Enhancing every step of your sample journey

Your Sample. Our Passion.

The success and validity of all your work, all your expertise and effort you put in every day, the time you invest, the value to the whole of science, lies in tiny, fragile samples. Just one failure, whether it is a lost or destroyed sample, has a huge impact on the quality and success of your research.

Your samples are precious, some are invaluable, and they can make or break your next discovery. Therefore, **sample handling is key**. From the very

first sample to the last. From cell culturing, through preparation and final analysis. It is our passion to support you with our services and expertise, as well as sustainable products and digital solutions for reliable work with your samples. We simply want to create optimal conditions for your research and give you the assurance that your samples are in good hands at every step of the workflow.

SAMPLE ANALYSIS

To cool or not to cool...

Centrifuge 5425 and 5425 R

— Let your sample choose the best separation solution offer

Both 5425 and 5425 R offer superior sample protection for samples in 1.5 mL and 2.0 mL tubes.

- > Automatic lid opening in 5425 prevents sample overheating
- > Superior temperature control in 5425 R for temperature-sensitive samples
- > Other rotors available for PCR tubes/strips, 5 mL tubes and more

Your sample in safe hands
- Eppendorf Tubes® SafeLock and LoBind®

WhatsNext offer

- > Get 15% off RRP on any 5425 non-refrigerated centrifuge bundle with 24-place rotor
- > Get 10% off RRP on any 5425 R refrigerated centrifuge bundle with 24-place rotor
- > Get 15% off the NEW 5425 R Molecular Biology Bundles including our unique Kit rotor for spin columns

Ensure top performance spin after spin
www.eppendorf.com/centrifuge-service

Protect your new centrifuge:

Add a 1-year extended warranty to your order when you buy a Centrifuge 5425, 5425 R or 5910 Ri to get 30% off the RRP of the extended warranty agreement.

Universally versatile for every sample

Centrifuge 5910 Ri offers you all the benefits of a 4 L device in a smaller footprint.

- Perfect for the lab that needs multiple separation solutions from one centrifuge.

Spin more for less with our unique universal rotor and adapter concept

- > Adapter 1: Eppendorf Tubes® 5.0 mL, 15 mL conical tubes and DWP
- > Adapter 2: 25/50 mL conical tubes and MTP
- > Adapter 3: 25/50 mL conical tubes, 250 mL bottles and MTP

Your benefits:

- > **Save Time:** No need to exchange buckets or adapters means more comfort when using tubes and plates
- > **Save Costs:** No need to buy separate adapters for all different vessel types or buckets (e.g. one for tubes and one for plates)
- > **Save Space:** No need to store different buckets or adapters – save valuable lab space

BONUS aerosol tight caps and plate carriers with these bundles

- 2230000085 Centrifuge 5910 Ri Promo Bundle 1 with S-4xUniversal rotor and adapter sets 1 and 3
- 2230000086 Centrifuge 5910 Ri Promo Bundle 2 with S-4xUniversal rotor and adapter sets 1 and 2

Increase Your Versatility

Choose ThermoMixer® C, with Smart-Blocks and Deepwell plate options

- > A large number of SmartBlocks enables vessel flexibility and can future-proof your purchase
- > Automatic SmartBlock recognition — saving you time and ensuring the best settings for your vessel
- > Secure and consistent cell thawing with the SmartBlock cryo thaw to keep your samples alive
- > Efficient Peltier elements and smart run control software contribute to low energy consumption

Add a 1-year extended warranty to your order when you buy a ThermoMixer® C to get 30% off the RRP of the extended warranty agreement.

Growth In Motion

Our large range of incubated and refrigerated shakers allows you to choose the system that best suits your cells' growth needs.

The Innova® S44i stackable floor standing shaker offers a premium experience for optimised protein expression conditions.

- > Shake more – up to 2x higher flask capacity and more yield
- > Shake faster – up to 400 rpm even when triple stacked, with ± 0.5 rpm adjustments
- > Shake consistently – $\pm 0.1^\circ\text{C}$ temperature control for consistent culture growth
- > Shake reliably – Eppendorf has a reputation for reliability and robustness.

Save now and secure your Shaker for 2023!

Choose from one of the incubated or refrigerated shakers below. Up to 8 months lead time for supply.

Unleash Your Potential

Meet the new epMotion® automated liquid handler

The new generation of epMotion® automated liquid handlers have been designed to enhance the user experience while maintaining high levels of performance.

Available in two sizes and six configurations to suit your research needs.

