

Eppendorf Certificate

Certificate of Quality

Wide-neck bottle

The Eppendorf Quality Management System is certified according to the international standards ISO 9001:2015-09, ISO 13485:2016-03, and ISO 14001:2015-09. All wide-neck bottles are subject to regular quality inspections. Tests being performed are e.g. vapor tightness, lid-opening force, wall strength, and centrifugal stability.

Wide-neck bottles are made of virgin polypropylene of highest purity and quality. Neither the material suppliers of Eppendorf nor Eppendorf use or intentionally incorporate the following additives for the production of the wide-neck bottles based on the Ph. Eur § 3.1.3, § 3.1.6 and USP chapter <661.1>.

- Slip agents (including oleamide, erucamide, stearamide)
- Biocides (including di(2-hydroxyethyl)methyldodecylammonium salts (DiHEMDA))
- Plasticizers (phthalates)
- Latex
- Melamine
- Silicone

Eppendorf confirms that the wide-neck bottles comply to REACH regulation of the European Union EC No 1907/2006^{*1} amended by Commission Regulation EC No. 552/2009 and that they do not use chemicals mentioned in the California Proposition 65 List as additives.

The used raw materials for wide-neck bottles comply with the requirements as described in the current version of the FDA, CFR, Title 21 (Food and Drugs) in chapter 177.1520 (a)(1), (b) and (c)1.1 "Olefin polymers" regarding substances used for manufacturing of materials and articles or components of articles intended to come into contact with food.

wide-neck bottle	Order no.
400 mL	5910707002
1000 mL	5910770006

^{*1} Due to the materials manufacturing process traces of n-butyl phthalate in the range of less than 20 ppm can be found, which is far below the maximum level of 0,1 % (1000 ppm) allowed for substances listed in the SVHC data base.
