

1961–2021 Innovation Milestones

1958
Patent of the first piston stroke pipette

1961
Marburg Pipette

1964
Marburg 3110

1970
Eppendorf 3130

1976
Comforpette 4700

1978
Multipette® 4780

1979
Varipette® 4710

1991
Unipette 3190

1994
Eppendorf Reference® 4910

1995
Titerman 4908

1996
Eppendorf Research 3110

1998
Multipette® plus

1999
Eppendorf Research® pro

2006
Multipette® Stream/Xstream

2009
Eppendorf Research® plus

2011
Eppendorf Xplorer® plus

2013
Multipette® M4

2013
Eppendorf Reference® 2

2015
Multipette® E3/E3x

2020
Eppendorf MoveIt®

2021
VisioNize® pipette manager

Every piston-stroke pipette in the world carries Eppendorf DNA

In 1961, Eppendorf launched the world's first industrial manufactured piston-stroke pipette.

The »Marburg Pipette« featured the same basic elements that we find in today's labs: a spring-loaded piston and a removable plastic tip. This alternative to mouth pipetting changed scientific research forever.

Celebrate the pipette anniversary with us at www.eppendorf.com/60-Years
