (max. Ø 13 mm) or sealable centrifugation tubes (Ø 12.2 mm), max. length 50 mm, for Rotor F-45-18-17-Cryo, 6 pcs.	5702 752 002
Adapter, for 1 micro test tube (0.4 mL, max. Ø 6 mm), for all 1.5/2.0 mL rotors, 6 pcs.	5425 717 008
Adapter, for 1 HPLC vessel 1.5 mL, for Rotor F-45-18-17-Cryo, 18 pcs.	5427 708 006

Centrifuge 5804/5804 R and 5810/5810 R

Centrifuge Packages 58xx Family

www.eppendorf.com/centrifuge5810

Description
Whether you need a refrigerated or non-refrigerated centrifuge for low or medium throughput applications, one of these packages will definitely suit your requirements.

Cell Culture Centrifuge packages include
> Centrifuge 5804/5804 R or 5810/5810 R
> Swing-bucket rotor incl. buckets
> Four adapters for 15 mL conical tubes (two sets of 2)
> Four adapters for 50 mL conical tubes (two sets of 2)

Centrifuge packages for round-bottom tubes include
> Centrifuge 5810/5810 R
> Swing-bucket rotor S-4-104 incl. buckets
> Four adapters for 13 mm (5/7 mL) round bottom tubes (two sets of 2)
> Four adapters for 16 mm (10 mL) round bottom tubes (two sets of 2)

Eppendorf Conical Tubes 15 mL, 25 mL and 50 mL
The Eppendorf Conical Tubes are the optimal solution for sample preparation protocols in microbiology and molecular biology laboratories. Safe design and easy handling ensure best sample processing.

Premium USP class 6 raw material ensures
> Highest sample integrity
> High g-Safe® centrifugation stability
> Optimal sample and pellet visibility

For more information go to chapter “tubes and plates” on page 106.

Rotor T-60-11, incl. rotor lid, for 1.5/2.0 mL tubes, without adapter	5804 730 003
Adapter, for 10 reaction vessels 1.5/2.0 mL, for Rotor T-60-11, 6 pcs.	5804 731 000
Adapter, for 20 reaction vessels 0.4 mL, for Rotor T-60-11, 6 pcs.	5804 732 006
Rotor F-45-48-PCR, for 6 × 8, 6 × 5 PCR tube strips, 48 × 0.2 mL individual PCR tubes	5804 735 005

Rotor A-2-DWP
> For use in Centrifuge 5804/5804 R and 5810/5810 R
> Max. speed: 2,250 × g (3,700 rpm)
> Rotor can handle up to
- 2 × 4 MTP
- 2 × 4 Cell culture plates
- 2 × 2 DWP
- 2 × 1 Filtration plate kits

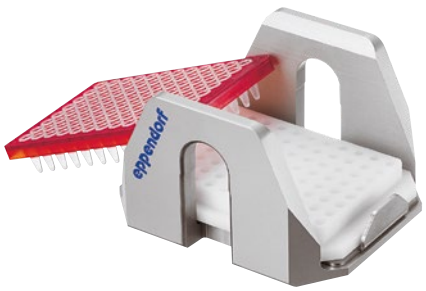

Rotor A-2-DWP-AT
> For use in Centrifuge 5810/5810 R only[1)]
> Max. speed: 3,486 × g (4,500 rpm)
> Rotor can handle up to
- 2 × 4 MTP
- 2 × 1 DWP
- 2 × 1 Filtration plate kits
- 2 × 2 Cell culture plates

[1)] Please note that a software upgrade may be necessary for older centrifuges when using Rotor A-2-DWP-AT. Please contact your local Eppendorf organization or dealer for further information.

Ordering information

Description	Order no.
Rotor A-2-DWP, for Deepwell plates, incl. 2 buckets	5804 740 009
Rotor A-2-DWP-AT, incl. 2 buckets, 2 aerosol-tight caps and 2 plate carriers	5820 710 004

PCR plate adapter
> Adapter is designed to support thin-walled PCR plate wells during centrifugation
> Available for 96-well and 384-well PCR plates
> Can be used in all Eppendorf plate rotors

Cell culture flask adapter
> Adapter to spin down cell cultures directly in a cell culture flask
> Suitable for 25 cm^2 and selective 75 cm^2 flasks (please ask for details)
> Can be used in Eppendorf plate rotor A-4-81-MTP/Flex

IsoRack adapter
> IsoRack adapters to support 0.5 mL and 1.5/2.0 mL IsoRacks during centrifugation
> Can be used in Eppendorf plate rotors A-2-DWP and A-4-81-MTP/Flex

Ordering information

Description	Order no.
Adapter, for 1 cell culture flask, for Rotors A-4-81-MTP/Flex	5825 719 000
Adapter, for 1 PCR plate (96 wells), for 96-well PCR plates, used in A-4-81-MTP/Flex, A-4-62-MTP, A-2-DWP-AT and A-2-DWP, 2 pcs.	5825 711 009
Adapter, for 1 PCR plate (384 wells), for 384-well PCR plates, used in A-4-81-MTP/Flex, A-4-62-MTP, A-2-DWP-AT and A-2-DWP, 2 pcs.	5825 713 001
IsoRack adapter, for 24 vessels in the IsoRack 0.5 mL, for Rotor A-4-81 (MTP), for 24 × 0.5 mL tubes in the IsoRack, 2 pcs.	5825 708 008
IsoRack adapter, for 24 vessels in the IsoRack 1.5/2.0 mL, for Rotor A-4-81 (MTP), for Rotor A-2-DWP-AT, for 24 × 1.5/2.0 mL tubes in the IsoRack, 2 pcs.	5825 709 004
CombiSlide Adapter, for 12 slides Combi Slide, for Rotors A-2-MTP and A-4-81 (MTP), 2 pcs.	5825 706 005

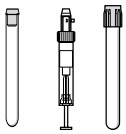

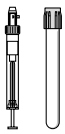

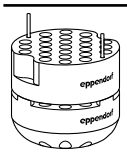

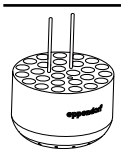

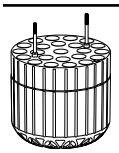

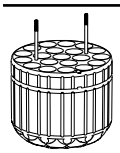

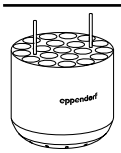

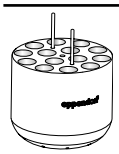

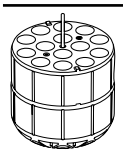

Rotors for Centrifuge 5810 and 5810 R

Rotor S-4-104

> Medium capacity swing-bucket rotor with max. speed 3,214 × g (3,900 rpm)[1)]
> Broad range of adapters enables high versatility for tubes and bottles from 0.2 mL to 750 mL and plates
> Aerodynamic round bucket design for up to 36 % energy savings compared to Rotor A-4-81

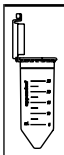

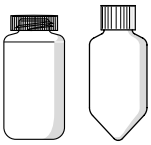

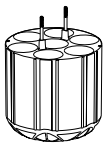

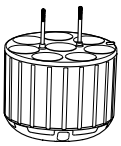

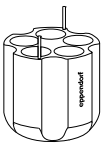

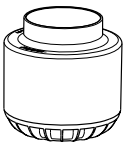

[1)] Please note that a software upgrade may be necessary for older centrifuges when using this rotor. Please contact your local Eppendorf organization or dealer for further information.

Eppendorf Conical Tubes

Whether you use them for centrifugation, mixing, or other applications – the Eppendorf Conical Tubes 15 mL, 25 mL and 50 mL will perfectly fit into your workflows. They represent the next step in Eppendorf's comprehensive system solutions in liquid, sample and cell handling.

Centrifuge 5910 Ri

Description
The refrigerated Centrifuge 5910 Ri combines high capacity and performance in a compact and ergonomic footprint. It comes with an intuitive touchscreen user interface and an advanced temperature management system.

Product features
> Large 7-inch VisioNize® touch interface for super-fast parameter settings via unique favorites function
> User management with multiple authorization levels and documentation features supporting GLP/GxP requirements
> Swing-bucket rotors and adapters for tubes and bottles from 0.2 mL to 1,000 mL as well as all types of MTP, PCR or Deepwell Plates

Centrifuge 5920 R

Description
Centrifuge 5920 R is a large benchtop refrigerated centrifuge with exceptional performance and high capacity, making it a superior choice for high-throughput applications.

Product features
> Swing-bucket rotors and adapters accommodate tubes and bottles from 0.2 mL to 1,000 mL
> Plate rotor options for centrifugation of all types of MTP, PCR or Deepwell Plates
> Fixed-angle rotors for high-speed molecular biology applications in tubes from 0.2 mL to 50 mL

[1] Please perform a manual test to determine the actual loading capacity.[2] Aerosol-tight caps compatible with MTP, DWP 96 500 µl, DWP 384 200 µl. Aerosol-tight caps not compatible with DWP 96 1,000 µl and 2,000 µl.[3] Please order adapter for 25 mL conical tubes snap cap 5820 733 004.[4] When used with aerosol-tight caps the max. capacity is reduced to 20 x 50 mL (5 x 50 mL per adapter).[5] Please order adapter for 25 mL conical tubes screw cap 5820 734 000.[6] Please note that these conical bottles need to be used together with a conical form insert provided by the manufacturer.

Universal Adapters for Rotor S-4xUniversal

Rotor S-4xUniversal brings outstanding versatility to those customers who need to spin a variety of vessels and plates.
Three innovative universal adapters accommodate a selection of tubes, plates and bottles:
> Adapter 1: 5.0 mL and 15 mL conical tubes, MTP/DWP
> Adapter 2: 25 mL and 50 mL conical tubes, MTP
> Adapter 3: 25 mL and 50 mL conical tubes, 250 mL bottles, MTP

For customers who need either stacking capability, higher speed or aerosol-tight centrifugation of certain plate formats, a separate plate carrier is available.

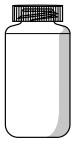

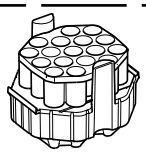

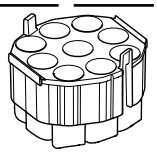

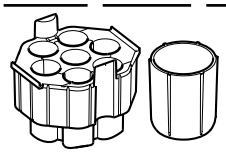

Universal adapter 1
Setup for deepwell plates and Eppendorf Tubes® 5.0/15 mL.

Universal adapter 2
Setup for microplates and 25/50 mL conical tubes.

Universal adapter 3
Setup for 25/50 mL conical tubes, 250 mL bottles and microplates.

Advanced Rotor Design

Cross section of Rotor FA-6x50 (6 × 50 mL conical) showing the light-weight design. All metal not needed for safety or performance is hollowed out to reduce weight and improve handling.

Low rotor weight
Eppendorf's fixed-angle rotors are among the lightest in the industry to improve handling and operational safety. Light-weight rotors cause less wear and tear on the motor and allow for faster acceleration and braking times.

Eppendorf QuickLock® lids for ergonomic lid locking
Our aerosol-tight QuickLock rotors close with only ¼ of a turn. This not only saves you time during every day use, it also takes repetitive stress off your wrist.

Superior temperature control
Aluminum, with its high heat conductivity, allows fast pre-cooling and accurate temperature control in refrigerated centrifuges.

Perfect fit with Eppendorf Conical Tubes 15 mL and 50 mL
The Eppendorf Conical Tubes are characterized by an outstanding centrifugation stability of up to 19,500 × g [1]. This makes them suited for a broad range of applications.

[1] Test conditions: Rotor FA-45-6-30 in Eppendorf Centrifuge 5810 R (using a suitable centrifuge adapter for 15 mL tube), sample: Saline solution (density: 1.0 g/mL), controlled centrifugation temp.: 25 °C, centrifugation time: 90 min (SnapTec® tube: 17,000 x g max.)

Rotors for Centrifuge 5910 Ri/5920 R

Rotor FA-6x250

> Fixed-angle rotor for up to 6 x 250 mL bottles[1)]
> Ideal for the pelleting of microorganisms and mammalian cells
> 12 different adapters for broad range of additional applications

[1)] To run this rotor, a software update is required for earlier centrifuges (5910 R & 5920 R). Please contact your local Eppendorf organization or dealer for further information.

Mobile Tables

Description
Is space a limited resource in your lab or are you looking for an ergonomic location for your Eppendorf tabletop centrifuge? The new Eppendorf Mobile Tables save precious benchtop space and provide the freedom and flexibility to use your Centrifuge 5804/5804 R, 5810/5810 R, 5910 Ri or 5920 R wherever you need it.

Product features
> Designed for Centrifuge 5804/5804 R, 5810/5810 R, 5910 R/5910 Ri, 5920 R
> Save precious benchtop space
> Sturdy design for safe centrifugation

Ordering information

Description	Order no.
Mobile table for under bench storage (low design), fits under standard 90 cm lab bench with centrifuge lid closed	
for Centrifuge 5804/5804 R, 5810/5810 R, 5910 R, 5910 Ri and 5920 R	5921 000 010
Mobile table for ergonomic loading and unloading (high design), fits in any empty floor space	
for Centrifuge 5804/5804 R, 5810/5810 R, 5910 R, 5910 Ri and 5920 R	5921 000 012

Concentrator plus

Description
With its advanced heating technology, the Eppendorf Concentrator plus facilitates fast and efficient, gentle vacuum concentration of DNA, RNA, nucleotides, proteins and other liquid or wet samples. Its new coated lid provides superior chemical resistance against many acids and organic solvents.

Product features
> Comes in 3 system configurations
> Extremely quiet operation <50 dB(A)
> Chemical-resistant, maintenance-free PTFE diaphragm pump eliminates the need for changing pump oil

Rotors for Concentrator plus

Rotor F-45-48-11
> Rotor for 48 × 1.5/2.0 mL microcentrifuge tubes
> A spacer enables additional stacking (double capacity)

Rotor F-35-6-30
> Rotor for 6 × 50 mL conical tubes
> Rotor for 6 × 15 mL conical tubes
> Also accommodates for 6 × 25 mL conical tubes

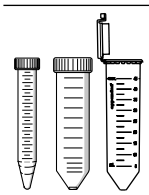

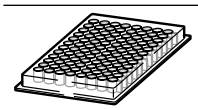

Rotor A-2-VC
> For use with MTP, PCR and Deepwell Plates up to 27 mm high
> A work tray with frame is available for PCR test plates and microplates without frames
> Rotor can be autoclaved for 20 min. at 121°C

Rotor F-45-22-17
> Max. load: 22 x 5.0 mL
> Tube Options: Snap caps and screw caps
> Tube diameter: 17 mm

	Rotor F-35-6-30	17 × 116 – 123 mm or 30 × 116 – 123 mm [2]	6 × 15 mL conical tubes or 6 × 50 mL conical tubes	5490 047 001
	Rotor A-2-VC	128 × 86 × 27 mm	2 × MTP or skirted PCR plates 2 × Deepwell plates (DWP) (max. height = 27 mm)	5490 045 009

[1] Rotor is stackable for double capacity using spacer 5301 316.005. [2] Min./max. tube length. [3] Tube length = 75 mm: max capacity 24 tubes, tube length > 75 mm: max capacity 12 tubes.