- > Sleek design and compact size to fit any lab space
- > Unparalleled pipetting accuracy and precision in liquid handling
- > Intuitive software ensuring ease of use for the end-user
- > Optimised protocols cater to specific application needs
- > Extended walk-away capabilities to reduce hands-on time

The new epMotion is an excellent addition to any lab.

Introducing the Eppendorf Service Portal

Are you looking to stay on top of the pipette calibration and service needs for your lab?

The Eppendorf service portal is an efficient and paperless system that allows you to simply and quickly order pipette calibration and maintenance services

Your benefits:

- > Convenient and fast web-based pipette booking system
- > Tailor calibration intervals to suit your lab needs and budget
- > Plan upcoming tasks and receive reminders when service is due
- > Provides real-time view of your order status
- > Paperless and traceable documentation order history to be audit ready

Visit www.eppendorf.com/AU-en/discover/eppendorf-service-portal/ to learn more about the Eppendorf Service Portal.

Pipette Trade-In Program

Trade-in or upgrade any brand and condition of pipette and choose from our broad range of manual and electronic pipettes, and dispensers:

- > Eppendorf Research® plus
- > Eppendorf Reference® 2
- > Eppendorf Xplorer® or Xplorer® plus
- > Multipette® M4
- > Multipette® E3/E3x
- > Varispenser® 2
- > Easypet®

Contact your sales specialist for more information today!

Daily Support

For reliable and efficient PCR performance day in and day out, the Mastercycler® nexus gradient PCR cycler is the ideal choice.

Your benefits:

- > Universal block for ultimate flexibility
- > Advanced gradient capabilities
- > Versatile flexlid® to fit your chosen consumables.

Mastercycler Service

Add a 1-year extended warranty to your order when you buy a Mastercycler® nexus gradient and get 30% off the RRP of the extended warranty agreement.

