

Bring your epMotion®
back into your routine

(Re-)Start your Lab Automation

Practical training, an expert check-up for your epMotion®, and more.

Researchers (like you) often spend a significant part of your day preparing samples. That means pipetting. A lot.

If you already have an epMotion that was installed less than 8 years ago, this package could help you to restart forgotten habits, and take routine pipetting off your hands. By using your epMotion to its full potential, you could boost your accuracy, speed, reproducibility — and ultimately the productivity of your lab.

Get your epMotion ready for use again with packages starting from €2,200:

- A professional service visit, to ensure your device is running smoothly
- Hands-on training. Our experts will help you to build confidence and fundamental skills
- €1000 of free epMotion pipette tips
- Exclusive discounts on an annual service plan

Was your epMotion installed less than 8 years ago? Choose your package:

Restart your epMotion 5070 for €2,200*

Our most compact device, perfect for various liquid handling tasks including serial dilutions, reagent distribution, sample transfer and normalization.

Order no. 0082 030 109

Restart your epMotion 5073 for €2,200*

This device offers flexibility. It is suited for PCR/qPCR setup, nucleic acid purification and low-throughput NGS library preparation, and also retains the flexibility of an open platform.

Order no. 0082 030 109

Restart your epMotion 5075 for €3,300*

Our largest device can handle even complex workflows and a wide range of configurations, from NGS library preparation, PCR/qPCR, magnetic bead-based purification and flexible routine pipetting.

Order no. 0082 030 110

Included in this package*:

Service

Full maintenance to bring your instrument back to manufacturer specifications.

For more details about the specific features:

- epMotion 5070, see item number 0082 030 010
- epMotion 5073, see item number 0082 030 011
- epMotion 5075, see item number 0082 030 012

Reinstallation

Our experienced Eppendorf-trained service technicians will reinstall your software and support you with the correct instrument settings for your environment

Training

An epMotion specialist will provide four hours of training for up to 6 people, covering fundamental skills and answering your questions, right at the bench

Pipette tips

Select up to €1,000 of epT.I.P.S.® Motion pipette tips, as part of your package. 37 varieties available, view the range at www.eppendorf.link/eptipsmotion

Stay ready, each and every year

Ask about our instrument service agreements. You could save 15% on our AdvancedCare or 25% on our PremiumCare service options.

*This offer is valid only for devices that were first installed less than 8 years ago. The offer is available from September 1, 2026 until December 31, 2026 for customers located in Andorra, Austria, Belgium, France, Germany, Ireland, Italy, Luxembourg, Monaco, the Netherlands, Poland, Portugal, Spain, Switzerland, and the United Kingdom. Dispensing tool calibration (if needed) is excluded. An Eppendorf specialist will provide up to four hours of informal, hands-on training for a maximum of 6 participants. The agenda will be tailored to the purchaser's stated requirements, including the participants' experience levels and application needs. However, Eppendorf will retain discretion over the final training content and delivery. Training will be conducted at the bench and must be hosted by the purchaser at one location only. For the purposes of service, re-installation and training, the purchaser is responsible for providing suitable access to the epMotion instrument, workspace, required materials, and applicable site safety arrangements.
