

eProcurement with Eppendorf

Bringing Quality and Value to Your Supply Chain

Eppendorf has gained the trust of generations of researchers by providing innovative, high quality and reliable products. With an Eppendorf eProcurement catalog, users can access the products they need for critical applications via a more efficient, simple and intelligent purchasing process. We share our customer's goal of streamlining the procure-to-pay process with a robust, user-friendly and customizable eProcurement environment.

Our capabilities include:

- > Punchout and Hosted Catalogs
- > cXML PO's and Invoices
- > Quote to Order
- > Stock Availability
- > Quick Order
- > Hotlists
- > Level II and Live Price

Our dedicated eCommerce team will work with you to build a solution that best suits your eProcurement environment, purchasing requirements and business needs. We are connected with dozens of eProcurement systems, including SAP Ariba, Oracle, Coupa, Jaggaer (SciQuest), Unimarket, and many more. You can count on Eppendorf's expertise with to ensure a seamless connection experience and a high level of post connection user support.

An Eppendorf catalog can bring added value to your supply chain by reflecting custom account pricing, or you can opt in to discounts with one of Eppendorf's competitively bid Group Purchasing Contracts.

We value your time and your business and want to become a partner to help achieve your procurement goals. Contact us at eprocurement@eppendorf.com if you are interested in learning more.
