Instructions for use
Capillary holder 4
English (EN)

This document is a supplement to the Microinjektor operating manual and does not replace it. Therefore, also read the operating manual. The current version is available on the Internet at www.eppendorf.com/manuals.

1 Main illustration of capillary holder 4

Fig. 1: Capillary holder 4

1 Capillary
2 Grip head 4 size 0
3 O-ring in the grip head
4 Distance sleeve in the grip head
5 O-ring in the grip head
6 Knurled screw
7 Capillary holder
8 Port for injection tube
9 Femtotips
10 Adapter for Femtotips
11 O-ring in the Femtotip adapter
12 Cleaning stylet
2 Application with capillaries

2.1 Inserting the o-rings and the distance sleeve

Prerequisites
- O-rings matching the grip head size are available.

1. Place the new o-rings and the distance sleeve on a flat surface.
2. Press the grip head vertically onto the first o-ring and push the o-ring into the grip head using the capillary holder.
3. Press the grip head vertically onto the distance sleeve and push the distance sleeve into the grip head using the capillary holder.
4. Press the grip head vertically onto the second o-ring and push the o-ring into the grip head using the capillary holder.

2.2 Inserting the capillary

Only capillaries with an outer diameter of 1.0 mm to 1.1 mm fit into the grip head of size 0. When using different diameters, the suitable grip head size must be ordered.

Prerequisites
- The grip head is inserted loosely in the capillary holder.

1. Push the capillary through the o-ring in the grip head until the capillary stop.
2. Tighten the grip head.
3. If necessary, align the capillary using the front knurled screw.
2.3 Replacing the o-rings in the grip head

Fig. 2: Grip head with removal tool

1 Distance sleeve
2 O-rings
   Inner diameter 1.0 mm
3 Grip head 4 size 0
4 Removal tool
   Hook with protective sleeve

Prerequisites
- The grip head has been unscrewed from the capillary holder.
- The capillary has been removed from the grip head.

The hook of the removal tool is used to pull out the o-rings and the distance sleeve.

1. Pull out the first o-ring.
2. Pull out the distance sleeve.
3. Pull out the second o-ring.
4. Insert new o-rings.

2.4 Assignment grip heads – o-rings

<table>
<thead>
<tr>
<th>Grip head size</th>
<th>For capillary diameter</th>
<th>O-ring inner diameter</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>1.0 mm – 1.1 mm</td>
<td>1.0 mm</td>
</tr>
<tr>
<td>1</td>
<td>1.2 mm – 1.3 mm</td>
<td>1.5 mm</td>
</tr>
<tr>
<td>2</td>
<td>1.4 mm – 1.5 mm</td>
<td>1.5 mm</td>

</tbody>
</table>
3 Application with Femtotips
3.1 Inserting Femtotips
1. Unscrew the grip head.
2. Screw the adapter for Femtotips into the capillary holder.
3. Screw Femtotips into the adapter.

3.2 Replacing the seal in the adapter for Femtotips
1. Unscrew Femtotips.
2. Use the hook of the removal tool to pull out the o-ring.
3. Insert a new o-ring and push it into the adapter using the capillary holder.
