| <b>ReservoirRack</b> , for presenting 10 mL, 30 mL and 100 mL reagent reservoirs. Up to 7 reservoirs or Reservoir Rack modules can be presented.                                                                                                                                                                                          |
| <b>Adapter sleeves</b> , to retrofit the 1.5/2.0 mL thermoracks for use with 0.5 mL vessels, 25 pcs.                                                                                                                                                                                                                                      |
| <b>CleanCap upgrade set</b> , UV lamp and HEPA filter system for decontamination and pipetting under clean air conditions, for upgrading an epMotion 5073 (SN>7000) with epBlue version >40.7, optionally available                                                                                                                       |
| <b>Gripper Tower</b> , enables positioning epT.I.P.S.® Motion Reload trays in the parking position of the gripper and holds the gripper when it is not in use; only for use with ep <i>Motion</i> ® 5073 as of serial number 6000                                                                                                         |
| <b>Tip Tool</b> , tool for exclusively transferring epT.I.P.S.® Motion from racks and trays to the ReservoirRack modules for tips, incl. wall mount for safe storage of the tool                                                                                                                                                          |
| <b>Reservoir Rack Module NGS</b> , for use with ep <i>Motion</i> ® ReservoirRacks, for distributing samples and reagents for NGS-specific applications, space for 20 x ILMN tubes, 4 x Eppendorf Tubes® 5.0 mL, 4 x Eppendorf Tubes 1.5 mL                                                                                                |
| <b>Reservoir Rack Module PCR</b> , for use with ep <i>Motion</i> ® ReservoirRacks, for distributing samples and reagents for PCR, space for 48 x PCR tubes 0.2 mL incl. 2 x strip adapters 0.2 mL, (alternatively, space sufficient for 16 index tubes and up to 32 x PCR tubes 0.2 mL), 12 x Eppendorf Tubes 1.5/2.0 mL, 1 x tube 5.0 mL |
| <b>Reservoir Rack Module Tips</b> , for use with ep <i>Motion</i> ® ReservoirRacks, for providing up to 16 epT.I.P.S.® Motion per module and up to 7 modules per ReservoirRack (112 tips in total), set consisting of 7 modules                                                                                                           |
| <b>TipHolder</b> , for epT.I.P.S.® Motion Reloads                                                                                                                                                                                                                                                                                         |
| <b>TipHolder 73</b> , enables positioning epT.I.P.S.® Motion Reload trays above a rack of epT.I.P.S.® Motion and thus doubles the tip capacity in an ANSI/SLAS position reusable and autoclavable, epBlue 40.7 or higher required                                                                                                         |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 8 x PCR tubes 0.2 mL                                                                                                                                                                                                                           |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 4 x Safe-Lock tubes 0.5/1.5/2.0 mL                                                                                                                                                                                                             |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 4 x Eppendorf Tubes® 5.0 mL                                                                                                                                                                                                                    |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 4 x reaction vessels Ø 12 mm                                                                                                                                                                                                                   |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 4 x reaction vessels Ø 16 mm                                                                                                                                                                                                                   |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 4 x reaction vessels Ø 17 mm                                                                                                                                                                                                                   |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 2 x reaction vessels Ø 29 mm                                                                                                                                                                                                                   |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 1 x reservoir 10 mL                                                                                                                                                                                                                            |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 1 x reservoir 30 mL                                                                                                                                                                                                                            |
| <b>ReservoirRack Module TC</b> , for use in ep <i>Motion</i> ® ReservoirRacks, temperable, 1 x reservoir 100 mL                                                                                                                                                                                                                           |
| <b>ep<i>Motion</i>® reservoir 10 mL</b> , small-volume container for reagent presentation on the ep <i>Motion</i> ®, can only be inserted with the Reservoir Rack; production batch testing, certified, 10 mL, PCR clean, 10 x 5 reservoirs in the bag, polypropylene (PP)                                                                |
| <b>ep<i>Motion</i>® reservoir 30 mL</b> , large-volume container for reagent presentation on the ep <i>Motion</i> ®, can only be inserted with the Reservoir Rack; production batch testing, certified, 30 mL, PCR clean, 10 x 5 reservoirs in the bag, polypropylene (PP)                                                                |
| <b>ep<i>Motion</i>® reservoir 100 mL</b> , large-volume container for reagent presentation on the ep <i>Motion</i> ®, can only be inserted with the Reservoir Rack; production batch testing, certified, 100 mL, PCR clean, 10 x 5 reservoirs in the bag, polypropylene (PP)                                                              |
| <b>ep<i>Motion</i>® reservoir 400 mL</b> , large-volume container for reagent presentation on the ep <i>Motion</i> ®; production batch testing, certified, 400 mL, PCR clean, 400 mL, 10 reservoirs, PCR clean, autoclavable, polypropylene, polypropylene (PP)                                                                           |
| <b>ep<i>Motion</i>® reservoir 195 mL</b> , low dead volume reservoir, single well with 96 cavities, PCR clean, 4 x 5 reservoirs, 195 mL, polypropylene (PP)                                                                                                                                                                               |

|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Thermorack CB</b> , for up to 384 × 0.1 mL strip tubes in the Qiagen® Rotor-Gene®                                                                                                          |
| <b>Eppendorf Magnum FLX® Magnet Adapter</b> , universal ring magnet plate for rapid magnetic bead separation. Supports most 96-well plates (standard, PCR, deepwell)                          |
| <b>Thermorack Rotor/Tubes</b> , for temperature controlled pipetting of Qiagen® Rotor-Disc® 72/100 and 20 tubes 1.5/2.0 mL                                                                    |
| <b>Thermoadapter for PCR</b> , for temperature control of PCR plates, 96 wells, skirted                                                                                                       |
| <b>Thermoadapter for PCR</b> , for temperature control of PCR plates, 384 wells, skirted                                                                                                      |
| <b>Thermoadapter for Microplate 96/V/U</b> , for holding and temperature control of Eppendorf Microplates with V or U bottom                                                                  |
| <b>Thermoadapter Frosty</b> , combination of height adapter and PCR-Cooler, for cooling skirted PCR plates                                                                                    |
| <b>Thermoadapter DWP 96</b> , for Deepwell Plates 96/1000                                                                                                                                     |
| <b>Thermoadapter LC Sample</b> , for MagNA Pure LC sample cartridge                                                                                                                           |