High-speed Centrifuge CR22N

Whether your work requires harvesting of biomass in volumes of up to 6 L per run, pelleting of cells, subcellular organelles or larger viruses, or extraction, precipitation, concentration and purification of nucleic acids in up to 50 mL tubes, the Centrifuge CR22N is the optimal solution to support your everyday centrifugation tasks.

> Speeds of up to 58,700 x g (fixed-angle) or 11,500 x g (swing-bucket) support applications in genomics, cell biology and proteomics
> Unique 1.5 L triangular bottle for easy and time efficient harvesting of cells, yeast and bacterial cultures (up to 15,100 x g)
> Large touchscreen interface for fast and easy operation
> User management and documentation function supports labs working in a GLP/GxP environment
> Self-locking rotor system for increased safety and convenience

Unique 1.5 L Triangular Bottle – Spinning Made Easy

Gain great flexibility and save precious time with our innovative triangular bottles:

> No minimum filling level. Spin samples between 0 – 1.5 L without worrying about bottle stability
> Reduces handling steps during the separation process such as balancing, supernatant harvesting, pellet recovery and cleaning of bottles after the run

Rotors for Centrifuge CR22N

Product Name	Max. capacity	Max. speed	Max. RCF
fixed-angle rotor			
Rotor R10A3	6 x 500 mL	10,000 rpm	18,800 × g
Rotor R10A5	6 x 500 mL	10,000 rpm	18,900 × g
Rotor R12A3	6 x 250 mL	12,000 rpm	23,800 × g
Rotor R12A6	4 x 500 mL	12,000 rpm	22,500 × g
Rotor R13A	6 x 250 mL	13,000 rpm	26,400 × g
Rotor R14A	4 x 250 mL	14,000 rpm	30,240 × g
Rotor R15A	10 x 50 mL	15,000 rpm	32,300 × g
Rotor R18A	8 x 50 mL	18,000 rpm	42,200 × g
Rotor R20A2	8 x 50 mL	20,000 rpm	48,000 × g
Rotor R21A2	6 x 30 mL	21,000 rpm	50,000 × g
Rotor R22A4	30 x 2 mL	22,000 rpm	55,200 × g
Rotor R22A6	12 x 10 mL	22,000 rpm	55,100 × g
Rotor R27A	8 x 50 mL	22,000 rpm	58,700 × g
Rotor R9A	4 x 1,000 mL	9,000 rpm	15,300 × g
Rotor R9A2	4 x 1,500 mL	8,500 rpm	15,100 × g
horizontal rotor			
Rotor R10H	NA	10,000 rpm	13,000 × g
soil dehydration rotor			
Rotor R11D2	4 x 110 mL	11,000 rpm	15,800 × g
swing-bucket rotor			
Rotor R3S	4 x 500 mL	3,000 rpm	1,940 × g
Rotor R4SS	40 x 15 mL	4,000 rpm	2,900 × g
Rotor R5S4	NA	4,700 rpm	3,100 × g
Rotor R8S	4 x 50 mL	8,000 rpm	11,500 × g

The maximum capacity refers to the nominal volume. The maximum filling volume may depend on the application, rotor and speed. Please consult with your sales representative for further details.

Separation example	Included tube	Order no.
For harvesting of bacteria, cells or yeast for e.g. recombinant protein purification or cell compartment purification in 6 x 500 mL bottles.	6 x 500PA Bottle	5721 221 013
For harvesting of bacteria, cells or yeast for e.g. recombinant protein purification or cell compartment purification in 6 x 500 mL Nalgene® bottles.		5721 221 012
For harvesting of bacteria, cells or yeast for e.g. recombinant protein or cell compartment purification in 6 x 250 mL bottles.	6 x 250PP Bottle	5721 221 011
For harvesting of bacteria, cells or yeast for e.g. recombinant protein purification or cell compartment purification in 4 x 500 mL Nalgene® bottles.	4 x 500PA Bottle	5721 221 010
For harvesting of bacteria, cells or yeast and removing cellular debris for e.g. recombinant protein or cell compartment purification in 6 x 250 mL bottles.	6 x 250PP Bottle	5721 221 009
For harvesting of bacteria, cells or yeast and removing cellular debris for e.g. recombinant protein or cell compartment purification in 4 x 250 mL bottles.	4 x 250PP Bottle	5721 221 008
For removing cellular debris or differential pelleting of subcellular organelles/compartments in conical tubes with 10 x 50 mL.	100 x 50TC Tube	5721 221 007
For fast removal of cellular debris or differential pelleting of subcellular organelles/compartments in conical tubes with 8 x 50 mL.	100 x 50TC Tube	5721 221 006
For differential pelleting of subcellular organelles/compartments in tubes with 8 x 50 mL.	8 x 50PA Tube	5721 302 106
For differential pelleting of subcellular organelles/compartments or larger virus particles in tubes with 6 x 30 mL.	6 x 30PA Bottle	5721 221 004
For pelleting of subcellular organelles/compartments or larger virus particles. For high throughput of small volumes with 30 x 2 mL tubes.		5721 221 003
For pelleting of subcellular organelles/compartments or larger virus particles in tubes with 12 x 10 mL.	12 x 10PA Bottle	5721 221 002
For pelleting of subcellular organelles/compartments or larger virus particles in tubes with 8 x 50 mL.	8 x 50PP Bottle	5721 202 101
For harvesting of bacteria, cells or yeast for e.g. recombinant protein or antibody purification in bottles with 4 x 1 L.	4 x 1000PP Bottle (WM)	5721 221 015
For harvesting of bacteria, cells or yeast for e.g. recombinant protein or antibody purification in easy to handle bottles with 4 x 1.5 L.	4 x 1500PP Bottle (WM)	5721 221 014
For plate centrifugation for e.g. PCR or cell-free protein synthesis with up to 12 x 96 plates.		5721 227 000
For liquid separation from soil or other solid organic material.		5721 228 000
For serum isolation or harvesting of bacteria or cells. For mid volumes with up to 4 x 500 mL bottles.		5721 224 003
For serum isolation, protein concentration in columns or harvesting of bacteria or cells in round bottom tubes with 40 x 15 mL.		5721 264 002
For plate centrifugation for e.g. ELISA or PCR in up to 12 x 96 plates.		5721 224 001
For strong pelleting of bacteria, yeast or cells for e.g. recombinant protein purification in conical tubes with 4 x 50 mL.		5721 202 400

High-speed Centrifuge CR30NX

With high speeds up to 110,000 x g, this centrifuge reaches g-forces that cross into the range of ultracentrifugation, making it the optimal solution for laboratories with a broad application range. From harvesting of biomass via continuous flow to separation steps of small particles such as viruses, organelles, extracellular vesicles or nanoparticles, the outstanding versatility and performance of Centrifuge CR30NX covers them all.

- 2-in-1 model: suitable for centrifugation steps with super-speed requirements (with vacuum function)
- Unique 1.5 L triangular bottle for easy and time efficient harvesting of cell, yeast and bacterial cultures (up to 15,100 x g)
- Immediate rotor recognition and self-locking rotor system for highest level of user safety
- Large touchscreen interface for fast and easy operation
- User management and documentation functions support labs working in a GLP/GxP environment

Super-Speed Rotors – No Switching Needed

Choose from two rotors with max. speed of 110,000 x g:

> Top-loading swing-bucket rotor for high-speed density gradient applications (e.g. rate zonal or Isopycnic centrifugation)
> Fixed-angle rotor for cell fractionation (e.g. Virus-, viral particle or exosome pelleting)
> With the self-locking rotor system and the immediate rotor recognition, you can toggle between applications in just a few minutes

For continous flow harvesting of bacteria, cells or yeast for e.g. recombinant protein or antibody purification in very large volumes of >10 L.		5721 352 601
For continous flow harvesting of bacteria, cells or yeast for e.g. recombinant protein or antibody purification in very large volumes of >10 L.		5721 302 600
For harvesting of bacteria, cells or yeast for e.g. recombinant protein purification or cell compartment purification in 6 x 500 mL bottles.	6 x 500PA bottle	5721 302 112
For harvesting of bacteria, cells or yeast for e.g. recombinant protein purification or cell compartment purification in 6 x 500 mL Nalgene® bottles.		5721 302 113
For removing cellular debris or differential pelleting of subcellular organelles/compartments and easy handling in conical tubes with 10 x 50 mL.	100 x 15TC Tube and 100 x 50TC tube	5721 302 110
For fast harvesting of bacteria, cells or yeast and removing cellular debris for e.g. recombinant protein or cell compartment purification in 6 x 250 mL bottles.	6 x 250PP bottle	5721 302 111
For fast removal of cellular debris or differential pelleting of subcellular organelles/compartment in tubes with 14 x 50 mL.	14 x 50PA tube with M-PP lid	5721 302 109
For fast removal of cellular debris or differential pelleting of subcellular organelles/compartments in tubes with 6 x 80 mL.	6 x 80PA bottle	5721 302 108
For differential pelleting of subcellular organelles/compartments or larger virus particles in conical tubes with 8 x 50 mL.	100 x 50TC tube	5721 302 107
For differential pelleting of subcellular organelles/compartments in tubes with 8 x 50 mL.	8 x 50PA tube and M-PP lids	5721 221 005
For differential pelleting of subcellular organelles/compartments or larger virus particles in tubes with 6 x 30 mL.	6 x 30PA bottle	5721 302 105
For pelleting of subcellular organelles/compartments or larger virus particles. For high throughput with 30 x 2 mL tubes.		5721 302 104
For pelleting of subcellular organelles/compartments or larger virus particles in tubes with 12 x 10 mL.	12 x 10PA bottle	5721 302 103
For pelleting of subcellular organelles/compartments or larger virus particles in tubes with 8 x 50 mL.	8 x 50PP bottle	5721 302 102
For pelleting and separation of small viruses, subcellular particles and vesicles in tubes with 8 x 50 mL.	8 x 50PP bottle	5721 302 101
For harvesting of bacteria, cells or yeast for e.g. recombinant protein or antibody purification in bottles in 6 x 1 L bottles.	6 x 1000PP bottle	5721 352 100
For harvesting of bacteria, cells or yeast for e.g. recombinant protein or antibody purification in bottles in 4 x 1 L bottles.	4 x 1000PP bottle	5721 302 114
For harvesting of bacteria, cells or yeast for e.g. recombinant protein or antibody purification in easy to handle bottles with 4 x 1.5 L.	4 x 1500PP bottle	5721 302 115
For plate centrifugation for e.g. PCR or cell-free protein synthesis with up to 12 x 96 MTP.		5721 302 700
For liquid separation from soil or other solid organic material.		5721 302 800
For pelleting or density gradient separation of subcellular organelles/compartments or virus particles in tubes with 6 x 40 mL.	50 x 40PA tube	5721 302 400
For serum isolation, protein concentration in columns or harvesting of bacteria or cells in round bottom tubes with 40 x 15 mL.		5721 352 402
For plate centrifugation for e.g. ELISA or PCR in up to 12 x 96 plates.		5721 302 401

Ultracentrifuges - CP-NX Series

The CP-NX Centrifuge Series, the flagship of our ultracentrifuge portfolio, has been designed to make ultracentrifugation as safe and convenient as possible. With speeds of up to 803,000 x g (100,000 rpm), it is the optimal solution for nucleic acid, vesicle, organelle and virus isolation, as well as protein and nano-particle purification, just to name a few.

The centrifuge series consists of three models: Centrifuge CP100NX, CP90NX and CP80NX[1)], all of which share the same great range of user-friendly and innovative features along with a comprehensive rotor portfolio, making them your indispensable companion for all high- to ultra-speed applications.

The Automatic Rotor Life Management System (RLM) significantly increases the lifetime of the rotors by automatically tracking the exact run times on the internal rotor memory, making handwritten rotor logs a thing of the past. The self-locking rotor system eliminates the need to manually tighten the rotor, enabling quick and easy rotor exchange within seconds. The non-contact imbalance sensor ensures safe operation, while the possibility to balance samples by eye (up to 5 mm)[2)] eliminates time-consuming sample balancing via scale.

The large touch display stands out with its intuitive, multilingual operation, offering three-level user management and documentation of runs. The additional option to pre-program up to 1,000 programs supports multi-user labs as well as laboratories working in GxP/GLP compliance.

[1)] The CP-NX models are available with max. speeds of 100,000 rpm (CP100NX)/90,000 rpm (CP90NX)/80,000 rpm (CP80NX), respectively. [2)] Except rotor P21A2

Product Name	Max. capacity	Max. speed	Max. RCF
fixed-angle rotor			
Rotor P21A2	6 x 230 mL	21,000 rpm	71,000 × g
Rotor P45AT	6 x 94 mL	45,000 rpm	235,000 × g
Rotor P50A3	24 x 1.5 mL	50,000 rpm	252,000 × g
Rotor P50AT2	12 x 40 mL	50,000 rpm	303,000 × g
Rotor P70AT	8 x 40 mL	70,000 rpm	505,000 × g
Rotor P70AT2	12 x 12 mL	70,000 rpm	452,000 × g
Rotor P80AT	8 x 12 mL	80,000 rpm	615,000 × g
Rotor P90AT	8 x 12 mL	90,000 rpm	700,000 × g
Rotor P100AT2	8 x 6.5 mL	100,000 rpm	803,000 × g
swing-bucket rotor			
Rotor P28S	6 x 40 mL	28,000 rpm	141,000 × g
Rotor P32ST	6 x 40 mL	32,000 rpm	180,000 × g
Rotor P40ST	6 x 13 mL	40,000 rpm	284,000 × g
Rotor P55ST2	6 x 5 mL	55,000 rpm	366,000 × g
vertical rotor			
Rotor P100VT	8 x 5 mL	100,000 rpm	700,000 × g

The maximum capacity refers to the nominal volume. The maximum filling volume may depend on the application, rotor and speed. Please consult with your sales representative for further details.

Micro-Ultracentrifuges - CS150FNX and CS150NX

With extraordinarily high speeds of up to 1,050,000 x g (150,000 rpm), plus fast acceleration and deceleration ramps and a broad range of rotors, our micro-ultracentrifuges ensure speedy separation of samples such as nucleic acids, proteins, cell organelles, viruses and nanoparticles in volumes between 0.2 - 30 mL.

Depending on the space available, you can choose between a floorstanding model (CS150FNX) with a very compact footprint or a benchtop model (CS150NX) with standard power requirements for flexible placement within the laboratory. Both devices have a low noise level of <45 dB(A), ensuring a stress-free work environment, even when working directly next to the device.

Additional features include a Rotor Management and the self-locking rotor system, which enables quick and easy rotor exchange within seconds. The innovative, non-contact imbalance sensor ensures safe operation, while the possibility to balance samples by eye (up to 5 mm)[1)] eliminates time-consuming sample balancing via scale.

The large touch display makes operation easy, while providing enhanced security and compliance with user-based access control and documentation of runs. The ability to pre-program up to 20 programs supports multi-user labs as well as laboratories working in GxP/GLP compliance.

[1)] Except rotor S140AT, S110AT, S80AT3, S50A

Product Name	Max. capacity	Max. speed	Max. RCF
fixed-angle rotor			
Rotor S50A	6 x 30 mL	50,000 rpm	210,000 × g
Rotor S55A2	12 x 1.5 mL	55,000 rpm	201,000 × g

PCR

Whether your application involves genome editing, NGS library preparation, cloning, or virus detection, a PCR thermocycler is required. Traditional end-point PCR is utilized in virtually every molecular biology laboratory where the need for optimal performance, and fast, reproducible results is crucial.

