

## Press Release

# Eppendorf & Science Prize for Neurobiology 2025: Call for Entries!

Hamburg, February 2025

Eppendorf and the journal *Science* are now accepting applications for the 2025 Eppendorf & Science Prize for Neurobiology. This annual international research prize of US\$25,000 is awarded to young scientists for their outstanding contributions to neurobiological research based on methods of molecular, cellular, systems, or organismic biology. Researchers who are not older than 35 years are invited to apply by June 15, 2025. The winner and finalists are selected by a committee of independent scientists, chaired by *Science's* Senior Editor, Dr. Peter Stern.

The 2024 prize was won by the American scientist Laura Seeholzer, Ph.D., University of California, San Francisco, USA for her research on airway neuroendocrine cells responding to external threats.

For more information about the prize and film interview with Laura Seeholzer, go to [www.eppendorf.com/prize](http://www.eppendorf.com/prize).

## About Eppendorf Group

Eppendorf is an international leader in the life science industry, developing, producing and distributing equipment, consumables and services that are used in laboratories around the world.

The product portfolio of the divisions Liquid Handling, Consumables, Separation & Instrumentation and Bioprocess includes pipettes, pipette tips, centrifuges, mixers, ULT freezers and bioreactors for cell and gene research. Furthermore, Eppendorf offers a wide range of high-quality consumables. Eppendorf Group reported a total sales figure of 1.08 billion euros for the financial year 2023 while their research and development (R&D) investments amounted to 69 million euros.

Eppendorf products are used in academic and industrial research laboratories, for example in pharmaceutical, biotech, chemical and food companies. Other fields of application for Eppendorf products include clinical and environmental analytical laboratories, forensics and industrial laboratories for process analysis, production and quality assurance.

Eppendorf Group is headquartered in Hamburg, Germany, since 1945 and has production facilities and R&D sites in Europe, Asia and North America. The Group's subsidiaries are spread across 33 countries. Today, the Group has more than 5,000 employees around the world. In their everyday work, all of these employees have one and the same mission, proclaimed by the company's founder: Improving human living conditions.
