Beyond Generations

Celebrating 60 years of Eppi

60 Years of Eppi® Consumables Promotion

For this momentous celebration, we have a once in a lifetime 25% off on selected Eppendorf consumables. From our wide range of epT.I.P.S® to the Eppendorf Tubes® and our highly precise Combitips® advanced to the automation reliable twin.tec® PCR plates, don't miss out on this first come first serve promo while stocks last!

Get 25% off selected consumables range*.

The Research® plus manual pipettes is designed for a sustainable and ergonomic pipetting experience

- > Minimal tip attachment forces due to a spring-loaded tip cone (all pipettes up to 1 mL) that reduces stress on your arm
- > Spring-loaded tip cone of an 8/12-channel pipette ensures all tips are attached in the same manner across all channels leading to uniform and consistent pipetting volumes
- > Thumb-friendly with low operating and tip ejection forces
- > Autoclave the entire pipette or only the lower part
- > Premium material ensures a high UV and chemical resistance
- > epServices prolong the lifetime and accuracy of your pipettes

20% savings with the Research® plus 6-Pack

15% off Research® plus 3-Pack, Option 1 or 2

For details, please fill in the [inquiry form](#)

Description	Order no
Research® plus, 6-pack with Pipette Carousel 2, single-channel, variable, incl. 6x epT.I.P.S.® Box 2.0	3123000942
Research® plus, 3-pack, Option 1: 0.5 – 10 µL, 10 – 100 µL, 100 – 1,000 µL, variable volume incl. 3x epT.I.P.S.® Box 2.0 and ballpoint pen	3123000900
Research® plus, 3-pack, Option 2: 2 – 20 µL yellow, 20 – 200 µL, 100 – 1,000 µL, variable volume incl. 3x epT.I.P.S.® Box 2.0 and ballpoint pen	3123000918

* Promotion is valid until 15th December 2023

Get the Research[®] plus Single at 12.5% off

Missing any volume ranges or just adding specific volume ranges to your lab? Get the Research plus single-channel at 12.5% off per piece.

Description	Order no
Research [®] plus 1-channel, variable 0.1 - 2.5 µL, dark gray	3123000012*
Research [®] plus 1-channel, variable 0.5 - 10 µL, medium gray	3123000020*
Research [®] plus 1-channel, variable 2 - 20 µL, yellow	3123000039*
Research [®] plus 1-channel, variable 10 - 100 µL, yellow	3123000047*
Research [®] plus 1-channel, variable 20 - 200 µL, yellow	3123000055*
Research [®] plus 1-channel, variable 100 - 1000 µL, blue	3123000063*
Research [®] plus 1-channel, variable 0.5 - 5 mL, purple	3123000080**
Research [®] plus 1-channel, variable 1 - 10 mL, turquoise	3123000071**
Research [®] plus 1-channel, variable 2 - 20 µL, light gray	3123000098*
Research [®] plus 1-channel, variable 30 - 300 µL, orange	3123000101*
Research [®] plus 1-channel, variable, 0.25 - 2.5 mL, red	3123000144**

* - incl. epT.I.P.S.[®] box

** - incl. epT.I.P.S.[®] sample bag

We accept all brands and condition.

- > Old and worn pipettes
- > No longer serviceable
- > Non-available spare parts
- > Not calibratable
- > Broken pipettes

 **20% OFF Research[®] plus 8/12-channel pipettes. Please fill in the inquiry form**

 **Get a special trade-in price. Get a quote or scan here**

		Research [®] plus 1-channel, variable, 0.25 - 2.5 mL, red	3123000349

All pipette and trade in promotions end on the 15th December 2023

All trade-in Research plus pipettes comes without epT.I.P.S.[®] box 2.0

Sustainable Centrifugation

Protect your samples and the planet!

If your lab is aiming to achieve sustainability goals, Eppendorf can help get you there.

Centrifuge 5910 Ri - with its 4L capacity and compact footprint, unique universal adapter concept to handle a variety of applications, superior cooling technology to protect your samples and save on energy and NOW certified with ACT environmental impact factor label.

NEW Centrifuge 5427 R - with hydrocarbon cooling

- > Natural cooling agent R290 (propane)
- > Spin up to 48 x 1.5/ 2.0 mL tubes in a compact footprint
- > Choice of 9 rotors for versatility incl. speed up to 25,001 x g
- > Certified with ACT environmental impact factor label.