Key features of a high-quality thermocycler include durability, versatility, speed and throughput. When choosing a cycler based on such characteristics, it is additionally important to think about the block material and configuration. Choose from multiple block configurations utilizing either a silver block with good heat conducting properties for increased speed or traditional aluminum blocks with 96 or 384 wells. We also offer the Mastercycler® nexus X2 with a dual block for running PCR reactions in parallel.

Depending on your lab's needs, you require different vessel types and a cycler that is compatible with both tube and plate formats. Our Mastercycler® X50 and Mastercycler® nexus utilize flexlid® technology that guarantees optimal pressure for a tight seal of your sample plates or tubes in the block to eliminate evaporation.

For added flexibility and efficiency, the 2D-Gradient of the Mastercycler® X50 enables you to optimize the annealing and denaturation temperature. This enables optimization of specificity and yield by testing 96 temperature combinations in only one PCR run. If you need support for further optimization of your PCR protocols, we have articles that explain the technological background of cycler technology and different ways to improve your PCR.

Connect multiple thermocyclers to increase capacity.

For high throughput or expanding labs, we also offer eco units that can be connected to one main cycler. The Mastercycler X50 can control up to 9 eco units directly. For even more throughput you may connect up to 50 eco unit devices and conveniently control them via the CycleManager X50 software or one main Mastercycler X50. With Mastercycler nexus and nexus X2 you can connect up to 3 cyclers to increase productivity. Become a digital, connected lab and monitor multiple lab devices with VisioNize®. The touchscreen interface of Mastercyler X50 enables using VisioNize for your digital future. You can manage users, audits and runs easily from the device, a PC or smartphone and tablet.

We also offer distinguished service plans to ensure preventive maintenance of your thermal cycler assessing factors such as temperature block homogeneity. You may also use the temperature verification system TVS-T6 to check the block temperature of your cyclers yourself for minimal device downtime and regular temperature verification.

PCR

PCR consumables

Eppendorf twin.tec® plates are available in different colors.

The Eppendorf twin.tec® PCR plate combines extremely thin-walled polypropylene wells for optimal heat transfer to the sample with robust polycarbonate frames for high rigidity. With raised well rims, twin.tec plates enable highly effective sealing to reduce the risk of cross-contamination.

The heart of our PCR consumables is the Eppendorf twin.tec® PCR plate. It is available in a 96-well or 384-well format. All of the 96-well plates are offered in three different frame variants: unskirted, semi-skirted and, skirted to perfectly fit your instruments. The plates are also available in standard or LoBind® quality and additional variations such as low profile to suit multiple applications. We also supply a range of PCR tubes, films, foils, tube strips, and cap strips.

All PCR consumables are made of high-purity plastics and are 'PCR clean'. This means they are batch-tested and certified by an independent laboratory to be free of a range of common PCR contaminants, including DNA, DNAse, RNAse, and PCR inhibitors. Products that are labeled 'forensic DNA grade' fulfill the requirements for ISO 18385.

Different frame formats of Eppendorf twin.tec® plates: unskirted (top), semi-skirted (middle) and skirted (bottom).

The special design and manufacturing process results in high precision products. Every single plate is a high-performance component in your workflow offering superior reproducibility.

The plate portfolio also includes plates for real-time PCR with white wells and individually wrapped microbiology plates. Those plates are specially designed for these methods and research areas, helping you to achieve the best possible results.

All Eppendorf Plates are available with customized barcodes.

Plate compatibility
www.eppendorf.com/plate-compatibility

Eppendorf twin.tec® Trace PCR Plates

With their laser-engraved lot and expiration date, twin.tec Trace PCR plates are ideally suited for your complex studies, automated high-throughput applications and regulated workflows. They support traceability and documentation for your next audit.

In addition to their high-throughput and compliance features, these microtiter plates come with a laser-engraved optical guiding grid and OptiTrack® matrix that ensure quick well-orientation when you are pipetting manually.

Available in transparent and 2 fresh colors twin.tec Trace plates are ready to deliver maximum performance and reliability for your most demanding workflows!

All Eppendorf twin.tec Trace plates are 'PCR clean', having been batch-tested and certified by an independent and accredited laboratory to be free of a range of common PCR contaminants, including DNA, RNA, DNAse, RNAse, and PCR inhibitors. With these microplates you'll have maximum confidence in your results.

Product features

> Laser-engraved lot number and expiration date on each single plate to improve traceability in your laboratory processes
> Unique laser-engraved optical guiding grid and OptiTrack® matrix for quick orientation when pipetting manually
> One-piece design: combining a polycarbonate frame and polypropylene wells for optimum performance

Mastercycler® X50

Description
The Mastercycler® X50 elegantly combines speed, flexibility, and ease of use. With its intuitive touch screen offering precise fingertip control, the MC X50 thermocycler enables easy PCR optimization in advanced molecular biology research and dependable standardization in routine PCR applications. It is also perfectly fitted for NGS.

Product features
> Heating rate: up to 10 °C/s
> Wide selection of blocks from a fast silver block to 384 well block
> VisioNize touchscreen interface

Applications
> Fast PCR
> PCR optimization
> Standard PCR
> Incubation
> Cycle sequencing

Mastercycler® X50, eco unit

Description
Mastercycler® X50 eco units combine the speed and performance of the master device with the option to be connected to each other. Up to 9 units can be controlled by one master device, while up to 50 eco units can be conveniently controlled with the CycleManager X50 software, even if they are placed in multiple laboratories.

Product features
> Heating rate: up to 10 °C/s
> Cooling rate: 5 °C/s
> Control up to 50 units from one PC

Applications
> Fast PCR
> PCR optimization
> Standard PCR
> Incubation

CycleManager X50 Software

Description
Maximize your PCR efficiency. CycleManager X50 enables you to increase your throughput by managing up to fifty Mastercycler X50 eco units simultaneously. Now there's no need for repetitive copying of PCR documentation and parameters, time-consuming searches for an available cycler, or checking the status of your runs on multiple cyclers. Address this bottleneck in your workflow and get full PCR control with CycleManager X50 software.

Mastercycler® nexus

Description
The versatile Mastercycler® nexus enables you to select the PCR consumables that best fit your assay. The nexus PCR cycler can accommodate 96-well PCR plates, 0.2 mL PCR tubes, 0.2 mL PCR tube strips, and 0.5 mL PCR tubes. With less than 40 dB[a] noise emission, the nexus is whisper quiet, while also being energy efficient.

Product features
> Intuitive graphic programming
> Small footprint
> Universal block for ultimate flexibility

Applications
> Standard PCR
> Fast PCR
> PCR optimization

Mastercycler® nexus X2

Description
The Mastercycler® nexus X2 is Eppendorf's solution for busy PCR labs. Two totally independent protocols can be run on the nexus X2 in parallel so two users can start their PCR reactions whenever it fits their schedule. With less than 40 dB[a] noise emission, the nexus X2 PCR cycler is whisper quiet and also very energy efficient.

Product features
> Asymmetrically divided block for running different assays in parallel, one 32-well and one 64-well block
> Intuitive graphic programming
> Universal block for strips, 0.1 mL, 0.2 mL and 0.5 mL PCR tubes and fits for divisible PCR plates

PCR Consumables and Sealing

New

Eppendorf twin.tec® PCR Plates
Choose Eppendorf twin.tec® PCR plates for confidence in every PCR assay. twin.tec® plates offer purity, rigidity, color, and other simple, smart features can make your daily life a lot easier. The rigid polycarbonate frame works well in automation and high-throughput processes, and the different colors mean you can quickly organize the different steps of your workflow.

All plates also available as barcoded version.

Learn more about LoBind® technology

www.eppendorf.com/howitworks-lobind

Eppendorf twin.tec® PCR Plates LoBind®

Get the most out of your PCR. Eppendorf's twin.tec® PCR plates LoBind® are specially designed to maximize the yield of your target molecules. LoBind wells are made of polypropylene, with low DNA binding properties, leading to reduced loss of target molecules and higher yields in PCR and other molecular assays.

PCR Consumables and Sealing

Eppendorf PCR Tubes

Since 1963, when Eppendorf invented the microcentrifuge tube, Eppendorf tubes have proven to be reliable companions in a scientist's daily work. Eppendorf PCR tubes are easy to open and provide tight sealing to prevent evaporation in PCR. With their thin, consistent wall thickness and smooth wall surface, they also ensure efficient heat transfer to the sample, speeding up your PCR.

Eppendorf PCR Tubes, 0.5 mL, PCR clean, with hinged lid, clear, 500 pcs.	0030 124 537

Eppendorf Fast PCR Tube Strips

The Eppendorf Fast PCR Tube Strips are made of polyethylene to transfer heat faster than tubes made of traditional plastics. These PCR strips with caps are particularly suited to fast PCR, for example using fast PCR reagent kits or cyclers with high heating and cooling rates, such as the Mastercycler® X50 family.

Ordering information

Description	Order no.
Eppendorf Fast PCR Tube Strips	
0.1 mL, without lids, PCR clean, 120 pcs. (10 × 12 pcs.)	0030 124 901
0.1 mL, with cap strips, flat, PCR clean, 120 pcs. (10 × 12 pcs.)	0030 124 910
0.1 mL, with cap strips, domed, PCR clean, 120 pcs. (10 × 12 pcs.)	0030 124 928

PCR cap strips

Eppendorf Cap Strips provide easy and rapid sealing of Eppendorf twin.tec® PCR plates, PCR tubes and other standard multiwell plates. Each strip has eight PCR caps for use on 0.1 mL and 0.2 mL wells.

PCR Cap Strips can also be used in real-time PCR (qPCR) assays. In this case it is recommended to use flat capped strips or Masterclear® strips for maximal transparency. If you encounter evaporation and sample loss, domed caps can be used to provide a tighter seal when using a heated lid. Eppendorf Cap Strips can be sterilized by autoclaving for 20 minutes at 121 °C.

PCR Consumables and Sealing

PCR-Cooler
Say goodbye to unstable racks and ice buckets at your bench. The PCR racks are ideal for safe sample transport and storage while the PCR-Cooler is perfect for keeping your samples cold throughout your PCR setup without using ice. Suitable for 0.2 mL and 0.5 mL PCR tubes and for 96-well PCR plates.

Ordering information

Description	Order no.
PCR-Cooler 0.2 mL Starter Set, 1 pink, 1 blue	3881 000 015
PCR-Cooler 0.2 mL, Pink	3881 000 023
PCR-Cooler 0.2 mL, Blue	3881 000 031

PCR-Rack
Handling several PCR tubes or tube strips can be cumbersome. Eppendorf PCR racks are a great help when dealing with numerous 0.1, 0.2, and 0.5 mL tubes and strips. The racks are stackable, can be stored down to -90°C and can be autclaved.

PCR-Rack, assorted colors, 10 pcs.	0030 124 545

PCR Films and Foils provide effective and tight sealing for plates.
Eppendorf PCR films and foils provide effective and airtight sealing for plates to help protect PCR samples during thermal cycling and storage. PCR plate seals offer excellent chemical resistance and have been tested for resistance to a variety of common laboratory substances. Specialized seals with optimal optical properties are available to help minimize signal loss in qPCR.

HeatSealer

Description
To obtain reliable assay results, PCR plates need to be sealed tightly in a reproducible manner – and the same is true for maintaining sample integrity during storage. The HeatSealers S100 and S200 are user friendly instruments for reliable plate sealing of different plate formats. In combination with our range of adapters, Eppendorf HeatSealers enable you to seal almost any plate.

Freezer

Cold Storage – Protect what Matters

How Much Effort Did You Spend on Your Sample?

Did you ever calculate the value within your freezer? All the hours, days, weeks, and months spent on your samples?
More than 50,000 samples fit into a large, standard ULT (also known as ultra-low temperature freezer, -80°C). The value of every single sample differs – from simple buffers to high-value clones, expensive enzymes, or very rare sample material. When predominantly storing high-value samples which are a result of months of work – a single freezer can easily reach a value equal to hundreds of thousands of Euros or dollars.
Your ULT freezer is not just a storage room for samples. This instrument is your assurance for long-term scientific success, securing your work.

Confidence in Quality

Eppendorf has a long-standing history of innovation and quality, and our freezer manufacturing process is no exception. Each Eppendorf ULT freezer is thoroughly inspected to meet our rigorous quality guidelines. The final inspection takes more than 24h and is based on manual and visual technical checks. This process is documented by an individual certificate of quality, completed with serial number, provided as standard for your documentation.
As your expert partner for reliable, high-quality, and efficient storage solutions, Eppendorf finely engineers each freezer with care, using only the highest quality materials to ensure a long lasting freezer that offers peace of mind and security. Performance data are based on external test runs of 3 units.
Eppendorf freezers are designed to offer a long-term value over the lifetime of its ownership. You can entrust your valuable samples to our ULT freezers, and you can trust your investment in high quality, reliable, and efficient storage solutions from Eppendorf.

eppendorf

Eppendorf Certificate

Certificate of Quality

Eppendorf Ultra-Low Temperature Freezer

Eppendorf Ultra-Low Temperature Freezers are manufactured in a controlled area and each individual freezer is tested after production. Tests (e.g. pull-down time, condenser, heat exchanger, and cabinet temperature) are performed in a separate area.

Our Part for Sustainability

> ENERGY STAR® and ACT® label (My Green Lab®) partner
> 100% renewable power usage in our production facility
> Production based on high European social and environmental standards
> Environmentally-friendly insulation with green foam, vacuum insulation panels („h"-version), and insulated inner doors for energy efficiency
> Green cooling liquids (Hydrocarbons: R170/ R290) with very low global warming potential (GWP) — to comply with the European F-Gas regulation and US SNAP regulations
> Over a decade of experience at Eppendorf with green hydrocarbon-based cooling liquids for -80 °C applications in R&D, production, logistics, and service in the field
> Low energy consumption combined with efficient cooling performance and long freezer lifespan that you can rely on

Digitalization of Cold Storage

Remember Your Last 2 a.m. Wake-up Call?

VisioNize® Lab Suite is your central software solution for effective monitoring and maintenance management to prevent sample storage emergencies. Benefit from 24/7 notification & monitoring for your ULT freezers and high-value stored samples

Independent Temperature Measurement Required?

With VisioNize sense, you can connect non-Eppendorf devices to VisioNize Lab Suite or utilize the sensor system as a second source of validation for monitoring the temperature in your freezer.

Lost in Samples? Stay Organized!

Over many years, you collect and handle many samples – samples of high value. Keep track of your samples with eLabNext, the sample management software

CryoCube® F440 Series

Zero compromise
How often do you open your ULT freezer door each day? For how long? What are the crucial factors for maintaining a steady -80 °C? It's best practice to open and close your freezer as quickly as possible when accessing samples. However, locating and removing the correct sample can take time. The more time it takes, the more the temperature of your frozen samples increases as they are exposed to the warm air flow.

The efficient and reliable compressor systems of CryoCube F440 series ULT freezers ensure sample protection by guaranteeing fast recovery and pull-down back to -80 °C.

The CryoCube F440h freezer is based on foam insulation enforced by vacuum insulation panels whereas the CryoCube F440n is based on foam insulation.

