

Centrifuge 5702 / 5702 R / 5702 RH

*CE

General Benefits

- > **Small footprint:** Medium capacity (40 x blood tubes) at a very compact footprint
- > **High versatility:** Spin a large variety of different blood and urine tubes including pediatric tubes (Microtainer® or MiniCollect®)
- > **Optimal conditions:** Optimum pellet formation due to swing-out rotor for contamination-free removal of the supernatant
- > **Strong sample safety:** Timer function and program buttons (Centrifuge 5702 R) for reproducible results

* Manufacturer adapter needed

** Only fits 11 mm diameter tubes

*The Centrifuge 5702/5702 R/5702 RH is a nonautomatic centrifuge for the separation of liquid substance mixtures from the human body and is specifically intended to be used as an accessory together with an in vitro diagnostic device and to enable its use according to its intended purpose. For in vitro diagnostic use, Eppendorf Centrifuges are exclusively intended for indoor use by trained specialists.