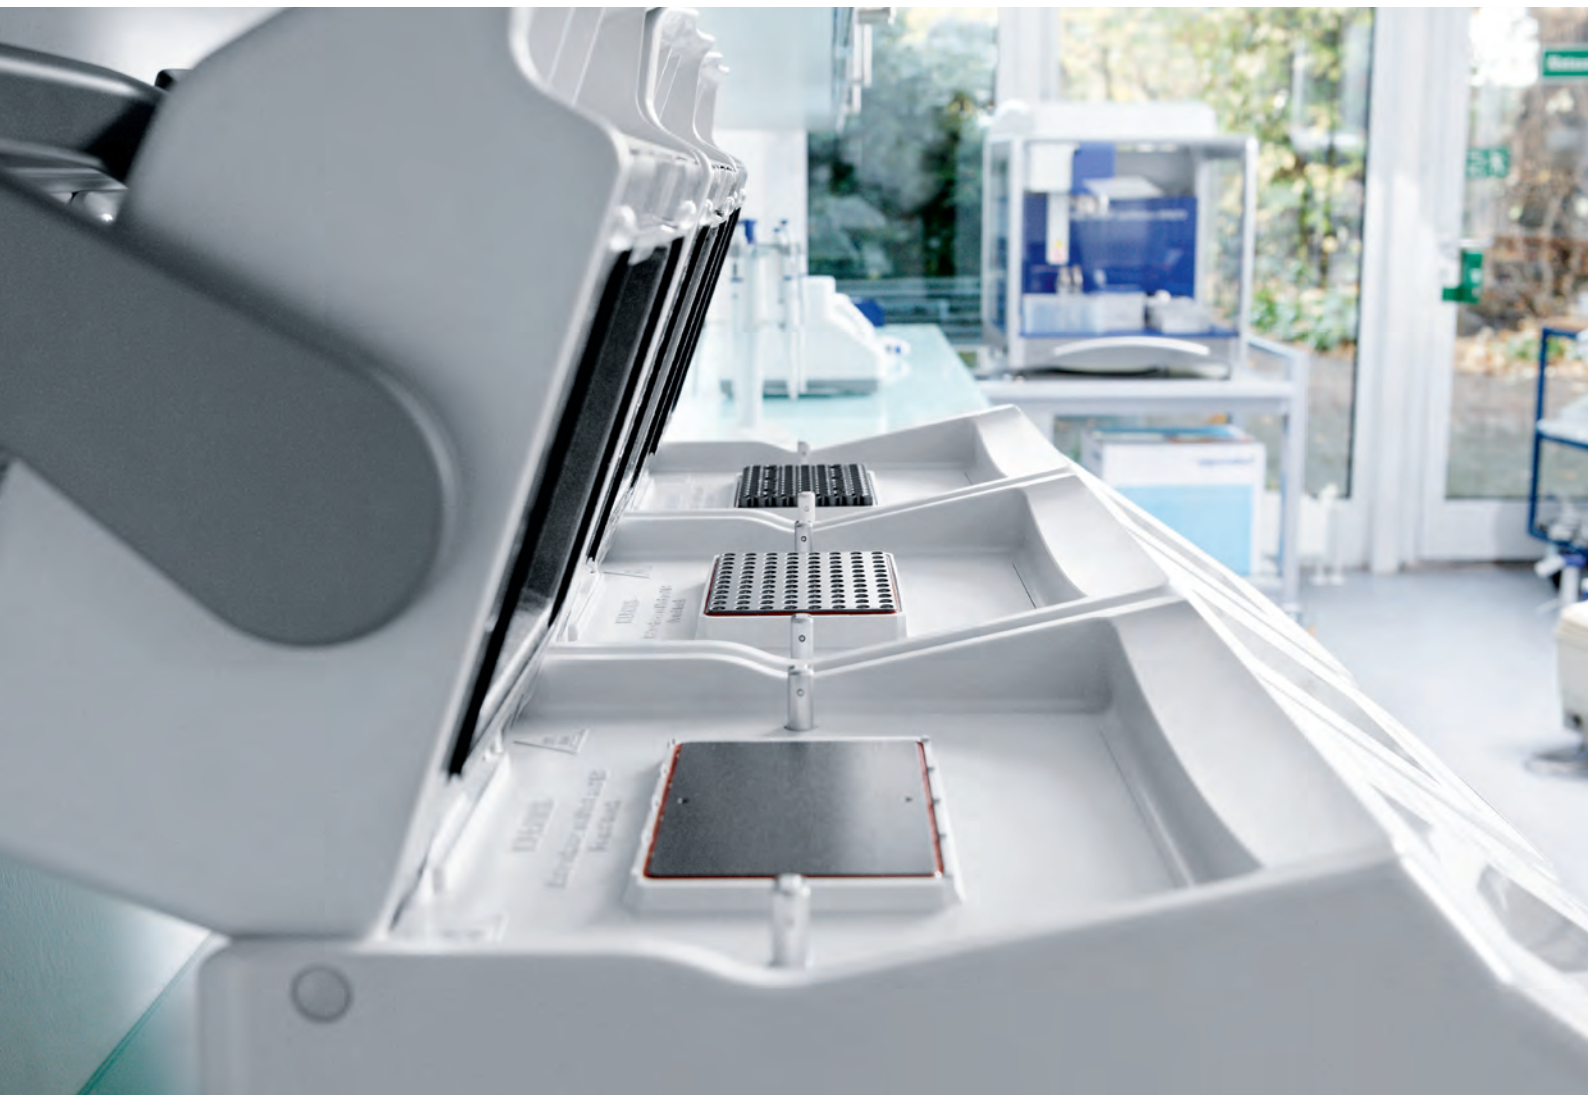

Enjoy a 34% discount on the RRP of the Mastercycler nexus gradient PCR cycler until June 30th, 2023.

Your Project Matters

At Eppendorf, we believe that researchers and scientists in academia have the power to change the world through their tireless dedication to advancing knowledge and understanding, and we are committed to supporting and celebrating these amazing individuals.

If you or someone you know is conducting groundbreaking research that is improving lives let us know! Together, we can celebrate the remarkable work being done in the world of science and inspire the next generation of scientists to make their mark.

For more information visit:
www.eppendorf.com/yourproject

Get in touch with us!

If you'd like to join Eppendorf's faces of science community and discuss your research, we'd love to hear from you. Tell us how your work is having an impact on the world, and you may have the chance to be interviewed.

Serving You Beyond the Product

Improve your instrument uptime and have peace of mind with our basket of service solutions. We take the load off your shoulders by simplifying your ordering and budgeting processes for various services over the full lifetime of your instruments.

Your needs, our solutions

You concentrate on your research and routine work while we take care of your device - even beyond the product. Keep up to date with new trends, methods, and technologies with our training and application support.

- > Precise and accurate: calibration services
- > Perfect working order: repair services
- > Beyond the product: applications, trainings, and webinars

For more details, visit www.ependorf.com/epServices

Longevity

Instrument reliability is essential for the daily operation of your lab. Extend the life of your equipment with regular maintenance, high quality parts and expert engineers.

Reward Yourself

Being rewarded has never been easier

Register your product for endless benefits. Get an additional three month warranty on centrifuges, shakers, incubators and cyclers.

Register your product for even more benefits*:

- > Up to 100 epPoints® towards a gift of your choice discount on your next eShop purchase
- > Additional three months' warranty on special devices