For daily usage
> Space for up to 320 boxes (1.5 mL) for your daily sample storage, combined with efficient pull-down and recovery times back to -80 °C
> Green cooling (hydrocarbon-based) and low power consumption of 6.8 KWh/ day for high levels of sustainability
> Technical data based on external test house evaluation for independent validation

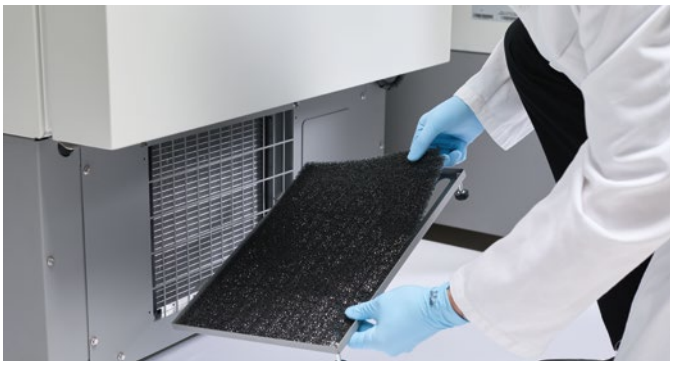

Donwload the Eppendorf freezer family brochure

www.eppendorf.com/freezer-brochure

Technical specifications subject to change.

Easy opening of your freezer requested? Following the PhysioCare Concept®, the CryoCube® ULT freezers have an ergonomic door handle for convenient opening and closing

Filter cleaning needed for your ULT freezer? Simple filter replacement - just open the filter cover and insert a clean filter

Cleaning your ULT freezer? The inner insulated doors of the CryoCube® freezer can easily be removed to quickly clean and maintain your ULT freezer

Reliable temperature measurment within your ULT freezer requested? All CryoCube® freezers have an integrated probe which is located in the middle compartment for a reliable temperature measurement

Doubled safety for the samples? The built-in temperature probe can be supported by the independent temperature measurement system of VisioNize sense

Cleaning needed? The CryoCube® F440 ULT freezer is equipped with 5 compartments and a stainless steel chamber for easy cleaning

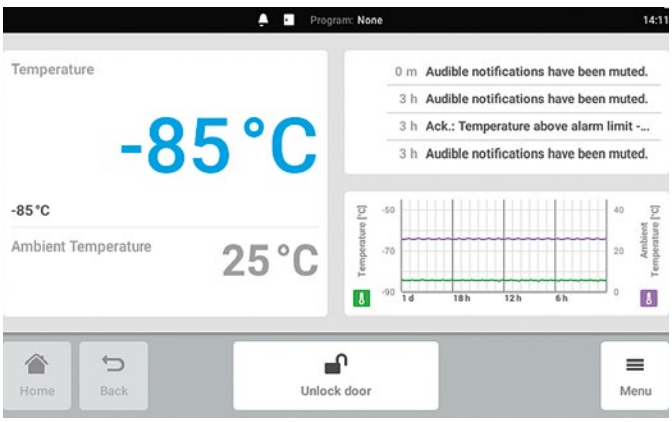

CryoCube® F740 Series

Design the Freezer Around the Sample
The CryoCube® F740 freezer series is the smartest member of the Eppendorf ULT Freezer family. Combining the high-quality tradition of our previous freezers with an increased capacity, the CryoCube F740 series is designed to store more of your samples securely while maintaining optimal energy usage. Fast pull-down and recovery time back to -80°C increase sample safety. The integration of the PhysioCare Concept® during development means that the CryoCube F740 is easier and more comfortable to use, supports an ergonomic workspace, and enables an optimal workflow in the lab.

Smart Control
Worried about the safety of your high value samples stored in your -80 °C ULT freezer? With the Eppendorf ULT monitoring concept available on CryoCube F740hi/ hiw models, you can check the freezer performance whenever you want. All temperature data and all events are stored in the VisioNize touch interface.

> On-board data storage to keep track of freezer data
> Connect to VisioNize Lab Suite for 24/7 monitoring and notification (option)
> Easily adjust parameters using device touchscreen, even while wearing gloves
> Receive alert notifications to address issues quickly
> Electronic lock system with user management for controlled access and higher sample safety

Easy overview required? Quickly review important parameters on the home screen of the ULT freezer

Freezer Accessories

CO_2 and LN_2 Back-up System

> Equipped with a battery back-up to temporarily protect the contents of your freezer in case of power or system failure
> Available in either liquid CO_2 and LN_2. Liquid CO_2 can maintain temperatures between -50 °C and -70 °C, where as LN_2 can go down to -80 °C
> Both systems can be factory installed with your freezer order or retrofitted on existing models

CO_2 and LN_2 Back-up System for Innova® U101, U360, U535, U725/ -G, C585, C760, CryoCube® F101h and F740 series

Description	Order no.
CO_2 back-up system, 100 V/50 – 60 Hz (JP)	*
CO_2 back-up system, 120 – 220 V/60 Hz, Innova® and Green 'G', ('narrow')	*
LN_2 back-up system, 100 V/50 – 60 Hz (JP), Innova® Green 'G' / F740, LN_2 Backup	*
LN_2 back-up system, 115 – 220 V/60 Hz, Innova® and Green 'G', ('narrow')	*
CO_2 back-up system, 230 V/50 Hz, Innova®, Green 'G', and CryoCube® 740 series, ('narrow')	*
LN_2 back-up system, 230 V/50 Hz, Innova®, Green 'G', and CryoCube® 740 series, ('narrow')	*

CO_2 and LN_2 Back-up Systems for CryoCube® F440/ F570/ FC660 series, Premium U410, HEF® U410

Description	Order no.
CO_2 back-up system, 120 – 220 V/60 Hz, CryoCube® F440/ F570/ FC660 series, Premium, and HEF®	*

Chart Recorder paper (Type I), -50 to -100 °C, 60 pcs.	P0625-2110

Freezer Racks

Drawer or side access?
When using racks with drawers, only the drawer with the freezer boxes of interest is pulled out. All other boxes stay in the cold inner area of the ULT freezer. Eppendorf drawers are optimized for smooth movement at -80 °C for ergonomic handling.
When using side access racks, most of the storage boxes have to be pulled out of the cold inner area of the ULT freezer to access the samples. Racks for chest freezers can be equipped with locking rods to secure freezer boxes when pulling out the rack tower.

Stainless steel tower rack for Eppendorf Innova® ULT chest freezers without locking pin: 2.0 in boxes

Rack with locking rod for Eppendorf Innova® ULT chest freezer

Drawer rack for Eppendorf ULT freezer

Side access rack for Eppendorf ULT freezer

Pick your material
Standard freezer racks are available in either stainless steel or aluminum, each with its own benefits.

Stainless steel:
> Stable/robust for longevity and higher capacity
> Fits freezer boxes up to 136 mm × 136 mm for high flexibility regarding boxes
> Special design of drawer racks for optimized cooling conditions and improved sample safety

Aluminum:
> For freezer boxes up to 133 mm × 133 mm
> Non-corrosive anodized aluminum for long-term use

3-compartment or 5-compartment?
The ULT freezer with 3 compartments/ shelves (e.g. Innova® U535) has higher compartments compared to the 5-compartment ULT freezer (e.g. CryoCube® F570 series). Racks of a 5-compartment freezer do fit into a 3-compartment freezer but not vice versa. To get the maximum capacity out of your ULT freezer, the CryoCube F740 series (3-compartment) can be equipped with "3-compartment MAX" racks. These racks only fit into the CryoCube F740 series 3-compartment instruments.

Eppendorf Storage Boxes

In need of resilient options for long-term storage?
The Eppendorf Storage Boxes are a durable system solution for sample storage. The outer footprint dimensions (133 mm) are compatible with common freezer rack systems. The different inner grids provide a perfect fit for all typical tube formats: cryogenic tubes, microcentrifuge tubes, conical tubes (5 mL, 15 mL,25 mL, and 50 mL), and other laboratory vessels. This space-saving approach helps to optimize your storage and archiving of samples.

Product features
> Made of polypropylene (PP) for high stability in freezing applications and smooth opening and closing
> For freezing to -86 °C
> High-contrast permanent alphanumeric marking of each location through laser labeling enables easy sample identification and minimizes risk of sample mix-up

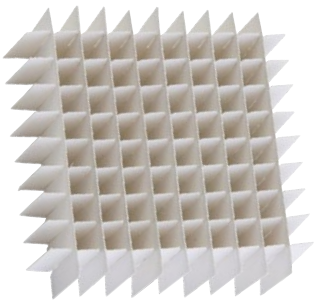

Ordering information

Description	Order no.
Storage Box 10 × 10, freezer box, for 100 cryogenic tubes w. int. thread, 3 pcs., height 53 mm, 2 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 508
Storage Box 9 × 9, freezer box, for 81 screw cap (cryog.) tubes 1 – 2 mL, 3 pcs., height 53 mm, 2 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 516
Storage Box 9 × 9, freezer box, for 81 screw cap (cryog.) tubes 3 mL, 2 pcs., height 76 mm, 3 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 540
Storage Box 9 × 9, freezer box, for 81 screw cap (cryog.) tubes 4 – 5 mL, 2 pcs., height 102 mm, 4 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 567

Storage Box 5 × 5, freezer box, for 25 tubes 5 mL, 4 pcs., height 64 mm, 2.5 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 532
Storage Box 5 × 5, freezer box, for 25 tubes 5 mL screw cap, 2 pcs., height 76 mm, 3 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 613
Storage Box 5 × 5, freezer box, for 25 tubes 15 mL, 2 pcs., height 127 mm, 5 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 583
Storage Box 3 × 3, freezer box, for 9 tubes 25 mL, 2 pcs., height 89 mm, 3.5 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 729
Storage Box 3 × 3, freezer box, for 9 tubes 50 mL and 4 tubes 15 mL, 2 pcs., height 127 mm, 5 in, polypropylene, for freezing to -86 °C, autoclavable, with lid and alphanumeric code	0030 140 591

Freezer Boxes and Dividers

Looking for basic freezer boxes for storage?
Water-resistant cardboard boxes are a cost-effective solution to safely organize and store your samples at -80°C. The freezer boxes fit into both models of ULT freezers, upright as well as chest lab freezers.

Freezer Cardboard Storage Boxes
> White cardboard box with water resistant coating, designed to withstand ultra-low temperature
> Available in 53 mm (2 in), 76 mm (3 in), and 102 mm (4 in) tall boxes
> Compatible with box dividers 7 × 7 to 10 × 10 (dividers sold separately)

Freezer Boxes Dividers
> Available in 7 × 7, 8 × 8, 9 × 9 and 10 × 10 configurations
> Compatible with freezer cardboard storage boxes (sold separately)

Ordering information

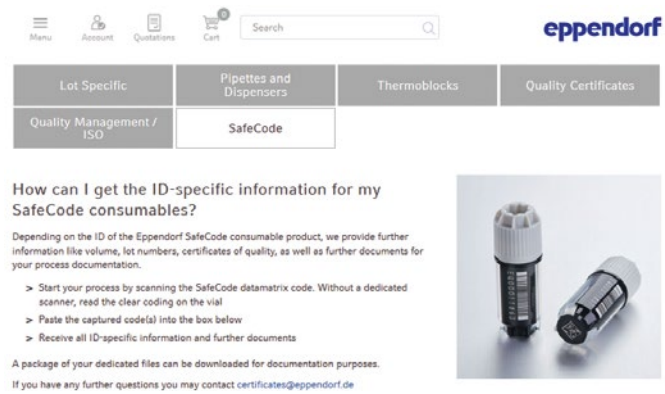

Description	Order no.
Freezer Boxes Dividers	
7 × 7, 17.4 mm max. tube diameter, holds 49 tubes	D49
8 × 8, 15 mm max. tube diameter, holds 64 tubes	D64
9 × 9, 13 mm max. tube diameter, holds 81 tubes	D81
10 × 10, 11.8 mm max. tube diameter, holds 100 tubes	D100
Freezer Cardboard Storage Boxes, white	
53 mm tall	B50-SQ
76 mm tall	B75-SQ
102 mm tall	B95-SQ

Eppendorf SafeCode System

Safe sample identification needed?
Every stored sample vessel must be labeled for clear identification. Yet, you always find samples in your freezer with an illegible or lost label. Clear labeling is recommended to make reading as easy and as reliable as possible for everyone. Printed labels on vessels in plain writing are the minimum condition for safe reading. Barcodes or 2D datamatrix codes are one step further towards a fast and safe sample identification. Vessels with up to a 3-level coding in different formats enable you to improve your processes.
Smart labeling of your high-value samples is crucial for safe identification and ultimately for reliable results. For added security, manage your coded samples with sample management software like eLabNext.

Documentation required?
For certification purposes, more and more users need to document every piece of information. Vials are a major part of the workflow within the lab. Therefore, further information about Eppendorf consumables with SafeCode are available via the Eppendorf website. Based on the individual vial or tube code you can get:
> Lot number
> Order number
> Certificates

The information can be exported manually into local databases or automatically transferred to the sample management software Eppendorf eLabInventory or eLabJournal® (software add-on).

Eppendorf CryoStorage Vials

Scanning labels of 20 vials in a row?
The SafeCode system for Eppendorf CryoStorage Vials is based on a 3-level coding to enable safe sample identification. Up to 96 pre-labeled vials are pre-racked and pre-capped for convenient usage.

Product features
> 3-level coding for safe sample identification
> ECC 200 error correction function enables safe code reading with up to 30 % damaged codes
> Temperature range: -196 °C (gas phase of LN_2) to +121 °C

Eppendorf CryoStorage Vial, 0.5 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 960 vials (10 racks × 96 vials), individually packed racks	0030 079 400
Eppendorf CryoStorage Vial, 1.0 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 960 vials (10 racks × 96 vials), individually packed racks	0030 079 418
Eppendorf CryoStorage Vial, 1.5 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 480 vials (10 racks × 48 vials), individually packed racks	0030 079 426
Eppendorf CryoStorage Vial, 2.0 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 480 vials (10 racks × 48 vials), individually packed racks	0030 079 434
Eppendorf CryoStorage Vial, 4.0 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 480 vials (10 racks × 48 vials), individually packed racks	0030 079 442
Eppendorf CryoStorage Vial, sterile, 0.5 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 960 vials (10 racks × 96 vials), individually packed racks	0030 079 450
Eppendorf CryoStorage Vial, sterile, 1.0 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 960 vials (10 racks × 96 vials), individually packed racks	0030 079 469
Eppendorf CryoStorage Vial, sterile, 1.5 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 480 vials (10 racks × 48 vials), individually packed racks	0030 079 477
Eppendorf CryoStorage Vial, sterile, 2.0 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 480 vials (10 racks × 48 vials), individually packed racks	0030 079 485
Eppendorf CryoStorage Vial, sterile, 4.0 mL, free of DNase, RNase, human DNA, endotoxin; external thread, pre-capped gray, with 2D SafeCode (DataMatrix/ECC200), linear and human readable code, 480 vials (10 racks × 48 vials), individually packed racks	0030 079 493

SafeCode Tubes

How often do you puzzle about tube labels while working at the bench?
A clean and stable label on the side or top of the vessel can make scientific life so much easier. Eppendorf microtubes and conical tubes are available with SafeCode - a well-designed barcoding system. Take advantage of the pre-labeled and durable 2-level coding of the SafeCode system (datamatrix code and clear coding) to enable safe sample identification. The safe sample ID is supported by online information about the dedicated consumable.
These tubes are available in volumes from 5 mL to 50.0 mL for a broad range of applications at the bench. These sets of vessels expand your safe sample management solution from the existing SafeCode CryoStorage Vials at -80 °C storage for complete security in your daily work at the bench.