Your benefits (and the planet's):

- > **Energy Savings** - achieved with superior cooling technology that also protects your sensitive samples
- > **Ergonomics** - Easy access, intuitive operation and flexible options to suit many applications
- > **Longevity** - High quality parts and robust design enable years of trouble free usage in the lab.
- > **Cooling liquid** - used in 5427 R has a lower global warming potential compared to conventional refrigerants e.g. R134a

For more information on sustainable centrifugation, tools to help your lab become more sustainable and to see what Eppendorf is doing to achieve our own sustainability goals visit www.eppendorf.com/sustainable-centrifuge

CellXpert® C170i

- > Save up to €8300 over 5 years
- > Reduce contamination risk
- > Gain up to 25% growing space

Find more about the different variants of CellXpert® C170i by clicking [here](#). Please expect longer delivery time, contact your Local Territory Manager for more details.

Mastercycler® nexus

- > Universal block and flexlid® for all types of PCR consumables
- > SteadySlope® for optimal temperature control
- > Efficient Peltiers for low energy consumption

Contact your local Eppendorf Territory Manager for promotion details. Promotion is valid until 31st December 2023

New Brunswick S41i CO2 Incubator

- > Homogeneous shaking with triple eccentric drive
- > Stackable up to 2 units for higher capacity
- > Efficient decontamination with HTD

Learn more about the S41i by clicking [here](#)

Centrifuge 5425 R

- > Ideal partner for molecular biology workflows.
- > Max. speed: 21,300 x g (15,060 rpm)
- > Short pre-cooling time of only 8 minutes (~21 °C to 4 °C)
- > Aerosol-tight QuickLock® rotors take the strain off your wrist

Centrifuge 5430 R

- > Flexible solution for molecular biology and clinical labs.
- > Spin up to 48 x 1.5/2.0 mL, 6 x 15/50 mL, 2 x MTP
- > Max. speed: 30,130 x g (17,500 rpm)
- > Aerosol-tight QuickLock® rotors take the strain off your wrist

Centrifuge 5702

- > Ideal for clinical labs
- > SOFT function optimized for cell separation by gradient centrifugation
- > Rotors for blood collection tubes or 15/50 mL conical tubes
- > Aerosol-tight caps certified by HPA, Porton Down, UK

Centrifuge 5810 R

- > Max. speed: 20,913 x g (14,000 rpm)
- > Maximum capacity of 4 x 750 mL (or 28 x 50 mL / 56 x 15 mL), 16 x MTP
- > Compact footprint saves valuable bench space
- > Low lid opening height for use under shelves

Centrifuge 5910 Ri

- > Flexible centrifugation solution
- > Spin up to 4 x 1,000 mL (or 68 x 15 mL / 36 x 50 mL), 20 x MTP
- > Universal adapters for 5/15/25/50 mL tubes and plates
- > Supports GLP/GxP requirement

Be Confident About Your Sample Safety

Get connected to VisioNize® Lab Suite

What is the cost of leaving your freezer door open?
 Monitor your freezers from anywhere receiving real-time notifications of any temperature fluctuations or power failures.

VisioNize Lab Suite offers everything you need to effectively manage your lab and ensure the safety of your samples.

Real-Time Monitoring

Monitor your entire freezer fleet and track device status, parameters (e.g. temperature), and history from anywhere

Task Management

Plan and assign device-related maintenance tasks to ensure optimal device performance

Device Connectivity

Connect and monitor all your freezers including 3rd party with VisioNize sense monitoring kit*

Easy Data Access

Export device and event data, as well as logged user interactions

Alarm Management

Track all alarm acknowledgements with time-stamped data logs

Instant Notifications

Receive alarm and event notifications and quickly address any issues

Response-Based Alarm Escalation*

Define escalation schemes to individual or multiple recipient groups based on lab presence.

Protecting your Samples

Ensure the safety of your samples 24/7

* Note: Currently available in Thailand and Malaysia and soon in Singapore

Secure your samples with VisioNize Lab Suite for free!
 Discover more on what VisioNize Lab Suite can offer by clicking the link below:
https://eppeendorf.group/VNLS_MY_SG_2H

Sustainable Solutions for Your Lab

With our climate strategy, we aim to cut carbon emissions in Eppendorf operations down to zero before 2028. That means striving for the shortest delivery distance, the most sparing consumption of resources, the solution that produces the least waste, and the sensible re-use and recycling of materials.

Ask your account manager about sustainable lab consumables and devices for your lab.

- > BioBased consumables made from renewable materials
- > Centrifuges with low global-warming potential
- > ULT Freezers with green cooling and low energy consumption