Product features
> 2-level coding for safe sample identification
> ECC 200 error correction function enables safe code reading with up to 30 % damaged codes
> Temperature range: -86 °C to +121 °C

Eppendorf Conical Tubes, 50 mL, 2D SafeCode, sterile, pyrogen-, DNase-, RNase-, human and bacterial DNA-free, colorless, 500 tubes (20 bags × 25 tubes)	0030 113 497
Eppendorf Tubes® 5.0 mL with screw cap, 5 mL, 2D SafeCode, sterile, pyrogen-, DNase-, RNase-, human and bacterial DNA-free, 200 tubes (2 bags × 100 tubes)	0030 113 500

Eppendorf RackScan

Scanning more than one sample at a time?
The Eppendorf RackScan provides you a number of solutions to scan samples tubes with datamatrix (2D) codes. The Eppendorf RackScan b scans data from the bottom of the vessels. The instrument can also be equipped with the „s“ accessory to read side-labeled barcodes.
Data can be exported in different formats for downstream software applications.

Product features
> Camera based instrument resulting in rapid imaging and decoding
> Comfortable and easy plug-in system
> Small footprint, ideal for benchtop (and integration)

CO_2 Incubators

CO_2 incubators, service products, and digital lab management from Eppendorf

The CO_2 incubator is the home of your cells and a key device in every cell culture lab. Therefore, it is crucial that a CO_2 incubator provides **optimized and stable growth conditions** to ensure a high degree of reproducibility for your culturing results – even for sensitive cells. Fast atmosphere recovery rates after door openings without setpoint overshoot, uniformity of the atmosphere inside the CO_2 incubator chamber, and protection from vibrations and air turbulence are important features to consider and are all parts of the Eppendorf CO_2 incubator lineup. Eppendorf also offers various CO_2 incubator service products like IQ/OQ or preventive maintenance. These services are conducted by experienced Eppendorf service technicians to help you to **continuously achieve reproducible results and prepare for internal or external audits**. Furthermore, **comprehensive and centralized documentation** of incubation conditions (e.g. alarms and events), as well as **management of a device fleet** (e.g. customizable tasks or service reminders) are provided by our VisioNize® Lab Suite for a growing number of devices from Eppendorf.

In addition to optimized growth conditions, a CO_2 incubator must provide a **high degree of contamination protection and should be as easy to clean**. Eppendorf CO_2 incubators have a fanless incubator design that leaves no space for contaminants to hide and omits the need for internal fan-associated HEPA-filters. Fast and easy cleaning are ensured by a deep-drawn, seamless incubator chamber, few internal parts that are dissembled and quickly cleaned, and integrated high temperature disinfection (HTD). Furthermore, options for additional protection like copper interior or segmented inner doors are available for selected CO_2 incubators.

Often underestimated, running costs of CO_2 incubators can add significantly to a cell culture lab's total expenses. Main factors include, for example, costs for regular replacement of internal parts like fan-associated HEPA-filters, costs related to gas consumption (incl. gas costs, labor costs for replacing cylinders, CO_2 incubator downtime during changes etc.), costs for lost lab space due to low usable space vs. footprint ratio, or costs for insufficient future flexibility. Eppendorf CO_2 incubators support cell culture labs to **reduce the running costs** and to **achieve corporate carbon footprint reduction goals**.

CellXpert® C170i

Description
Cell culture incubator CellXpert® – Culture of Tomorrow

Are you looking for a 170 L cell culture incubator that is easy to clean and delivers optimized growth conditions, even for your sensitive cells? The GMP/GLP-compatible CellXpert C170i is more than just that. It also helps to reduce the running costs of your lab significantly and it provides flexibility for different future lab setups and applications – with many in-field upgradeable options.

Product features

> **Easy cleaning and disinfection:** Seamless chamber, easy disassembling in 40 s
> **Effective contamination protection:** 180 °C High temperature disinfection (HTD) with protocol, no internal fan-associated HEPA filters necessary
> **Uniform temperature:** Innovative heating concept with multiple temperature sensors at various locations - verified at 27 spots inside the incubator (German DIN 12880)

See the Video: Easy cleaning

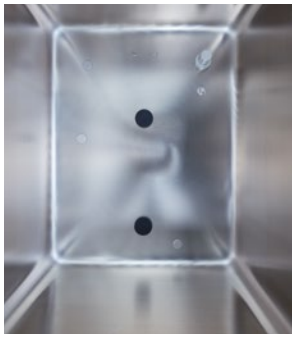

www.eppendorf.com/Video-Contamination-Prevention

Full control and easy documentation with the intuitive user interface.

The removable water tray is easy to clean and refill.

There is no place for contaminants to hide in the seamless chamber.

Set of copper water tray and 4 copper shelves for 170 L incubators	6731 080 013
Copper water tray, for 170 L incubators	P0628-6260
Copper shelves, for 170 L incubators, 2 pcs.	6710 859 106
Shelves, for 170 L incubators, 2 pcs.	6710 859 009
Shelf, for 170 L CO_2 incubators, stainless steel, 1 piece	6731 070 123
Shelf rack for 8 shelves, for 170 L incubators	P0628-6390
Water tray, for 170 L incubators	P0628-6140

CellXpert® C170

Description
The C170 is the basic version of the C170i. It comes with the same uniform atmosphere, fast recovery, cleanability, high usable space but for example with a simpler user interface and less in-field upgradeable options. Use the flyer “C170i vs. C170” to find the right device for your needs.

The CellXpert C170i and C170 are stackable with CO_2 incubators of Thermo Scientific®, PHCbi (former Panasonic) and more with the Universal Stacking Kit

Product features
> **Easy cleaning:** Seamless chamber, easy disassembly in 40 s
> **Effective contamination protection:** 140 °C High temperature disinfection (HTD), no internal fan-associated HEPA-filters necessary
> **Temperature uniformity:** Innovative heating concept with multiple independent temperature sensors – verified at 27 spots inside the incubator according to German DIN 12880 norm

New Brunswick S41i

Description
Are you looking for a CO_2 incubator shaker with integrated high temperature disinfection (120 °C) and significantly reduced gas consumption? Make cleaning easy and change CO_2 cylinders less often with the fanless and stackable New Brunswick S41i.

Product features
> Experimental flexibility: Perforated shelf allows for static incubation at the same time as shaking
> Stable, uniform and vibration-free shaking: robust Innova triple eccentric drive
> Saves gas and provides an optimal growing atmosphere: Smart gas control (0.2 - 20% CO_2)

Applications
> Culturing of suspension cells requiring gentle agitation
> Protein expression
> Adherent cells such as stem cells that require both incubation and periodic gentle shaking

Temperature probe, 5 mm tip for gas analyzer	P0628-7881

Lab Shakers

Incubated lab shakers

If the growth atmosphere needs to be controlled (e.g. temperature and photosynthetic light) and medium or high throughput is needed, an incubated lab shaker is necessary. Usually, incubated lab shakers are grouped based on any of the following criteria:
Temperature control:
> Cooling for a minimum of 4 °C
> Heating for a maximum of 80 °C

> Speed range (25 – 500 rpm)
> Position in the lab (Benchtop, under bench or stackable floor models)
> Stackability (2- or 3-fold)
> Capacity and throughput: Vessel type, size and capacity
> Mode of loading (front vs. top loading)
> CO_2 control
> Photosynthetic light

Lab Shaker Service

Qualification, regular maintenance, and calibration of your lab shaker are key to ensure reproducible results and easy audits at any time. Our trained Eppendorf service technicians will help you to continuously achieve this with preventive maintenance, IQ/OQ or extended warranty.

Smart shaking with VisioNize® Lab Suite

Are you interested in monitoring your lab shakers and other devices? What about receiving notifications e.g., for device alarms? A digital, connected lab offers even more.
VisioNize Lab Suite offers everything you need as a lab manager or scientist to get started to digitally manage your lab for increased sample security, compliance needs and maintenance management. Gain access to a modular range of digital services and choose what works for your lab.

Lab Shaker Accessories

Eppendorf offers a wide range of accessories for lab shakers to provide full flexibility for your processes.

Lab shaker platforms

Different lab shaker platforms are available to provide you with the right balance between vessel capacity, vessel type flexibility, handling speed, and regarding necessary shaking speeds:
> Dedicated platforms
> Universal platforms
> Sticky pad platforms

Universal platforms are the best choice when a high degree of vessel type flexibility is needed, e.g. to mix different vessel types and sizes. These platforms come with multiple screwing holes that allow virtually any combination of lab shaker clamps and other accessories. Dedicated platforms are used when just one flask size will be used and high capacity is needed. Dedicated platforms come complete with clamps installed. Adhesive mats called sticky pad can be used as an alternative to clamps for flat bottom vessels. Sticky pads are re-usable and require an anodized aluminum platform for best performance. Thus, sticky pads are compatible with universal platforms of New Brunswick S41i and Innova® S44i. All other shakers require a sticky pad adapter kit for universal platforms or a dedicated sticky pad platform.

Flask clamps for lab shakers

Eppendorf flask clamps for lab shakers are made of a single piece stainless-steel construction (not spot welded or riveted) for added strength and safety. All flask clamps come with coiled wire springs for added safety and stability at higher shaking speeds. Flasks clamps for 2-, 2.8-, 4- and 6 L and higher volumes come with an extra girdle for added security and noise reduction.

Available clamps for lab shakers:
> Erlenmeyer flask clamps (10 mL – 6 L)
> 2.8 L Fernbach flask clamps
> 500 mL and 1 L media bottles
> 450 mL or 600 mL TPP bioreactors
> 2 L Lauber Thomson flask clamps

Test tube racks and microplate racks for lab shakers

Eppendorf offers 18 different racks for various test tubes with diameters between 8 – 30 mm. Racks come with an adjustable angle (to optimize media oxygenation), tube height-support, and are made of stainless-steel with specialized inserts. These inserts help to retain tubes and prevent them from spinning in the shaker rack.

Two different racks for microplates are available: for stacks (three deep-well plates or nine standard plates) or single layers (five plates). In addition, universal lab shaker platforms are also compatible with microplate screening systems like the Duetz System.

Innova® S44i

Description
Do you need a stackable incubator shaker for the highest plasmid or protein yields in a small footprint to quickly reach your ambitious targets? The latest and most advanced incubator shaker from Eppendorf, the Innova S44i, can fit up to twice as many flasks as other shakers in the market and is ready to reliably support current high-yield expression protocols at high speeds, 24/7.

Product features
> **For higher plasmid or protein quantities:** Up to twice as many flasks as other shakers (e.g. 15x/13x 2.5 L UltraYield™ or 39/36x 1 L Erlenmeyer flasks on dedicated/universal platform); 2x/3x stackable
> **Ready for high-speed expression protocols:** Up to 400 rpm (orbit 25 mm/1 in) in all devices of a triple stack
> **True control with touch interface:** All setpoints and current values are visible at a glance; Restrict access to change settings with user management

Applications
> Grow bacteria, yeast, fungus, photosynthetic organisms
> Plasmid DNA production and protein expression
> Process optimization and media development
> Media screening and optimization
> Seed cultures for bioprocess scale-up
> Biofuel research
> Food quality testing

See the video: Innova® S44i fully loaded

www.eppendorf.com/s44i-fully-loaded

Eppendorf X-Drive: The five eccentric mounting points for the shaker platform are precisely engineered to ensure long-lasting, repeatable performance for years to come. The four shafts in the corners and Balance Master Technology support precise vibration-free shaking on every point of the platform, including the periphery.

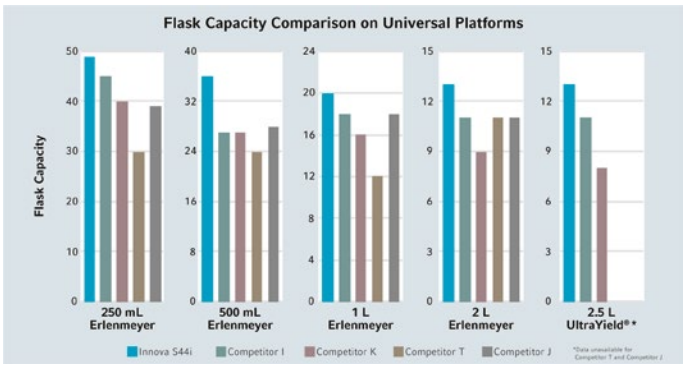

Glide up door: saves lab space and makes cleaning easier

All parameter at a glance

The Innova S44i is also available with a photosynthetic LED light bank for the growth of algae or plant cells.

New Brunswick Innova® 44/44R

Description

Are you looking for a reliable high-capacity stackable incubator shaker? The Innova 44/44R is one of our most popular shakers – its capacity for flasks up to 5 L in volume, the space-saving glide up door, multistep programming, the reliable Innova triple-eccentric drive, and the cost saving potential make it a smart choice.

Product features

> **Applicational flexibility:** Accommodates flasks up to 5 L, sticky pad platform for flat bottom vessels, orbits 25 or 51 mm (1 or 2 in), optional: photosynthetic light bank and humidity monitoring
> **Saves money and lab space:** No internal HEPA-filter that must be replaced annually for optimal performance, 2x/3x stackable in a small footprint
> **Reliable 24/7 with high loads:** Innova triple eccentric counterbalanced drive (three weight-supporting shafts; please do not confuse with "triple counterbalanced" drives that usually come with only one weight support), max. load 26 kg / 57 lb (solid weight test)

New Brunswick Innova® 43/43R

Description

Are you looking for a large-capacity console incubator shaker for easy handling of large shake flasks? Have a look at the Innova 43 which offers peace of mind 24/7 with the famous heavy-duty Innova triple eccentric drive. It also reduces running costs significantly as there is no internal HEPA-filter that requires yearly replacement for optimal performance.

Product features

> **Applicational flexibility:** Accommodates flasks up to 6 L, sticky pad platform for flat bottom vessels, orbits 25 or 51 mm (1 or 2 in), optional: photosynthetic light bank and humidity monitoring
> **Saves money:** No internal HEPA-filter that must be replaced annually for optimal performance
> **Reliable 24/7 with high loads:** Proven and tested Innova triple eccentric counterbalanced drive (three weight-supporting shafts)

New Brunswick Innova® 42/42R

Description
Are you looking for a highly-versatile stackable incubator shaker that comes with Innova reliability? The Innova 42/42R is one of our most popular shakers because of its cleanability, variety of options (like a static cultivation shelf, a culture drawer to protect Agar plates from evaporation, UV germicidal or photosynthetic light), and flexibility of positioning in the lab.

Product features
- **High capacity in a small footprint:** for example, 4x 5 L or 2x 6 L flasks on universal platform; device footprint 4731 cm^2 /733 in^2 (63.5 cm/25 in width, 74.5 cm/29.3 in depth)
- **Ergonomical and safe interface handling:** Top mounted controls and display make bending down unnecessary during handling, avoids accidental parameter changes, and can be reached easily even in a double stack
- **Easy to clean:** Spill diverter and drainable built-in spill pan with rounded corners protect the drive from accidental spills (can be used as a water reservoir to reduce sample evaporation); airflow UV-germicidal light optional

New Brunswick Innova® 40/40R

Description
Do you need a compact benchtop orbital shaker that offers high visibility and quick access to flasks with a volume of up to 3 L? The Innova 40/40R is an easy-to-program orbital shaker that comes with the famous Innova triple eccentric drive to provide 24/7 reliable operation for decades.

Product features
> Triple-eccentric counterbalanced drive in cast iron housing provides vibration and trouble-free operation for years
> Compact benchtop model – fits easily on the bench and holds flasks up to 3 L
> Clear cover allows easy viewing of the cultures and lifts easily to access all samples

Bioprocessing

»Heal, fuel, and feed the World.«

Stephen Sherwin

Bioprocess engineers develop and produce a multitude of products and ingredients available today.
Their applications are diverse, and the products can be found in pharmaceutical, chemical, and nutrition industries. Within those branches, promising new bioprocess approaches, such as cell and gene therapies or stem cell-derived novel food, start gaining momentum and open the door towards a new tomorrow. Stephen Sherwin, former chairman of BIO association put it aptly: "Heal, fuel, and feed the world". Our Eppendorf bioprocess solutions are successfully used in a broad range of industries ranging from applied research to industrial production. By exploiting the strong synergies in bioreactor technology and polymer manufacturing, Eppendorf has emerged as a global player and valuable resource to its customers. With our equipment, training programs, and application services, we support scientists in resolving cultivation bottlenecks from bioprocess development through production. In that way and in line with our corporate mission, we contribute to the efforts of our customers worldwide to improve human living conditions.

Vaccines
Driven by events such as the COVID-19 pandemic and other governmental vaccination programs, there is a rising demand for development of new vaccines. Eppendorf bioprocess equipment helps companies in setting up flexible processes to balance costs and shorten time-to-market. Besides standard impellers, Eppendorf offers specialty impellers which can facilitate perfusion processes: for example, our packed bed impeller. It uses Fibra-Cel® Disks as a solid support material for growth of adherent mammalian, animal, and insect cells, when secreted proteins are desired.

Antibodies/Hormones
Improved cultivation techniques such as perfusion and new possibilities in data handling and automation enhance the development of antibodies, therapeutic proteins, and active ingredients.
Eppendorf offers one of the most scalable and comprehensive single-use portfolios for cell culture applications on the market, for seamless process scale-up from R&D labs to pilot and manufacturing facilities.

From small scale to pilot/production, Eppendorf can provide the bioprocess solution you need.

The SciVario® twin provides full flexibility. With changes in the type of cells or process, the system can easily be adapted to your needs, now and in the future.

The BioFlo® 720 provides a powerful controller with advanced options for pilot/production scale Single-Use processes. Scale Up Assist and Auto Calibrate of DO sensors make it also easy to use!

From Cell and Gene Therapy to Cultured Meat
Currently, we are entering an age where not only cell products but also the cell itself is the product of interest. Cell and gene therapies can facilitate treating diseases like cancer, for example by modulated immune cells or viral vectors that adjust immune responses accordingly. In the same line, stem cell-based technologies are promising approaches for drug discovery and therapy. Moreover, new advances within the stem cell field revolutionize how we will cultivate meat in the future. Our bioprocess solutions enable the controlled cultivation of induced pluripotent stem cells (iPSCs), mesenchymal stem cells (MSCs) and others to help establishing optimal and reproducible conditions for your process development.
Find this and more research examples at
www.eppendorf.com/stem-cell-bioprocessing

Academic Customers
No matter on which research area you are focusing on: We understand that universities and other publicly funded institutes are facing special challenges, such as frequently changing staff and often limited budgets. With flexible hardware and intuitive software tools, Eppendorf bioprocess systems support the various stages of discovery – from understanding a metabolic pathway to developing a commercially viable bioprocess. Specialists from Eppendorf will recommend equipment that meets the user's needs and budget.

SciVario® twin

Description
The SciVario twin is a next-generation bioprocess controller that evolves together with you. In a fast-changing field like the modern biotechnology, working with a system that supports your needs now – and in the future – is indispensable. With an intuitive user-interface and highly innovative hardware and software it enables flexibility for process optimization and a readiness for the digital age.

Product features
> Customizable and flexible thanks to the innovative bay-drawer concept for further extension and reconfiguration
> Integrated digital sensor technology (Mettler Toledo ISM® and Hamilton ARC®), supporting analog sensors for pH and DO and optical DO sensors
> Optional PreSens® optical DO sensor technology for BioBLU Single-Use Bioreactors

Applications
> Research and development in cell culture and microbiology
> Lab scale fermentation of aerobic and anaerobic bacteria, yeasts and other or filamentous fungi
> Cultivation of mammalian and human cell lines
> Media optimization
> Clone and cell line screening, strain characterization

SciVario® twin
0.2 – 3.8 L working volume (autoclavable)
0.25 – 40 L working volume (single-use)

> Variable speed pumps for accurate liquid addition and operation in batch and fed-batch mode
> Wide range TMFC to allow for individual mixing of air, N_2, O_2, and CO_2 to headspace and/or submerged aeration

> Parallel operation of two glass and/or BioBLU Single-Use Bioreactors, in any combination of bioreactor types, that can be run independently or in parallel
> Suitable for cell culture and microbial fermentation

> Compact design, 16-40 cm of benchspace needed per bioreactor
> Cable management guides for a clean and tidy setup

> VisioNize® touch: intuitive and exciting new user interface supporting efficient and intelligent process control
> Compatible with DASware® control software

DASbox® Mini Bioreactor System

DASbox® Mini Bioreactor System
60 – 250 mL working volume (autoclavable)
65 – 250 mL working volume (single-use)

www.eppendorf.com/DASbox

Product features
> 4-fold parallel system expandable to up to 24 vessels
> Suitable for glass and/or BioBLU Single-Use Bioreactors, that can be used in any combination
> Bioreactors can be run independently or in parallel
> Suitable for cell culture and microbial fermentation
> Compact mini bioreactor system: requires only 7 cm (3 inches) bench space per bioreactor
> Optimal tool for DoE and scale down approaches
> Agitation control supporting overhead-driven Rushton, marine-type or pitched blade impellers
> Innovative liquid-free temperature control system needs no cooling agent supply and supports independent temperature control for each bioreactor
> Accurate monitoring and control of pH, DO, and level
> Variable speed pumps for accurate liquid addition and operation in batch, fed-batch, continuous, and cyclic perfusion mode
> Four mass flow controllers per bioreactor allow for individual mixing of air, N_2, O_2, and CO_2 to headspace and/or submerged aeration
> Novel liquid-free Peltier exhaust condenser with easy to handle slide in – slide out activation and deactivation
> DASware® control software for advanced process control
> Compatible with DASware Software Suite for interconnectivity and bioprocess information management

DASGIP® Parallel Bioreactor Systems

DASGIP® Parallel Bioreactor Systems
200 mL – 1.8 L working volume (autoclavable)
250 mL – 1.25 L working volume (single-use)

www.eppendorf.com/DASGIP-Parallel

Product features
> Parallel operation of up to 16 glass or single-use bioreactors
> DASGIP Bioblock for advanced and user-friendly temperature control
> Suitable for cell culture and microbial fermentation
> Modular design of control units allows for flexible system configurations that meet the demands of specific applications
> Control of agitation, pH, level, and DO (including customizable cascade modes) in each bioreactor
> Variable speed pumps for accurate liquid addition and operation in batch, fed-batch, continuous, and cyclic perfusion mode
> Optical absorbance measurement for online calculation of e.g. OD_{600} or cell dry weight
> TMFC individual gas mixing of air, N_2, O_2 and CO_2
> Online calculation of OTR, CTR and RQ
> DASware control software for advanced process control
> Compatible with DASware Software Suite for interconnectivity and bioprocess information management

BioFlo® 120

Product features

> Flexible software platform for universal control of both microbial and cell culture applications
> Auto Culture modes offer process control at the touch of a button
> Compatible with BioBLU® Single-Use Bioreactors for fermentation and cell culture applications
> Precise temperature control provided through interchangeable heat-blanketed or water-jacketed vessels
> High precision thermal mass flow controller (TMFC) for automatic gas flow control
> Automatic gas mix for four independent sparge gas supplies
> Available analog input/output connection for direct integration of accessories (i.e. scales,variable-speed pumps, etc.)
> Integrated Mettler Toledo® Intelligent Sensor Management (ISM) platform
> Compatible with DASware Software Suite or BioCommand for bioprocess information management

BioFlo® 120
0.4 – 10.5 L working volume (autoclavable),
0.4 – 40 L working volume (single-use)

www.eppendorf.com/BioFlo-120

BioFlo® 320

Product features

> Interchangeable autoclavable and BioBLU Single-Use Bioreactors
> Integrated Mettler Toledo Intelligent Sensor Management (ISM) platform
> Control up to eight systems from a single user interface
> Universal control for both microbial and cell culture applications
> Field-upgradable TMFC drawers for sparge and overlay gas
> Enhanced software package with new cascade and time profile features
> Built-in optical pH sensing technology for use with the BioBLU Single-Use Bioreactors
> DeltaV™ compatibility available through DeltaV Discovery and DeltaV ProPlus PAS
> Up to six integrated pumps capable of operating in variable-speed mode
> Eight independently controlled process gas supplies
> Validation packages available for GMP regulated processes
> Compatible with DASware Software Suite or BioCommand for bioprocess information management

BioFlo® 320
0.6 - 10.5 L working volume (autoclavable),
0.4 - 40 L working volume (single-use)

BioFlo®/CelliGen 510

Product features
> SIP bench and pilot scale reactors designed to meet the needs of R&D through production
> Modular design allows for complete system flexibility
> Add or remove components pre- or post-delivery
> Multiple impeller and gas flow options
> Integrated skid design with mobile table option to simplify transport
> Features intuitive RPC control software and touchscreen interface
> Integrated load cell for online vessel volume monitoring
> Fully automated SIP sequence for sterilization
> Flush mounted vessel ports for enhanced vessel design and drainability
> Validation packages available
> 7 additional analog input/output connections for local integration of ancillary equipment
> ASME-rated pressure vessel

www.eppendorf.com/BioFlo-510

BioFlo® 510 and CelliGen 510
Bench- and pilot-scale SIP fermentor and bioreactor
10.75 – 32 L working volume

BioFlo® 610

Product features
> Pilot production system without the traditional cost or footprint
> Modular design allows for complete system flexibility
> Add or remove components pre- or post-delivery
> Multiple impeller and gas flow options
> Integrated mobile skid simplifies transport
> Features intuitive RPC control software and touchscreen interface
> Integrated load cell for online vessel volume monitoring
> Fully automated SIP sequence for sterilization
> Flush mounted vessel ports for enhanced vessel design and drainability
> Validation packages available
> 7 additional analog input/output connections for local integration of ancillary equipment
> ASME-rated pressure vessel

BioFlo® 610
Pilot Scale SIP Fermentor
16 – 100 L Working Volume

BioFlo® Pro

www.eppendorf.com/
BioFlo-Pro

BioFlo® Pro
Large-scale SIP fermentor
45 – 2,400 L working volume

Product features
> Large scale pilot/production system
> Modular design with over a hundred options allows for high level of customization pre and post delivery
> Multiple impeller and gas flow options
> NEMA-4 (IP65) rated control cabinet with industry-standard Allen Bradley® PLC
> Open piping skid allows for easy accessibility
> Fully automated SIP sequence for sterilization
> Clean-in-Place (CIP) options available for vessel and piping
> Flush mounted vessel ports for enhanced vessel design and drainability
> Validation packages available
> ASME-rated pressure vessel

BioFlo® 720

www.eppendorf.com/
BioFlo-720

BioFlo® 720
Pilot- and Large-scale Single-Use bioreactor
50 – 2,000 L Working Volume

Product features
> Compatible with Thermo Scientific™ HyPerforma™ 5:1 bioreactors from 50 L to 2,000 L
> High performance Mass Flow Controllers capable of up to 500:1 turn-down allowing multiple vessel sizes to be run from the same controller
> Suitable for analog & digital sensors (Mettler-Toledo® ISM and Hamilton® ARC)
> Available with dual sparge, overlay and CO_2 stripping options
> Field-upgradeable options for future expansion of the system
> Documentation packages available to help qualify the system for use in cGMP environments[1)]
> Intuitive software tools such as Auto Calibrate and Auto Inflate reduce preparation time, maximizing system efficiency
> Integrated Scale Up Assist software simplifies the workflow and calculations necessary to scale up and scale down
> Flexible choices for SUBs and Bioprocess Containers (BPCs)
> Mobile enclosure with a small footprint (0.7 m^2/7.55 sq ft) fitting through a standard lab door
> Watson-Marlow peristaltic pumps for flow rates in a range of 1.2 mL/min - 3.3 L/min

[1)] BioFlo 720 is not a medical device as defined by the Food and Drug Administration or other regulatory authorities.

BioBLU® Single-Use Bioreactors – Dependability through Proven Design

Single-use simplicity
With renowned polymer expertise, Eppendorf is proud to offer the largest portfolio of rigid walled stirred-tank single-use bioreactors – in small and bench scale, to be operated with parallel DASbox Mini Bioreactor System, DASGIP Parallel Bioreactor Systems, SciVario twin or BioFlo bench-scale systems.

BioBLU c Single-Use Bioreactors for cell culture applications
Single-use solutions for small and bench scale cell culture applications. A full portfolio of vessels covers a working volume range of 100 mL – 40 L, offering unmatched scalability. The single-layer polymer design mitigates issues related to leachables and extractables.

BioBLU 5p Single-Use Bioreactor with packed bed
For the cultivation of adherent cells and for perfusion processes we offer the BioBLU 5p packed-bed bioreactor. It utilizes the proprietary Eppendorf packed-bed impeller design and is pre-loaded with Fibra-Cel® disks. Providing a shear-free environment, it is a premium choice in a wide variety of applications, including the production of secreted products and stem cell culture.

BioBLU f Single-Use Bioreactors for microbial applications
Single-use solutions for small and bench scale fermentation applications, covering a working volume range of 65 mL – 3.75 L. Fermentation processes have high mass transfer and heat removal requirements. Proven stirred-tank design, powerful overhead drives featuring Rushton-type impellers, and effective cooling make it possible for the BioBLU f Bioreactors to achieve these demands.

Want to know more about BioBLU Single-Use Bioreactors?
If you want to know more about our Single-Use bioreactor offering, follow the links to the cell culture or microbiology vessels below and find the brochures, application notes, and publications.

Eppendorf Bioprocess Software – Much More Than Just Bioprocess Control

Eppendorf offers BioCommand and DASware control Supervisory Control and Data Acquisition (SCADA) software packages for advanced bioprocess control. The comprehensive DASware software suite provides next-generation bioprocess management.

DASware software suite
Next-generation bioprocess management
A suite of smart and flexible software solutions to accelerate bioprocess development, with DASware control for parallel bioprocess control. The DASware licences enable interconnectivity of bioreactors with external lab-devices, Design of Experiments (DoE), and integration into process control systems.

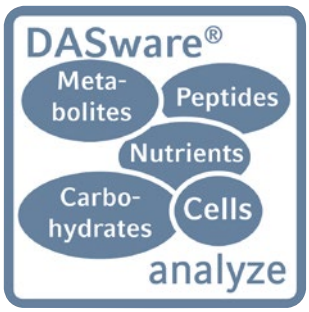

DASware control
> Advanced process monitoring, control, and data logging - for parallel cultivation with individual control of each bioreactor

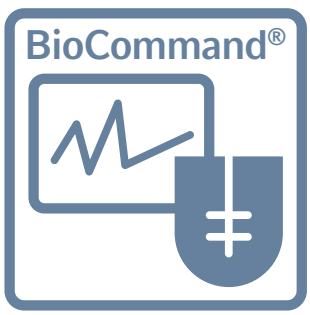

DASware connect
> Integration into process control systems and legacy corporate historians facilitating company-wide access to all relevant bioprocess data

DASware design
> Applies the Design of Experiments (DoE) concept via a full factorial DoE builder or by importing DoE designs from third-party DoE tools

DASware analyze
> Seamless integration of external lab devices to the bioreactor allows for process automation and feedback control loops

BioCommand software
> The ability to monitor, control, and log data from your fermentation and cell culture processes. Three distinct packages provide the tools needed for research, optimization, and if needed, the security and audit trails to support your regulatory requirements.

Service Products

Supporting You for Over 75 Years

Eppendorf Services
Eppendorf began in 1945 as a medical instrument repair workshop on the grounds of the University Hospital Eppendorf in Hamburg, Germany. Today, more than 500 factory-trained and certified service specialists across the world provide in-house or on-site service solutions, ensuring the uptime you need and can rely on, increasing your peace of mind in terms of complying to regulatory requirements, and the quality and safety of your results.

Application and Training Services
Keep pace with new trends, methods and technologies by receiving training and application support from our global team of scientific product and application specialists. Acquire basic knowledge, or develop more advanced skills needed for your workflows and routine maintenance within scientific research, healthcare and industry.

Our dedicated Applications and Technical Service teams are here to support you!

Get all information about the Eppendorf epServices portfolio!
www.eppendorf.com/epServices

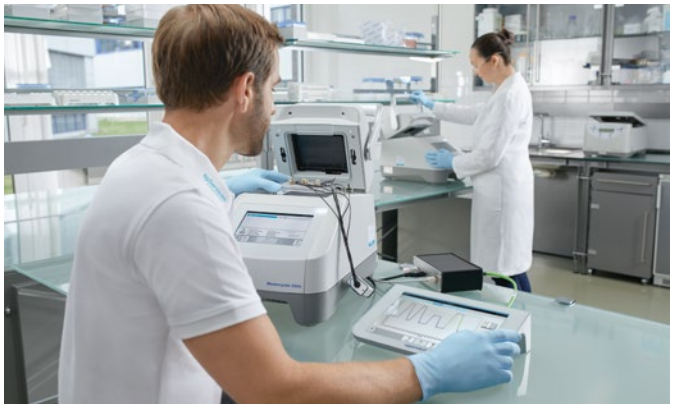

Your Needs - Our Solutions

From service agreements to on-demand services - You choose the best suit your uptime requirements and budgetary needs, while meeting national and international compliance to corresponding norms and regulations.

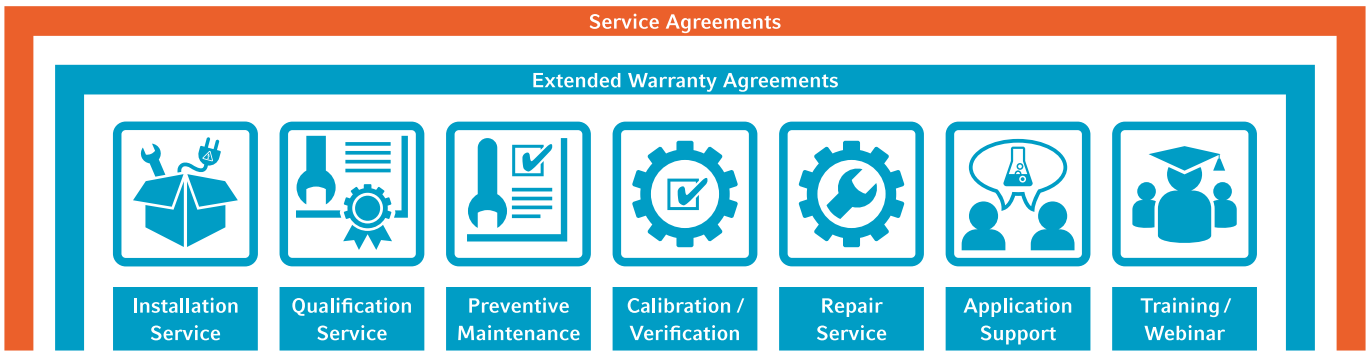

We take care of your equipment during their full life cycle of your lab, while you can fully concentrate on achieving the reliable results you are looking for with your research and routine lab work.

Pipette Service Done Right
Since we released the first piston stroke pipette in 1961, we continue to manufacture and service pipettes with a passion for impoving user results. Our highly qualified technicians go through an intensive training and must pass rigorous exams to become certified before servicing pipettes. We maintain over 5000 pipette manufacturer specifications and conform to the manufacturer standard when their specifications are tighter than ISO 8655 standards, if requested. In our major markets, ISO 17025 accredited calibration processes are available. As your liquid handling expert partner, we can help you meet your regulatory needs.

Your Instruments - Our Services
How much effort does it cost you to take good care of your lab instruments to ensure valuable uptime, and prove that they are delivering reproducible results? For your peace of mind, we offer a comprehensive service portfolio, so you can be assured of reliable and optimal working equipment in compliance with regulatory requirements. Trust in Eppendorf as your service partner.

Simplify Your Service Processes

We accompany you every step of the way - from the installation and maintenance of your lab instrument or software to the support for your quality and regulatory audits.

Choose from the following service options:
> Service agreements from cost-efficient to all-inclusive care packages for an easy service process
> On-demand service solutions for individual service needs

Our Service Agreements - Your Advantages
With our basket of Service Agreement solutions we take the load off your shoulders by simplifying your ordering and budgeting process for various services saving you costs by:
> Assuring continuous productivity
> Maintenance for a long service life
> Including repair costs - fully or partially
> Discounting on additional services

Benefit from assured premium performance for your peace of mind!

Eppendorf Service Agreements

Services Agreement	AdvancedCare For assured instrument reliability and uptime	PremiumCare For assured instrument reliability, uptime and financial plannability
Full preventive maintenance	1/year	1/year
Software update (during annual maintenance, if applicable)	■	■
Priority support[1)]	■	■
Parts, labor, travel on repairs	20 % discount	included
Discount on additional services (e.g. IQ/OQ)	10 %	10 %

[1)] Subject to local business conditions, and based on a "best effort" practise. For more information please contact your local service organization.

Extended Warranty Agreements

For your peace of mind, we offer Extended Warranty agreements covering all repair costs and optional maintenance after the standard warranty period.

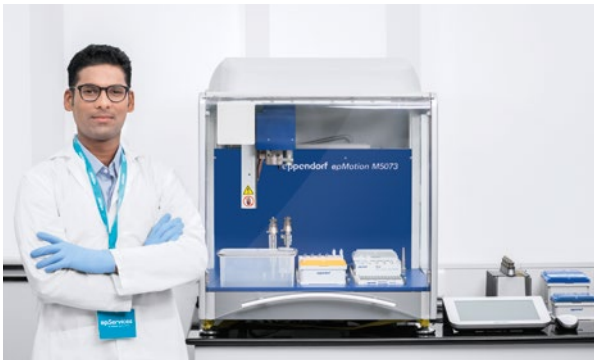

Services Agreement	**Extended Warranty** Purchased one time within the standard warranty period. Valid for one year following the standard warranty period.	**Extended Warranty plus** Purchased within the standard warranty period. Valid following the standard warranty period.
Full preventive maintenance	–	1/year
Software update (during annual maintenance, if applicable)	–	■
Priority support[1)]	■	■
Parts, labor, travel included on repairs	■	■
Discount on additional services (e.g. IQ/OQ)	–	10 %

[1)] Subject to local business conditions, and based on a "best effort" practise. For more information please contact your local service organization.

Installation Service

The installation of your Eppendorf instrument and software will be performed by our manufacturer trained and experienced service technicians.
They will support you with the correct instrument settings in your environment, and will provide the initial operational instructions.

Qualification Services

Installation Qualification and Operational Qualification Services GxP compliant
Are you working in a regulated environment? We now offer specifically created and revised Installation Qualification and Operational Qualification services including GxP compliant documentation. These documents support the complex GxP standards and regulations reducing your administrative workload, and provide you with qualified assurance that your instrument is installed and is operating in accordance with manufacturers' specifications.

Be prepared for your internal and external audits with our GxP supporting documentation!

Installation Qualification & Operational Qualification Services	IQ/OQ GxP	OQ GxP
Check of delivery status, and installation environment	■	
Installation incl. configuration and functional checks	■	
Detailed IQ report	■	
Test of alarm functions	■	■
Verification of instrument parameters (e.g. temperature, speed)	■	■
Detailed OQ report	■	■
Handling of deviation list	■	■
Signed approval by customer and service technician	■	■

Maintenance Services

Preventive Maintenance Services
How much do you rely on keeping your instrument in good working order? Our professional cleaning and maintenance services are aimed at the prevention of unexpected downtimes and failures by early detection of problems. Keeping your instrument in perfect working order will not only extend their service life, but also increase your productivity.

Services include:
> Cleaning (external and internal)
> Maintenance
> Exchange of wear and tear parts
> Comprehensive functional check
> Software updates
> Evaluation of stored data
> Documentation
> Dated service sticker to confirm Eppendorf Service

Ensure reliability and save your resources!

Calibration Services

Calibration and Verification Services
Assuring the precision and accuracy of your instrument is maintained according to specifications is your first step to reliable results.

Eppendorf offers calibration, verification and adjustment services for:
> epMotion® 5073/5075 (temperature, speed)
> Centrifuges (time, speed, temperature)
> Thermocycler (temperature)
> Biological Shaker (speed, temperature)
> CO_2 Incubator (temperature, $C0_2$, O_2, rH)
> ULT Freezer (temperature)
> Photometry (wavelength, temperature i.a.)
> Temperature control- & Mixing instruments (i.a. temperature)

Repair Service

For the most productive long life and highest uptime of your Eppendorf instrument, we can provide complete and thorough technical support. Our qualified service staff ensure timely and accurate resolutions are provided with professional guidance and care worldwide. For any technical support please contact your local service organization.

Application Support

You can expect the highest standards of support for your products and applications from Eppendorf. Our highly trained scientific support staff is available in all time zones to assist you with any questions concerning our products.

Training & Webinar

The Eppendorf Training Center has been providing high-quality webinars and training courses since 1997 at various locations and in several languages. Contents are constantly being updated to always include the latest insights into the scientific fields. We work with small groups to ensure optimal attention and sufficient hands-on time for our participants.

Pipette Calibration Service

Preventive Maintenance, Calibration and Adjustment Services
Pipettes are precision instruments with parts subject to normal wear and tear leading to imprecision over the time. Therefore, regular maintenance and calibration are fundamental to their precision and accuracy. Calibration services performed by highly trained and certified Eppendorf Calibration Service Technicians build the foundation of your reliable and reproducible results with your downstream applications.

Our newly, clearly designed calibration service portfolio includes a thorough check of the pipette internally and externally, ensuring that wearable parts like O-rings are replaced in a timely manner.

We offer a range of transparent and modular service options

> We maintain every pipette's conformity according to ISO 8655
> ISO 17025 accredited certification in 19 countries

ISO 8655
ISO 8655 lays out the standard criteria by which a pipette should be calibrated and what error limits should be used at each volume. ISO 8655 criteria includes measurements at 3 volumes, 10 measurements at each volume, and controls for room environment.

Manufacturer Standard
In addition to ISO 8655 specifications, many manufacturers make pipettes that work within a tighter set of error limits than required by ISO 8655. It is important to calibrate using manufacturer error limits to ensure the pipette works according to manufacturer specifications.

ISO 17025
The ISO 17025 accreditation ensures the high level of competence and compliance with strict quality rules. ISO 17025 criteria include a traceability chain for measurement equipment, measurement uncertainty values, and approved quality standards.

We ensure our stringent and validated procedures are followed to the highest standards possible, for Eppendorf and other brand pipettes.

epMotion® 96 Service

epMotion 96 Service
The Eppendorf epMotion 96 is a semi-automated electronic pipette system for fast and precise parallel 96-channel microplate processing. The reliability of the electronic parallel pipetting system movement is the prerequisite for high precision and reproducibility of the results across the whole 96- or 384- well plate. Maintaining and verifying your system´s accuracy and precision on a regular basis is highly recommended to make sure your system still dispenses according to the specification.

Preventive Maintenance services include:
> Cleaning and lubrication of dispensing head
> Checking and exchanging of 96 O-rings from cones
> Software/firmware update if applicable
> Leak Test (50 µL + 300 µL)
> Calibration according to ISO 23783
> Service check list
> Dated service sticker to confirm Eppendorf Service
> Calibration Report

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. volume)
> Detailed IQ/OQ report
> Handling of deviation list/management
> Signed approval by customer and service technician

96 × confidence by verified performance!

epMotion® Service

epMotion Service
epMotion and its dispensing tools are precision instruments. As such, they should be regularly maintained and calibrated to ensure continuing high accuracy, precision and reproducibility.

Preventive Maintenance services include:
> Cleaning (external and internal)
> Maintenance, instrument calibration software update
> Exchange of CAN bus cables/O-rings of dispensing tools
> Comprehensive functional check
> Evaluation of stored data
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. temperature, vacuum, speed, volume)
> Detailed IQ/OQ report
> Handling of deviation list/management
> Signed approval by customer and service technician

Calibration services for dispensing tools
How do you know that your experimental data are correct?
Your first step to reliable results is to ensure your dispensing tools are calibrated according to ISO 23783, assuring the:

> Accuracy and precision of the dispensing tool
> Reproducibility of the dispensed volumes
> Optimization of sample yields

Keep your process in *motion* with regular maintenance and calibration services!

epMotion® Application Implementation

Automated Pipetting – Difficult Application?
Are you having trouble with a protocol or are not sure how to optimize your automated application? We are happy to advise and assist you with your application. Eppendorf offers various application support services for epMotion users with low to high throughput experiments. Our network of highly skilled and extensively trained In-Field Automation Specialists are available for comprehensive application training and support after installation of your epMotion as well as during the setup of your own advanced methods.

Application Implementation
Eppendorf will provide the on-site support to program your epMotion methods for a single application as well as optimize all liquid classes needed for the application to the best of the instrument's capability. An initial in-house feasibility test is performed. Upon completion of the method on the customer's epMotion, the application will be approved by the user. Optimization to the maximum level of performance!

For your next level of performance!

Your advantages
> Well trained Application Specialist will get you started with your methods in less time than without professional help
> Approved reliability of your programmed method
> Shortening your protocol setup times and reducing your personel costs
> Reducing waste of valuable samples
> Improving productivity with optimized utilization of the deck capacities and the operation of the system

Centrifuge Service

Centrifuge Service
Regular service of centrifuges and rotors in either an operational or a disassembled state ensures a safe working environment. Functional inspections assure that all manufacturer specifications are met.

Preventive Maintenance services include:
> Cleaning of external and internal parts
> Checking of
  > stability, housing, lid latch, display and keypad
  > temperature sensors and speed sensor
  > rotor and imbalance detection
> Software update, if required
> System test run
> Evaluation of stored data
> Service check list
> Dated service sticker to confirm Eppendorf Service

Relax while your samples are spinning safely!

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (temperature, speed)
> Detailed IQ/OQ report
> Handling of deviation list/management
> Signed approval by customer and service technician

Rotor Assurance Plans
Rotors and buckets are subject to normal wear and tear during regular operation. Microscopic cracks can be detected early during a qualified inspection, which will allow the rotor to be exchanged before serious damage has occurred. If none or very few surface changes are identified, the rotor can be used according to instructions.

Himac High-Speed Floorstanding and Ultracentrifuges Service

Himac High-Speed Floorstanding and Ultracentrifuges Service
Your Himac centrifuges are now supported by Eppendorf. Our qualified staff ensures timely and accurate solutions are provided with professional guidance and care. Maintain and qualify your laboratory instruments on a regular basis with our service agreement options and on-demand services for many years of productive and reliable operation. See page 140 for more detailed information.

Preventive Maintenance services include:
> Cleaning of external and internal parts
> Checking of
  > stability, housing, lid latch, display and keypad
  > temperature sensors and speed sensor
  > rotor and imbalance detection
> Software update, if required
> System test run
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (temperature, speed)
> Detailed IQ/OQ report
> Handling of deviation list/management
> Signed approval by customer and service technician

Save time by ensuring uptime and reproducible results!

Mastercycler® Service

Mastercycler Service
Your cycler should be regularly maintained, and followed by a temperature verification. The exact adherence to defined temperatures is crucial for reproducible results.

Preventive Maintenance services include:
> Cleaning of external and internal parts
> Checking of
  > housing, accessories and internal parts
  > electrical connection (incl. mains power)
  > LED, display and keyboard, touchscreen
  > USB-interface
  > thermoblock
  > heated lid
  > fan(s)
> Software update if required
> Verification of temperature
> Evaluation of stored data
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. temperature)
> Detailed IQ/OQ report
> Handling of deviation list/management
> Signed approval by customer and service technician

Temperature verification services
Temperature verification of selected well positions and adjustment of the cycler block temperature if necessary is highly recommended to assure instrument consistency and accuracy. The temperature verification from Eppendorf is a very accurate and precise method, meeting all documentation and detection requirements in the lab.

Keep operating – with absolute confidence

Temperature Control and Mixing Service

Temperature Control and Mixing Service
Slight deviations in temperature and mixing frequency of your samples can affect their reaction conditions leading to non-reproducible results. To guarantee you the precise function of the instrument we offer manufacturer designed maintenance and qualification services.

Preventive Maintenance services include:
> Cleaning of housing, accessories, internal parts
> Checking of
  > housing, plate holder, accessories, internal parts
  > electrical connection
> Function checking of
  > LED, display and keyboard
  > vortex sensor
  > overload protection
  > detection of ThermoTop, SmartBlock, thermoblock
  > mixing, heating, cooling, vortexing
  > fans
> Evaluation of stored data
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. heating, cooling, mixing, vortexing, timer)
> Detailed IQ/OQ report
> Handling of deviation list/management
> Signed approval by customer and service technician

Temperature Verification
Temperature verification of selected well positions is highly recommended to assure instrument consistency and accuracy.

Care for your samples with our mix of services!

ULT Freezer Service

ULT Freezer Service
Reliable and efficient performance can be expected for years of smooth operation from any of our ULT Freezers. Our services are designed to check, validate, and promote reliable freezer performance according to specifications.

Preventive Maintenance services include:
> Cleaning and inspection of air filter, heated vent/condenser
> Checking of
  > environment, electrical supply and fittings
  > CO_2 /LN_2 backup system
  > independent temperature monitoring system
  > compressor operating temperature
  > condition and function of inner door/lids, cooling fan
  > motor, bearings, blades, insulation, accessible cooling
  > circuit pipes, and accessible electrical wiring
> Operation of
  > freezer lid gas strut (chest freezer)
  > display and function keys
  > chamber temperature sensors and alarm
  > RS232/RS485 communication port
> Alignment of door handle/sealing of outer door (upright freezer)
> Verification and adjustment of operating parameters
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. temperature)
> Basic IQ/OQ report

Protect your priceless samples!

How to protect precious samples in your Eppendorf ULT freezer:

www.eppendorf.com/epServices-freezer-video

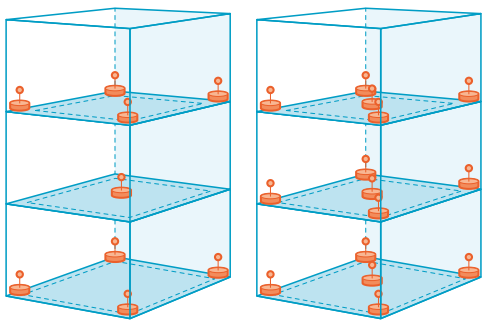

ULT Freezer Service

Multi-Temperature Mapping for Ultra-Low Temperature Upright Freezer
Regular verification with the help of an external, calibrated multi-channel temperature verification system inside your ULT freezer provides you with security of reliable long-term sample storage.

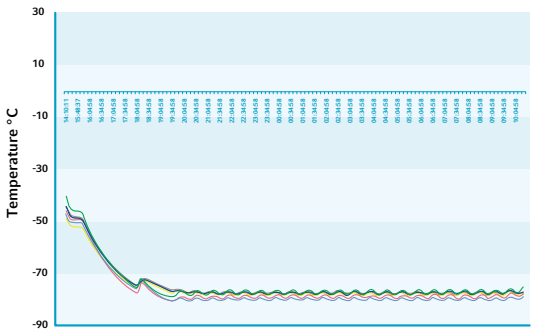

Our factory-trained and certified service technician will perform an on-site temperature mapping study including a full report stating:

> Minimum, maximum and average temperature of each location
> Full log of raw data of each measurement
> Temperature profile graphic for duration of measuring period
> All relevant calibration certificates

Norms, standards and best practices such as ISPE-Controlled Temperature Chamber Mapping and Monitoring, IEC 60068 - Environmental testing, or Vaisala – 5 Rules of Sensor Placement in Validation/Mapping Applications recommend a temperature mapping of 9 or 15 probes after installation, and subsequently every two years, or when changes are made to the system.

A probe holder system (9 and 15 probes) is used to ensure comparable results between different measurements and units

Example of a Multi-Temperature Mapping with 9 probes inside an ULT upright freezer

Your advantages

> 24 hours, 365 days a year reliable storage for temperature-sensitive samples
> Comparable annual temperature distribution results in one or multiple freezers
> Audit proof documentation

This service is only available in selected countries. Please contact your local Eppendorf service organization for further information.

CO_2 Incubator Service

CO_2 Incubator Service
CO_2 incubators feature complex, dynamic control systems to maintain user-defined culturing parameters for optimized cell growth and proliferation. To ensure reproducible results and to protect your precious cultures from undesirable variables, we check and validate your incubator performance.

Preventive Maintenance services include:
> Checking of
  > installation environment
  > electrical/gas supply and fittings
  > door seals and door hinges
  > all chamber gas, temperature, humidity sensors
  > security of incubator shelf and racking systems
  > sensor covers
  > humidity trays
  > wiring system, PCB's, display, and controller
> Testing of alarm functions
> Replace in-line gas filter(s) and auto-zero filter
> Validation/adjustment of operating parameters within specifications
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification service include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. temperature, CO_2, speed, alarm)
> Basic IQ/OQ report

For CellXpert®:
> Detailed IQ/OQ report
> Handling of deviation list/management
> Signed approval by customer and service technician

Our service culture for peace of mind!

S41i Incubator Shaker Service

S41i Incubator Shaker Service
The versatility of the S41i Incubator Shaker supports simultaneous culture of adherent and suspension cultures. The smallest deviations in the culturing environment can result in undesirable outcomes. To ensure reproducible results and to protect your precious cultures from undesirable variables, we offer a range of maintenance and qualification services.

Preventive Maintenance services include
> Checking of
  > electrical/gas supply and fittings
  > chamber CO_2, temperature sensors
  > security of shaker platform(s) and flask holders
  > security of incubator shelf and racking systems
  > humidity trays
  > shaker drive belt
  > platform support boot seals
> Replace
  > in-line CO_2 filter and auto-zero filter
> Validation/adjustment of operating parameters within specifications
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. temperature, CO_2, speed, alarm)
> Basic IQ/OQ report

Achieve reliable culturing results with optimized performance of incubating and shaking systems!

How to clean your incubator:

www.eppendorf.com/epServices-incubator

Technical specifications subject to change.

Biological Shaker Service

Biological Shaker Service
Biological shakers are required to be in continuous use for years. Small and short term variations in shaker operation can influence culturing outcomes, with negative effects on yields and/or cell expression. Ensure consistent, reliable shaker performance with our shaker services.

Preventive Maintenance services include:
> Cleaning of condenser
> Lubricate non-sealed shaker bearings, as appropriate
> Checking of
  > installation environment
  > electrical/gas supply and fittings
  > any door/lid open sensors
  > security of doors/lids, handles, door struts and hinges
  > security of shaker mechanism
  > shaker drive motor, and circulation fan
  > shaker drive belt; adjust belt tension as necessary
> Validation/adjustment of operating parameters within specifications
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. rpm, temperature, alarms)
> Detailed IQ/OQ report
> Handling of deviation list/management
> Signed approval by customer and service technician

Care for your shaker – optimize your cultures!

Photometry Service

Photometry Service
To optimize photometric and fluorometric precision, accuracy, and linearity, your instrument should be routinely checked and adjusted by a qualified Eppendorf Service Technician.

Preventive Maintenance services include:
> Cleaning of housing and cuvette shaft
> Checking of
  > housing (incl. stability) and cuvette shaft
  > internal parts, light path, keyboard, display
  > printer output and USB port
> Software update
> Setting number of flashes
> dsDNA Test - 260 nm (Biophotometer plus)
> Self Test (Biospectrometer/Biophotometer D30)
> Photometer Test (wavelength systematic error/precision and photometric accuracy/fluorescence)
> Temperature verification/adjustment
> Evaluation of stored data
> Service check list
> Dated service sticker to confirm Eppendorf Service

Qualification services include:
> Checking of
  > delivery status, and environment
  > installation incl. configuration and functions
> Testing of alarm functions
> Verification of instrument parameters (e.g. wavelength, temperature)
> Detailed IQ/OQ report

Stay tuned to the right wavelength!

Photometer Test
You are also able to verify photometric and wavelength accuracy and the respective precision using the Secondary UV-VIS Filter Set. In the event your instrument does not conform to specifications, you must have it checked and properly adjusted by a trained service technician. The filter sets themselves must be inspected every two years as their spectral properties can change over time. Your filter set must be tested, maintained and certified directly by the manufacturer at Eppendorf's plant.

Check how to clean and maintain your Eppendorf µCuvette

www.eppendorf.com/epServices-Cuvette

Bioprocess Service

Bioprocess Performance Plans
Bioprocess systems include several sophisticated technologies. Peak performance requires smooth interplay of the subsystems and fully functioning consumable parts. Regular maintenance by qualified engineers helps to ensure reliable operation, while deferring it can cause unreliable results, expensive repairs, and prolonged downtime. Eppendorf Bioprocess Performance Plans help you to maintain the optimal performance of your equipment over years of frequent use.

Download the bioprocess catalog

www.eppendorf.com/catalog

You will find details and ordering information for all Bioprocess Performance Plans in the Bioprocess Catalog 2022/2023!

Order Numbers for Different Mains Voltage Versions

The following products are available in the listed mains voltage versions. For mains voltage versions for which no separate order number is listed, the valid order numbers are also those listed in the first column or in the product description. The versions marked n.a. are not available. Order-related production is marked with *

Centrifuges and Rotors

Power supply	India, MEA, SEA	Malaysia, Brunei, Singapore GB plug, IVD version
Centrifuge 5910 Ri, refrigerated, without rotor	5943 000 011	5943 000 068
Centrifuge 5910 Ri, refrigerated, with Rotor FA-6x50	5943 000 149	5943 000 157
Centrifuge 5910 Ri, refrigerated, with Rotor S-4x750, incl. round buckets and adapters for 5 mL/15 mL/50 mL conical tubes	5943 000 516	5943 000 564
Centrifuge 5910 Ri, refrigerated, with Rotor S-4xUniversal, incl. universal buckets and adapters for 5 mL/15 mL/50 mL conical tubes and plates	5943 000 316	5943 000 368
Centrifuge 5910 Ri, refrigerated, with Rotor S-4xUniversal, incl. universal buckets and adapters for 5 mL/15 mL/50 mL conical tubes, 175 – 250 mL bottles and plates	5943 000 216	5943 000 262
Centrifuge 5910 Ri, refrigerated, with Rotor S-4xUniversal, incl. universal buckets, adapters for 1000 mL bottles and 1000 mL bottles	5943 000 173	5943 000 181
Centrifuge 5910 Ri, refrigerated, with Rotor S-4xUniversal, incl. universal buckets, adapters for 5 mL/15 mL/50 mL conical tubes and plates, adapters for 175 - 250 mL and 1000 mL bottles and 1000 mL bottles	5943 000 904	5943 000 912
Centrifuge 5920 R, refrigerated, without rotor	5948 000 010	5948 000 069
Centrifuge 5920 R, keypad, refrigerated, with Rotor S-4xUniversal-Large, incl. universal buckets and adapters for 5 mL/15 mL/25 mL/50 mL conical tubes and plates	5948 000 911	5948 000 964
Centrifuge 5920 R, keypad, refrigerated, with Rotor S-4xUniversal-Large, incl. universal buckets and adapters for round-bottom tubes with diameter 13/16 mm	5948 000 810	5948 000 867
Centrifuge 5920 R, keypad, refrigerated, with Rotor S-4x1000, incl. high-capacity buckets and adapters for 15 mL/50 mL conical tubes	5948 000 210	5948 000 263
Centrifuge 5920 R, keypad, refrigerated, with Rotor S-4x1000, incl. plate/tube buckets and adapters for 15 mL/50 mL conical tubes	5948 000 410	5948 000 468
Centrifuge 5920 R, keypad, refrigerated, with Rotor S-4x1000, incl. round buckets and adapters for 15 mL/50 mL conical tubes	5948 000 315	5948 000 360
Centrifuge 5920 R, keypad, refrigerated, High-Throughput Screening Solution, with Rotor S-4x1000, incl. plate/tube bucket and plate carrier	5948 000 174	
Concentrator plus basic device, w/o pump, with Rotor F-45-48-11	5305 000 100	5305 000 169
Concentrator plus complete system, with integrated diaphragm vacuum pump, with Rotor F-45-48-11	5305 000 304	5305 000 363
Concentrator plus complete system, with integrated diaphragm vacuum pump, without rotor	5305 000 509	5305 000 568
Concentrator plus complete system, with integrated diaphragm vacuum pump, with connection, e.g., for a gel dryer, without rotor	5305 000 703	5305 000 762

For specific intended purposes or certain applications (e.g. IVD workflows) please contact your local Eppendorf sales and service organization to identify the appropriate device for you!
